Water Powers—At formation in 1913, company leased from the Quebec Government for 75 years, the riparian rights to its present location, covering an area exceeding 25 miles of river-bed on the St Francis River. This water way after draining an area of 4,000 square miles drops 300 ft. to sea level, forming six water powers, only two of which are at present developed. In addition company owns a power site on the Magog River, at Sherbrooke (partially developed), and several less important developments on the Yamaska and Eaton Rivers. It also possesses smaller developments on the rivers Salmon, Tomifobia, Massawippi and Nigger. In all, Company controls 20 power sites which at full development will generate over 200,000 h.p.

Power Plants—Company's largest plant is situated at Hemmings Falls, on the St. Francis River, 3 miles above Drummondville, construction of which was begun in Aug., 1923, and completed in July, 1925, at a cost of $4,000,000, and is equipped with six 6,000 h.p. units, giving a total capacity of 36,000 h.p. The Drummondville plant, also on the St. Francis River, has been enlarged with two 6,000 h.p. units and now has a total capacity of 18.000 h.p. The Sherbrooke Plant on the Magog River has 3 units of a total capacity of 4,000 h.p. Other plants consist of: Farnham, 600 h.p.; Foster, 160 h.p.; Upper Westbury, 175 h.p.; Lower Westbury, 137 h.p. Company also has an auxiliary steam plant at Farnham. Total present capacity 58,772 h.p.

Contracts—Company has a 15-year contract with Shawinigan Water & Power Co. for the sale to it of 10,000 h.p. It also has a reciprocal contract with Montreal Light, Heat & Power Consolidated for the purchase and sale of energy for emergency service.

Control of Sherbrooke Ry. & Power Co.—The Southern Canada Power Co., Ltd., in Dec., 1916, offered to take over control of the Sherbrooke Ry. & Power Co. and to give in exchange one share of new Preference stock for four shares of the capital stock of the Sherbrooke Co. It is reported that over 98% of the shareholders of the Sherbrooke Co. have exchanged their stock for Southern Canada stock.

Management—The Power Corporation of Canada, Ltd. (see General Index) has a substantial interest in and manages the property of the Southern Canada Power Company, Ltd.

RUMFORD FALLS POWER COMPANY

(Controlled by Oxford Paper Co.)

History and Properties—Incorporated in 1890 in Maine. Owns and operates water power developments on the Androscoggin River at Rumford, Maine, about 80 miles from Portland. At this point the river has an aggregate drop of 180 feet, within a distance of about one mile. The Androscoggin River has its source in the Rangeley Lakes, which with Sawyer Lake, created by the Aziscohos Dam, have an available storage capacity of 30,000,000,000 cubic feet of water.

The Company owns and operates on its own land a hydro-electric power station with an installed equipment of 42,000 h.p. It also furnishes an additional 23,000 h.p. in the form of water from its canals to large consumers.

The two dams owned are of solid construction, and are situated at proper intervals down the river. Company furnishes electric energy to the Rumford Falls Light & Water Company, and for manufacturing purposes. During the years 1916-1918 the Company rebuilt its hydro-electric station, installing new and modern equipment according to plans for permanent and complete development so that future enlargements may be made as needed. Also owns the entire outstanding capital stock ($665,000) and guarantees the bonds of the Rumford Falls Realty Co. (see below); also owns $750,000 of the capital stock of Portland & Rumford Falls Ry. Co. (see statement in Steam Railroad Volume); and the entire outstanding capital stock ($44,300 of the Rumford Falls Boom Co.)

THE LIBRARY OF THE UNIVERSITY OF ILLINOIS

Light Company, operating in the City of Detroit. In 1915 The Detroit Edison Company purchased and took title to the real estate and plants of its subsidiaries and since that time has done business in its own name.

The Company is required to maintain the corporate existence of four subsidiary electric companies—The Edison Illuminating Company, The Peninsular Electric Light Company, Washtenaw Light & Power Company, and St. Clair Edison Company. The Peninsular Electric Light Company continues as an electric light and power company, having been incorporated under an act applying to such companies alone. The other three companies are not now active in public service. All of the securities of these companies are owned by The Detroit Edison Company.

Territory Served—Company does entire commercial electric lighting and industrial power business in the cities of Detroit, Ann Arbor, Dearborn, Farmington, Ferndale, Fordson, Hamtramck, Highland Park, Howell, Lincoln Park, Marine City, Marysville, Monroe, Mt. Clemens, Port Huron, River Rouge, Royal Oak. St. Clair, Yale and Ypsilanti, also in 67 incorporated villages and 103 unincorporated communities, with a total population estimated at 2,100,000, all in the State of Michigan. The outer territory is tributary to Detroit and is all served by one interconnecting system of transmission lines.

Practically all the factories in the district use electric motive power. Of Detroit industries, the best known is the making of motor cars, in the production of which it leads the world. The City, however, is a leader in other lines, such as pharmaceutical manufactures, varnishes, stoves, steel stampings, aluminum castings, copper and brass plate and sheet, and has the largest development in the United States of the alkali industries. The Company does a large steam heating business in the City of Detroit and supplies gas for industrial and residential purposes in the cities of Port Huron, Marysville and St. Clair.

Property—The Company operates four large steam power plants having a total rated capacity of 633,000 k.w. and nine small hydro plants on the Huron River with a total capacity of 9,160 k.w. All plants are connected with each other and with the territory served by a comprehensive system of transmission and distributing lines, the output being distributed through 143 substations and out-door substations. The Delray Plant (123,000 Kw.) is located on a 33 acre site about four miles west from the center of the City of Detroit on the Detroit River. The Connors Creek plant (180,000 Kw.) is located on a 31 acre site on the Detroit River, just below Lake St. Clair at the east end of the City of Detroit and has been in operation since April, 1915. The Marysville plant (80,000 Kw.) is situated on a 54 acre site about five miles south of the City of Port Huron on the St. Clair River. The Plant was put in operation in November, 1922. The Trenton Channel plant (250,000 Kw.) is located on a 66 acre site, about 16 miles south of the center of Detroit on the Trenton Channel of the Detroit River. The principal departure here from the practice in the other three plants of the Company is in the use of pulverized fuel. This plant was put in operation in July, 1924, and is designed to house one more unit giving it, ultimately, a capacity of 300,000 Kw. All of these large steam plants are easily accessible to railroads and short intake canals from River Channels furnish an unlimited supply of water for condensing purposes.

The Heating System in the business section of Detroit is fed by 3 large modern Boiler Plants having an aggregate capacity of 30,617 B.H.P. and supplying steam to 1,985 customers. The new Beacon St. Heating Plant has boilers each rated at 4,200 B.H.P.

A new Gas Generating Plant was put in service during 1926 on the Marysville Power Plant site replacing the old Gas Plant in the City of Port Huron acquired through the purchase of the Port Huron Gas and Electric Company in 1919. Gas service is rendered to 8,400 customers.

The 120,000 volt transmission system of the Company comprises 3 lines of 2 circuits each connecting the Trenton Channel Power Plant to the City of Detroit and 1 line connecting the Marysville Power Plant to the City. In addition there is a 120 mile loop extending around Detroit from Trenton Channel to Marysville which traverses the heart of the suburban territory and serves as a transmission bus for 900 miles of 24,000 volt overhead transmission feeders to the several suburban cities and villages.

In the City of Detroit the transmission from the Delray and Connors Creek Power Plants and from the 120,000 volt step-down stations at Navarre, West Warren and Northeast, is at 24,000 volts over 859 miles of underground cables.

Retirement (Depreciation) Reserve—Appropriations are made from earnings monthly to insure replacement of physical property, and credited to retirement (depreciation) reserve, in accordance with the best principles of management and engineering practice. When property is replaced or abandoned, original cost of such property is charged against said reserve. These appropriations to retirement reserve are additional to full maintenance and repair expenditures, which are included in monthly operating expenses, and serve to maintain all parts of the property in good repair and in first-class operating condition. In addition to the monthly charge to operating expenses for retirement reserve the Company has added to this reserve by appropriations from profit and loss.

CITY OF DETROIT DEPARTMENT OF STREET RAILWAYS

History—On April 5, 1920, the voters of the City of Detroit approved an issue of $15,000,000 public utility bonds for the purpose of constructing and equipping new street railway trackage and acquiring certain lines on which the franchises had expired from the Detroit United Railway.

On April 17, 1922, the voters of the City of Detroit approved the terms of the purchase contract with the Detroit United Railway by which on May 15, 1922, the last of the lines owned by the Detroit United Railway in the City of Detroit, Highland Park, Hamtramck and Fordson passed into the possession of the Department of Street Railways of the City of Detroit. The consideration in the acquisition of these lines was $19,850,000, of which $2,770,000 was paid in cash out of the proceeds of the bond issue of $4,000,000 which was authorized by the voters on April 17, 1922, for the purpose of making the down payment and acquiring a stock of material and supplies. It was provided that the remainder of the consideration in the acquisition of the lines should be paid for in nineteen semi-annual installments of $500,000 each, the installments being payable June 1 and December 1 of each year with interest at 6% per annum on the unpaid balance, the final payment to be made in the amount of $7,580,000 on Dec. 31, 1931.

On April 2, 1923, the voters of the City of Detroit approved an issue of $5,000,000 bonds for the purpose of additions and betterments and extensions to the system.

The Department of Street Railways of the City of Detroit furnishes transportation facilities to Detroit, Highland Park, Hamtramck, and Fordson with a total population of 1,498,000 as of Dec. 31, 1927; owns 404.89 miles of railway track; operates 361.32 miles of coach routes; also owns 1,644 passenger cars and 302 motor coaches.

CAPITAL STOCK

Authorized $12,000,000 (increased from $6,000,000 Oct. 31, 1921), outstanding, $12,000,000, par, $100 (changed from $50 par on Feb. 6, 1922, and old stock of $50 par exchanged on basis of two old shares for one new share of $100 par).

Subscription Privilege—To shareholders of record May 15, 1926, $2,000,000 new stock was allotted in the proportion of one new share to five old shares, at $150 a share, increasing the issued stock from $10,000,000 to $12,000,000. In 1887 the outstanding stock amounted to $1,000,000. This amount has been increased at various times to the present outstanding amount, the more recent changes, with the average prices realized, being as follows: April 4, 1910, $500,000 at 199.99%; April 18, 1911, $384,500, at 166.84%; June 26, 1913, $340,500, at 166.84%; Dec. 15, 1913, $157,000, at 161.95%; May 21, 1917, $478,700, at 150%; Jan. 5, 1921, $639,300, at 118.72%; Feb. 3, 1923, $2,000,000, at 135%; Feb. 3, 1925, $2,000,000, at 140%; May 15, 1926, $2,000,000, at 150%. Authority was granted to Company by Letters Patent April 15, 1913, to sell unissued shares either by auction or by tender.

*New stock of $100 par. †Reduced to "Dollars per Share" instead of "Percentage" as in previous year.

Dividends—Payments have been as follows: 10% per annum from 1848 to 1857; 8% annually from 1858 to 1873, and 10% per annum since 1874, payable quarterly J, A, J. & O. 1, to holders of record on 15th of previous month. Dividends are limited to 10% per annum—see following paragraph.

Dividend Provisions—Company is required by terms of its incorporation to set aside all premium realized on the sale of capital stock to the credit of a Rest or Reserve Fund, which may be drawn upon to meet dividend disbursements (after payment of certain limited minor charges) in the event of net profits in any year proving insufficient to meet requirements. Any amount so withdrawn may be restored out of earnings. The amount at credit of Reserve Sept. 30, 1927, in support of dividends was $6,496,062.95. The dividend payable is fixed by statute at 10% per annum. If in any year net earnings fall below the amount required for dividend disbursements, the accumulated Reserve Fund may be drawn upon to make up the deficiency. The Company may then increase the price of gas sufficiently to yield revenues adequate to replace the Reserve Fund and pay the regular 10% dividend. If in any year net profits exceed amount required to pay the 10% dividend on capital stock, maintain the Reserve Fund, make the authorized payments to Renewal Fund and pay directors' fees, the surplus must be credited to a Special Surplus account applicable to a reduction in price of gas to consumers when amount is equal to 5 cents per 1,000 cu. ft. on the quantity of gas sold during preceding year.

FUNDED DEBT

None.

BANNING WATER COMPANY

History—Incorporated June 11, 1884, in Cal., for purpose of developing and supplying the community, which is now known as the City of Banning, and adjacent territory with domestic and irrigation water. In 1913 the domestic feature of this Company's business was taken over by the City Water Co. of Banning, Cal., which secures its supply of water from the Banning Water Co., by rights through ownership of 120 shares of its capital stock. The Banning Water Co. is a mutual organization, the stock of which is not appurtenant to the land. The revenue for the Company's needs is secured by assessment, and no dividends accrue to stockholders, their benefit resulting from the application to their lands of the water to which their stock entitles them. Company owns 2,364.26 acres of land in the watershed of the San Gorgonic River Canyon, in Riverside and San Bernardino Counties, Cal. Practically all of the outstanding capital stock is held by the land owners, whose property is served. An annual assessment is levied in an amount sufficient to defray the costs of operation, and pay the fixed charges on the obligations incurred in connection with the construction and maintenance of the plant.

CAPITAL STOCK

Authorized, $300,000; outstanding, $163,798; par, $50. Annual meeting, third Tuesday in November. No dividends paid.

MICHIGAN HEAT & POWER CO.

(Property owned by the City of Lansing, Mich., and operated by the Board of Water & Electric Light Commissioners)

History—Incorporated Sept. 1, 1919, in Mich., and took over all the properties of The Michigan Power Co. (see 1921 Public Utility Manual, page 2258). These properties comprise a power and central steam heat station, with an installed capacity of 8,500 k.w. and capable of delivering a steam heating load of 175,000 pounds of steam per hour, with distributing systems, and also a hydro-electric station of 1,000 k.w. rated capacity.

In 1919, after an affirmative vote, the City of Lansing, through its Board of Water & Electric Light Commissioners, purchased these properties subject to the mortgage liens described below. The property was deeded to the City of Lansing, and has been removed from the tax list, thereby placing it in the same position as its other municipal assets. As the holding of these properties by the city is dependent upon its meeting all the mortgage requirements these bonds have been practically, if not technically, assumed by that city, which has always met promptly the monthly sinking fund requirements.

Rates—Under the charter of the City of Lansing, the Board of Water & Electric Light Commissioners have full authority to fix all rates for water, electric lighting and electric power.

FUNDED DEBT

$751,200 First Mortgage 5s, Series "B"; dated Sept. 2, 1919; due Jan. 1, 1935; principal and semi-annual interest payable at Union Trust Co., Cleveland, Ohio. Denominations, $100, $500 and $1,000.

Sinking Fund—The mortgage provides that there shall monthly be paid to the Trustee one-twelfth of the annual interest due on Series "B" bonds, plus the monthly pro rata of the amount necessary to pay and retire all of the bonds of Series "B." Annually this sinking fund shall be used to pay off and cancel Series "B" bonds. For this purpose they may be called by lot at 101 and interest, unless after advertising for tenders a lower price can be obtained.

History—Incorporated December 17, 1853, in New York. At various times the following companies have been absorbed: Bushwick R. R. Co., Brooklyn Crosstown R. R. Co., Calvary Cemetery, Greenpoint & Brooklyn R. R. Co., New Williamsburgh & Flatbush R. R. Co., Greenpoint & Lorimer St. R. R. Co., Grand St. & Newtown R. R. Co. and South Brooklyn Street R. R. Co. The Company's properties were leased on Feb. 14, 1893, for 999 years to the Brooklyn Heights R. R. Co.; the lessee agreeing to pay all fixed charges, taxes and organization expenses and a rental of 10% per annum on the $12,000,000 Brooklyn City R. R. Co. stock; lessee assumed operations under lease on June 6, 1893. A guaranty fund of $4,000,000, consisting of $2,000,000 First Mortgage 5% bonds of the Brooklyn, Queens Co. & Suburban R. R.; $1,627,000 First Mortgage 5% bonds of the Brooklyn City R. R.; $125,000 Refunding Mortgage 4% bonds of Brooklyn City R. R.; $25,000 First Mortgage 5% bonds of Brooklyn Rapid Transit Co., and $250,000 First Refunding Mortgage 4% bonds of Brooklyn Rapid Transit Co., was deposited with trustees as a guarantee of the performance of the terms of the lease, which provides that in case of any breach, default or omission the said guarantee fund should at once become the sole and absolute property of the Brooklyn City R. R. Co. Entire issue of $2,000,000 capital stock of the Brooklyn, Queens County & Suburban R. R. Co., owned by the Brooklyn Rapid Transit Co., was also deposited in escrow with Trustee, People's Trust Co., Brooklyn, N. Y., to become at the expiration or sooner termination of lease, the sole and exclusive property of the Brooklyn City R. R. Co.

By agreement dated Nov. 19, 1923, the Guaranty Fund controversy was adjusted as follows: $275,000 par value Brooklyn City R. R. Refunding 4s held by the Brooklyn-Manhattan Transit Corp. were substituted for the $250,000 Brooklyn Rapid Transit Co. Refunding 4s and $25,000 par value Brooklyn Rapid Transit Co. First 5s. All the Brooklyn City R. R. bonds, consisting of $1,627,000 5s and $400,000 4s were delivered free and clear to the Brooklyn City R. R. Co. $2,000,000 par value Brooklyn, Queens County & Suburban R. R. First Mortgage 5s were delivered to the Brooklyn-Manhattan Transit Corp. under a stipulation that the Brooklyn City R. R. Co. should receive a $2,000,000 offset against any recovery on the so-called $10,000,000 construction suit. It was further provided that if there should be no recovery on the construction suit, then Brooklyn, Queens County & Suburban R. R. bonds should be returned to the Brooklyn City R. R. Co. or the pro rata amount if the recovery should be less than $2,000,000.

In 1910, in a suit brought by The Brooklyn Heights R. R. Co., decision was rendered by D. Cady Herrick, as referee, awarding judgment against The Brooklyn City Railroad Company on account of capital expenditures to its property made by The Brooklyn Heights Railroad Company in the sum of $1,740,258 principal and $1,616,608 interest, a total of $3,356,939. On appeal to the Appellate Division of the Supreme Court judgment was modified by striking out the interest, leaving a judgment of $1,766,892. Pending appeal to the Court of Appeals, settlement was made for $1,650,000, to be paid in installments, to meet which the dividend on the stock of The Brooklyn City Company was reduced to 8% in 1910 and continued until 1917, when the 10% dividend was resumed.

Independent Operation—On July 14, 1919, The Brooklyn Heights Railroad Company was, by order of the United States District Court for the Southern District of New York, placed in the hands of Lindley M. Garrison, Receiver, who continued the operation of the property. The Receiver failed, in compliance with an order of the Court, to pay to the Brooklyn City Co. on Oct. 1, 1919, rental provided in the lease. The

Brooklyn City Railroad Company demanded the return of its property and the United States District Court directed that the Receiver return to The Brooklyn City Railroad Company its property as of midnight between Oct. 18 and 19, 1919. The Receiver of The Brooklyn Heights Company had also defaulted in September on the payment of certain taxes due under the lease.

The Brooklyn City R. R. Company resumed the operation of its property as of midnight between Oct. 18 and 19, 1919.

A proceeding instituted by Company against the Receiver of The Brooklyn Heights RR. Co., pending for some years, to recover the net earnings of the property of The Brooklyn City RR. Co. between July 14 and October 18, 1919, was adjudicated in 1927 in favor of Company which benefited by the receipt of a net amount approximating $100,000.

Delay in Proposed Financing—Letter to stockholders, dated May 6, 1927, stated in part, "The plan presented by the Board of Directors for a General and Refunding Mortgage and the sale of $2,500,000 of 6% bonds to be issued thereunder was approved by the stockholders on Dec. 7, 1926 and again at the annual meeting of the stockholders held Jan. 10, 1927. Application was made to the Transit Commission of the State of New York for its approval, made necessary by State law. Hearings were held, which terminated Jan. 24, and on March 10, the Commission issued an order which denied the application, with leave to the Company to renew the application. The commission in its opinion raised a number of questions which involve the lease dated Feb. 14, 1893, to the Brooklyn Heights Railroad Company and the so-called Construction Account, now in litigation. The action of the Commission denying our application must result in a considerable delay in any proposed financing."

Equitable Coach Co.—Since June 30, 1927, the Board of Estimate and Apportionment of The City of New York granted a franchise to the Equitable Coach Company for the operation of bus lines in the Borough of Brooklyn. Before such operation is possible it will be necessary, under the law, for the Transit Commission to issue a Certificate of Convenience and Necessity to the Equitable Coach Company, which applied under date of Aug. 26, 1927, for the issuance of such a Certificate. Many of the routes covered by the Equitable franchise are directly competitive and parallel to the car lines of The Brooklyn City RR. Co. and the Officers and Counsel of Company will appear before the Commission in opposition to the issuance of the required certificate.

Mileage, June 30, 1927—Lines owned, 105.799 miles; second track, 100.344 miles; sidings, etc., 1.929 miles —total track, 208.072 miles. Gauge, standard. Rails, mostly 105 and 122 lbs.

LINCOLN TELEPHONE AND TELEGRAPH COMPANY

History and Property—Incorporated Jan. 2, 1909, in Neb., and succeeded the Lincoln Telephone Co. by purchasing all of its property with which it consolidated the long distance lines of the Western Telephone Co. On Feb. 1, 1912, the Lincoln Tel. & Tel. Co. purchased all the property of Nebraska Telephone Co. (Bell) located in southeastern Nebraska. Subsequently purchased property of the Farmers Telephone Co., of Jensen, Neb., the Gilead Home Telephone., Co., Gilead, Neb., and the Farmers Mutual Telephone Co., Howe, Neb. Franchise in Lincoln was granted in 1903 for 50 years.

Owns and operates 127 exchanges and 155 minor exchanges and toll stations covering 22 counties in Nebraska, lying south of the Platte River and east of the west line of Adams and Webster counties. Also owns and operates 151,509 wire miles of exchange and long distance toll lines in the territory above named, serving a population of approximately 500,000. Number of phones in service, 77,310. Prices: City of Lincoln, business, $7; residence. $2.75 and $2.25.

CAPITAL STOCK

Authorized, $23,000,000, consisting of $3,000,000 special 5% cumulative non-voting Pfd., $10,000,000 6% Class "A" cumulative Pfd., (authorized Jan. 28, 1927) and $10,000,000 Common; par, $100; outstanding, Jan. 1, 1928, $1,001,700 special 5% cumulative non-voting Pfd.; $1,933,195 6% Class "A" cumulative Pfd., and $3,136,525 Common—total $6,071,420.

Transfer Agent and Registrar—Secretary of Company.

Annual Meeting—Third Tuesday in January.

Special Preferred Stock Provisions—After the Special Preferred stock has received 5% dividends and the Common stock has received 7% dividends for the current and all past dividends periods, any surplus available for dividends shall be divided between the Common and Special Preferred stockholders without distinction as to which class of stock they own. On Oct. 1, 1922, the dividend on the Common stock was increased from 7% to 8%, which automatically increased the dividend on the Special 5% Cumulative Non-Voting stock from 5% to 6%. This stock is a

first lien on the net assets of the Company after the $2,000,000 bond issue. Stock is tax free in Nebraska.

Dividends—Dividends on the 6% Cumulative Pfd. were regularly paid up to time of retirement. Dividends on special 5% Pfd., formerly 5%, now 6% under participating clause, quarterly, F, M, A & N 10; on Common at rate of 8%, quarterly, J, A, J & O 10.

HOLYOKE WATER POWER COMPANY

History and Properties—Incorporated Jan. 31, 1859, in Mass. Owns and operates a system of canals furnishing water power to a large number of factories and mills. A stone dam, 1,020 ft. long and 30 ft. high, was built in 1895-1899. On April 28, 1906, a 3,600 horse-power hydro-electric plant was placed in operation, supplementing the water power. No. 1 plant has capacity of 18,000 h.p. in steam turbo, generating apparatus and 5,000 h.p. in hydro-electric generating apparatus. No. 2 plant contains one 670 h.p., two 1,600 h.p. automatic hydro-electric machines. Supplies the city of Holyoke with water power to run the gas and electric light plants at a perpetual annual rental of $24,750.

On Dec. 5, 1925, the **Holyoke Power and Electric Co.** was incorporated in Massachusetts, with an authorized capital stock of $1,000,000 (par $100; none issued). It is planned to use power now going to waste, and Company's charter permits distribution anywhere in Massachusetts. The officers of the new company are as follows: Robert E. Barrett, Pres. & Treas.; Joseph A. Skinner, V-P.; Ralph A. Smith, Clerk & Asst. Treas., Holyoke, Mass. The directors are: Edward Milligan, Walter L. Goodwin, Charles A. Goodwin, Hartford, Conn.; George Dwight Pratt,

Frederic M. Jones, George G. Bulkley, Springfield, Mass.; Joseph A. Skinner, Frank A. Woods, Robert E. Barrett, Holyoke, Mass. Annual meeting, fourth Thursday in October. General office, Holyoke, Mass.

History—Incorporated July 12, 1912, under laws of the Dominion of Canada, and has acquired, through exchange of stocks, over 99% each of the capital stocks of The Rio de Janeiro Tramway, Light & Power Co., Ltd., and The Sao Paulo Tramway, Light & Power Co., Ltd., and the entire capital stock of the Sao Paulo Electric Co., Ltd. Through the Rio de Janeiro Tramway, Light & Power Co., Ltd., the Brazilian Traction, Light & Power Co., Ltd., controls the entire capital stock of the Brazilian Telephone Co., which latter company was incorporated under the laws of Canada to acquire and develop the telephone enterprises. (For further details see statement of Rio de Janeiro Tramway, Light & Power Co. on a subsequent page.)

The Brazilian Traction Light & Power Co., Ltd., also owns the entire share capital of the **Brazilian Hydro-Electric Co., Ltd.,** which was incorporated for the purpose of purchasing a water power of 140,000 h.p. capacity on the Parahyba River, about 100 miles distant from the City of Rio de Janeiro, for which the necessary concessions for its development and transmission to Rio de Janeiro have been obtained.

The first installation of 50,000 k.v.a. and the transmission line to the City of Rio de Janeiro—a distance of approximately 100 miles—were completed and in service Aug. 1, 1924.

The Brazilian Traction, Light and Power Co., Ltd., through its controlled operating companies, does the street railway, electric light and power, gas and telephone business in the cities of Rio de Janeiro and Sao Paulo, Brazil, and adjacent territory, serving a population estimated at approximately 2,000,000. All the companies operate practically without competition and under concessions which are mainly exclusive, and are either perpetual, or for long periods except where local telephone franchises are being standardized. The companies' franchises fix the maximum rates which may be charged for services, and these are subject to revision only at stated intervals.

Basis of Exchange of Shares—Under the plan of exchange, two and three-quarter shares of Traction Co. stock were given in exchange for each share of Sao Paulo Tramway, Light & Power Co., Ltd.; one and three-fifths shares of Traction Co. stock were given in exchange for each share of Rio de Janeiro Tramway, Light & Power Co., Ltd., and one share of Traction Co. stock was given in exchange for one share of Sao Paulo Electric Co., Ltd. On the above basis of exchange the distribution of the ordinary share capital, providing all the shares of the constituent companies are exchanged, will be as follows:

For Rio de Janeiro Tramway, Light & Power Co., Ltd.	$72,000,000
For Sao Paulo Tramway, Light & Power Co., Ltd.	27,500,000
For Sao Paulo Electric Co., Ltd.	5,000,000
Total	$104,500,000

CAPITAL STOCK

Authorized, 7,600,000 shares Ordinary stock of no par value (see paragraph below) and $10,000,000 6% cumulative Preference stock, par $100. The outstanding amounts of the Preference and Ordinary shares will be determined in part by the extent to which the conversion privilege is exercised by the Preference shareholders. As of Jan. 31, 1928, about 90% of the Preference shareholders had converted their holdings. The Ordinary stock was mostly issued in exchange for capital stocks of Rio de Janeiro Tramway, Light & Power Co., Ltd., Sao Paulo Electric Co., Ltd., and Sao Paulo Tramway, Light & Power Co., Ltd., and to provide for capital requirements.

Changes in Ordinary Stock—At a meeting held Jan. 5, 1928, stockholders approved an increase in the Ordinary stock of $80,000,000, par $100, making the capitalization of the Company $200,000,000, consisting of $10,000,000 6% cumulative Preference stock and $190,000,000 Ordinary, both par $100. New shares were offered to Ordinary stockholders of record Jan. 31, 1928, for subscription at par, $100 a share, in the ratio of one new share for each five shares held. Subscriptions were payable as follows: $20 per share with subscription on or before March 31, 1928; $20 per share on June 1, 1928; $20 per share on August 1, 1928; $20 per share on October 1, 1928, and $18 per share on December 1, 1928. The unissued balance of the increased authorized Ordinary share capital is available for capital requirements in the future.

Stockholders on Jan. 5, 1928, also approved a resolution providing that after the increase in the Ordinary stock mentioned above had become effective, the Ordinary stock of the Company should consist of 7,600,000 Ordinary shares of no par value instead of 1,900,000 Ordinary shares of $100 par value, the new stock being distributed on the basis of four new shares of no par value for each share of $100 par held.

Voting Power—Each Ordinary share of no par value shall entitle the holder thereof to one vote, and holders of the 6% Preference shares shall be entitled to four votes in respect of each Preference share so held instead of one, as previously provided.

Conversion Privilege—Preference stock is convertible into Ordinary stock on the basis of 6 Preference for 5 Ordinary shares of no par value.

Transfer Agent—National Trust Co., Ltd., Toronto and Montreal.

Registrars—Canadian Bank of Commerce, Toronto and Montreal, and Guarantee Insurance & Investment Co., Ltd., London.

THE RIO DE JANEIRO TRAMWAY, LIGHT & POWER COMPANY, LTD.

(Controlled by Brazilian Traction, Light & Power Co., Ltd.)

History and Properties—Incorporated in June, 1904, in Canada. The Company is the direct owner of the whole or its tramway system except that part belonging to the Companhia Jardim Botanico, of whose share capital over 80% is owned. Company has acquired a large interest in the **Companhia Carioca,** and the entire capital stock of the Brazilian Telephone Co. Also owns and operates the **Corcovado Ry.,** an electric line running to the top of the Corcovado Mountain under a concession from the Federal Government. In addition to the railway lines, the Rio de Janeiro company owns over 90% of the securities of the **Société Anonyme du Gaz de Rio de Janeiro.** This latter company has the exclusive right until 1945 to supply gas, including the lighting of the city streets during that period. The concession also gives the company the right to supply electricity with a monopoly for public lighting until 1945 and for private lighting until 1915, from which latter date the concession for private lighting continues in perpetuity without exclusive rights. The Rio de Janeiro tramway concessions were extended in 1907 until 1970 and give exclusive privileges until 1940 in very large area of city. Franchises for distribution of electric energy for lighting and power service were also extended to 1990. Concession to develop power is perpetual. Total population served, 1,250,000.

The Company owns a water power at Rio das Lages and also owns marginal lands controlling the development of a water power at the falls of Sapucaia on the River Parahyba about 100 miles from Rio de Janeiro, at which point at least 100,000 horse power can be developed. A concession has permitted the company to divert the waters of the River Pirahy into the valley of the River das Lages, thus increasing the capacity of the Rio das Lages station to 100,000 h.p. A hydro-electric power plant has been erected at Rio das Lages in which eight generators are connected to turbines of an aggregate capacity of 84,000 h.p.

During 1920 the Company purchased at public auction the properties and concessions of the Companhia Industrial de Electricidad. The properties acquired included a water power on the Parahybuna River with a capacity of 5,000 h.p., one unit only of 1,200 h.p. having been installed, a small auxiliary station on the same river at Parahyba do Sul with two units of 150 h.p. capacity, and about 300 miles of transmission and distribution lines.

Jardim Botanico Tramway (Companhia Ferro Carril do Jardim Botanico)—The Rio de Janeiro Tramway, Light & Power Co., Ltd., owns over 80% of the £1,400,000 capital stock of this company, and operates its lines under a contract by which the gross earnings go to the Rio Co. which undertakes to pay the interest and sinking fund on the Jardin Co.'s bonds, 5% on its stock, and in case the operating contract is terminated to return the property in a high state of efficiency.

CAPITAL STOCK

TYROL HYDRO-ELECTRIC POWER COMPANY

(Tiroler Wasserkraftwerke A. G.) ("Tiwag")

History and Property—The Tyrol Hydro-Electric Power Company, generally known as the Tiwag, was incorporated in July, 1924, by the City of Innsbruck, capital of Tyrol, and a group of Austrian and Swiss banks. The State of Tyrol lent its active support to the organization of the Tiwag and has passed special legislation to further its development.

The purpose of the Tiwag is to develop the water power of Lake Achen which is the largest lake in Tyrol, and to supply electric power to the City of Innsbruck, the Austrian Federal Railroads and other cities and industries in Tyrol and Southern Germany.

Lake Achen is situated in the center of a district poor in coal, 1,300 feet above the valley where the main power plant is now nearing completion, and forms a perfect natural reservoir with a constant water supply at all seasons of the year. On account of the great storage capacity of this lake the Tiwag is in a position to furnish current to other plants in Tyrol and the neighboring countries at times of low water supply, a very unusual feature in a hydro-electric development.

The first installation of the Tiwag plant with a capacity of 54,700 h. p. is completed and began operation on Sept. 1, 1927. Owing to the growing demand for electric power throughout Tyrol and the conclusion of an important contract for the sale of power with the Bayernwerk A. G., largest distributor of electric power in Southern Germany, the Tiwag is now proceeding with the construction of the second and third installations of the plant which will increase the total capacity to 124,000 h. p. The completed plant will represent the largest hydro-electric installation in Austria and one of the largest in Central Europe, with an estimated annual output of 155,000,000 k. w. h., its transmission system linking Southern Germany and Austria.

The property of the Tiwag at present consists of: Lake Achen, covering over 2½ square miles, with considerable real estate adjoining and a concrete dam at the northern end turning the lake into a reservoir; the main power plant with an initial installation of five turbine sets and a capacity of 54,700 h. p.; switch house and transformer station; intake works at the southern end of the lake, a three-mile horizontal tunnel with connecting surge tower, pressure pipes and penstocks; tail race channel carrying the water after utilization from the power house to the River Inn; high tension transmission lines on steel towers from the plant to Innsbruck and main transformer station at Innsbruck. The above works are completed; operations commenced Sept. 1, 1927.

By means of financing in 1927 the capacity of the plant will be increased to 124,000 h. p. and high tension transmission lines will be extended from Innsbruck to the German frontier, making their total length 43 miles. After final completion of the plant, the Tiwag property will furthermore include a six-mile canal diverting the Ampels River into Lake Achen; a pumping station at Achenkirch and other works providing additional water supply.

In addition to the above the Tiwag property comprises two hotels on Lake Achen, several pleasure steamers and over 40% of the shares in the Jenbach-Achensee Railroad, which connects Lake Achen with the main lines of the Austrian Federal Railroads.

Contracts—The City of Innsbruck is under a sixty-year contract to purchase annually a minimum of $420,000 of energy. Under this agreement 8,000,000 k.w.h. is to be supplied yearly between Oct. 15 and April 15. The City of Innsbruck has to pay for this electric current whether used or not, cannot take more than 2,800,000 k.w.h. a month and cannot exceed a maximum peak load of 6750 k.w.

The twenty year contract entered into with the Austrian Federal Railways provides for a supply of at least 24,000,000 k.w.h. up to 40,000,000 k.w.h. a year. The Federal Railways have to take this supply in a constant way, though in December they can not take more than 15%, of the electric energy to be supplied during the winter half year, while during the period between Jan. 1 and April 30, 70% can be taken. The peak load has been fixed at 10,600 k.w. which may be increased, by the maximum purchase of 40,000,000 k.w.h. to 15,900 k.w. The price includes a fixed sum and a sum depending on the quantity of current supplied. The Federal Railways have to pay at least 90% of the fee on consumption. This contract also provides for an automatic increase of supply of 3½% per year.

A 25-year contract has been closed for the sale of electricity to the largest distributor of electric light and power in Southern Germany, the Bayernwerk A. G., owned and controlled by the Bavarian government, providing for an annual transmission of power, ranging from 60,000,000 k.w.h. for the first year and subsequently increasing to 85,000,000 k.w.h. in 1931 and thereafter.

CAPITAL STOCK

300,000 shares Common stock of 10 schillings each. The majority of the stock is owned by the City of Innsbruck while the balance with a few exceptions is held by the State of Tyrol and a syndicate of Viennese and Tyrolese banks.

Dividends—During the construction period of the work, from July 1, 1924, to December 1, 1927, the shares received a guaranteed dividend of 6% per annum each.

History—Incorporated July 29, 1892, by special Act of Congress as the Washington & Great Falls Electric Ry. Co.; present title adopted Feb. 1, 1902. On Feb. 4, 1902, purchased the assets of the Washington Traction & Electric Co. The properties of the Columbia Ry. and Metropolitan R. R. were acquired Feb. 4, 1902, by deed in fee subject to their mortgage debt, and in 1912 the Anacostia & Potomac River R. R. Co. and the Brightwood Ry. Co. were absorbed (see Manual for 1912, page 2478, or apply to our Information Department). During 1912, company transferred its interest in the Great Falls Power Co. Effective Nov. 1, 1926, under provisions of Act of Congress approved June 5, 1900, and with the approval of the Public Utilities Commission of the District of Columbia, all of the estate, property, rights and franchises of the City and Suburban Railway of Washington and the Georgetown & Tennallytown Railway Co., were acquired, subject to the funded indebtedness of said companies.

Fare Decrease—The Public Utilities Commission ordered a decrease effective March 1, 1922, to eight cents cash, or six tickets for 40 cts., such rate to continue in force until otherwise ordered.

Properties—The Washington Ry. & Electric Co. controls the principal street railroads in the District of Columbia and also the Potomac Electric Power Co., the only electric light company which is operating, or authorized to operate, in the national capital. The railroad companies have 164.04 miles of track (all under electric traction), while the electric light company has 710 miles of subways with about 1,903 miles of ducts, being added to each day, besides many miles of overhead wires.

The Washington Ry. & Electric Co. directly owns and operates 152.52 miles of single track. It controls through ownership of stock, directly or indirectly, companies owning and operating 11.52 additional miles of single track, making a total of 164.04 miles of single track in entire system. Over 60 miles of track are located on private right-of-way. Number of cars, 526. In addition Company was operating at Dec. 31, 1927, 70 buses over routes having an aggregate mileage of 58.3 miles.

Subsidiaries—The companies controlled, together with their outstanding capital stock, and the amount owned by the Washington Ry. & Electric Co. are as follows:

Company	Capital Stock	Amount Owned
Washington & Rockville Ry.	$275,000	$275,000

Potomac Electric Appliance Co.	95,000	*95,000
Grand total	$8,680,000	$6,677,150

*Owned by Washington & Rockville Ry.

The Washington Ry. & Electric Co. also owns the following bonds of above named controlled companies: $200,000 (entire issue) Washington & Glen Echo R. R. Co. First 6s; $50,000 (entire issue) Washington & Glen Echo R. R. Co. Second 6s and $185,000 (entire issue) Washington & Rockville Ry. Co. First 5s.

Merger Negotiations—Under date of November 8, 1927, the Washington Railway & Electric Co. received a letter from the Public Utilities Commission of the District of Columbia urging it to confer with Harley P. Wilson and representatives of the Capital Traction Co. with the object of formulating an acceptable plan for the merger of the transit systems of the District of Columbia. Such conferences were in progrss in February, 1928. The suggested outline for merger legislation as jointly submitted by the two companies to the Commission is given on page 212 of the 1927 Public Utility Manual.

POTOMAC ELECTRIC POWER COMPANY

(Controlled by Washington Railway and Electric Company)

History—Incorporated April 28, 1896, in D. C., to manufacture and supply electric light and power in Washington, D. C., and suburbs. Absorbed the United States Electric Lighting Co. During 1912 the Washington Railway and Electric Co. transferred to this company its two-third interest in Great Falls Power Co. Owns 2 main plants and 24 sub-stations, combined capacity of main plants being about 221,800 h. p. Company furnishes power to the Braddock Light & Power Co., the stock of which company is owned by Washington and Rockville Ry. Co.; also full current supply for the interurban road connecting the District of Columbia with Baltimore and Annapolis; and for the Virginia lines connecting with Alexandria, Falls Church, Fairfax, Mount Vernon, Bluemont, Cherrydale and Great Falls. Controlled by Washington Railway and Electric Co. (which owns entire Common stock) which guarantees principal and interest of Consolidated Mortgage bonds.

Operating Statistics, Dec. 31, 1927—Population served, about 572,000. No. of meters, 134,505. Street arc lamps, 1,140. Total conduit in service, 3,747,796 lineal feet, or 10,045,689 duct feet. Total connected load, 4,224,426 c.p. equivalents, compared with 3,674,548 in 1926, 3,222,534 in 1925, 2,869,618 in 1924, 2,589,910 in 1923 and 2,376,764 in 1922. Total output of the Benning plant, 383,127,090 k.w.h. in 1927, compared with 350,018,992 k.w.h. in 1926, 318,693,585 k.w.h. in 1925, 286,688,808 k.w.h. in 1924, and 269,865,217 k.w.h. in 1923.

Valuation—Depreciation Policy—Pursuant to an agreement reached Dec. 27, 1924, between Potomac Electric Power Co. and the Public Utilities Commission of District of Columbia the valuation of said company's property as of Jan. 1, 1925, was fixed at $32,500,000. Company is permitted to adjust rates so as to earn 7½% on said valuation. Present rate charged is 5 9/10c. per k.w.h. effective Jan. 1, 1928, reduced from 6¼c. Depreciation is based on a sliding scale from a rate of 2.3% of valuation when depreciation reserve is below 15% of the value of the property to 1.3% when reserve is 19%, but less than 20% of said value, and thereafter at a rate so that said reserve shall not be in excess of 20% of said value.

History—Incorporated in 1916, in Quebec as a holding company, under name of The Civic Investment & Industrial Co. An Act amending the charter of The Civic Investment & Industrial Co. was assented to Feb. 9, 1918, whereby the name of the Company was changed to Montreal Light, Heat & Power Consolidated. Organized by large shareholders of The Montreal Light, Heat & Power Co. and The Cedars Rapids Manufacturing & Power Co., chiefly for the purpose of operating and placing under one control and management the properties of both companies and their subsidiaries. The properties controlled and operated are as follows: The Montreal Light, Heat & Power Co., Provincial Light, Heat & Power Co., Ltd., Standard Light & Power Co., The Cedars Rapids Manufacturing & Power Co., Lachine Rapids Hydraulic & Land Co., The Royal Electric Co. (founded in 1884), The Montreal Gas Co., (founded in 1836), Montreal Public Service Corp., etc. During 1924 acquired the business of the Quebec-New England Hydro-Electric Corporation, constituting about 15,000 electric consumers.

Under agreements made between The Civic Invesment & Industrial Co. (now Montreal Light, Heat & Power Consolidated), The Montreal Light, Heat & Power Co. and The Cedars Rapids Manufacturing & Power Co. (approved by directors and shareholders of the respective companies), the former company operates, effective Aug. 1, 1916, the properties of the last named companies during a period of 98 years. The operation of the two properties by one management has all the practical operating characteristics of a merger, with the resultant economies of administration.

Under terms of these agreements The Montreal Light, Heat & Power Consolidated guarantees all fixed charges, operating expenses, maintenance, etc., of both Companies, and 8% annual dividends of the stock of The Montreal Light, Heat & Power Co. and 3% annual dividends on the stock of The Cedars Rapids Manufacturing & Power Co. from Aug. 1, 1916. The Montreal Light, Heat & Power Consolidated has acquired over 99% of the capital stock in each company.

Jointly with The Shawinigan Water & Power Co., Company controls United Securities, Limited (see General Index), which through stock ownership, controls Montreal Tramways Co. (see General Index) which owns and operates under favorable long-term contract with the City of Montreal, the street railway system in the City and in the suburban municipalities on the Island of Montreal, embracing 275 equivalent miles of single track. Montreal Tramways Co. is a large consumer of electric power, purchasing 55,000 h.p. (maximum) annually from the Company and its subsidiaries.

Business and Property—Directly or through its subsidiaries or associated companies, Montreal Light, Heat & Power Consolidated does all the gas business, substantially all the domestic, municipal and commercial electric light and power generating and distributing business, and has a very important interest in the street railway system, of Greater Montreal, embracing a rapidly growing community of over 1,077,000 population.

The hydro-electric generating stations at Lachine Rapids and Soulanges on the St. Lawrence River and at Chambly on the Richelieu River, have a combined installed capacity of 53,400 h.p. The Cedar Rapids hydro-electric plant on the St. Lawrence River has an installed capacity in 18 units of 197,400 h.p. These plants, together with a steam auxiliary station of 22,500 h.p. capacity, give the Company a combined capacity of 273,300 h.p. The gas properties have a generating capacity of 29,000,000 cu. ft. per day.

S. gold coin at Agency of Royal Bank of Canada, New York, or in gold coin of Kingdom of Great Britain at The Royal Bank of Canada, London, Eng., at fixed rate of $4.86 2/3 to the £1.

Denominations—Coupon, $500 and $1,000, principal may be registered; fully registered bonds, $1,000 and authorized multiples.

Trustee—Montreal Trust Co., Montreal.

Provisions of Issue—Authorized, $75,000,000; issued $30,000,000 Series "A" 5s, of which $220,000 redeemed to Dec. 31, 1927. Bonds are issuable in series, which may mature not earlier than Oct. 1, 1951, bear interest at any rate not exceeding 6% and may otherwise, subject to provision of Trust Deed, be of such kind, tenor and form as Company may determine. Trust Deed under which bonds are issued (and issuable) provides a permanent flexible medium for simplification of funded debt operations of the Montreal Light, Heat & Power Consolidated system, including refunding of outstanding bonds of subsidiary companies. Additional bonds of Series "A" or any other series may only be issued in accordance with restrictions of Trust Deed in following amounts and for following purposes: (a) Par for par, to refund, acquire or retire bonds or other secured obligations of present or future subsidiary companies outstanding in the hands of public, or to refund bonds of other series; (b) Not exceeding $5,000,000 principal amount for capital expenditures on existing fixed assets of, or acquisition of new fixed assets for, Company or any subsidiary company; or for acquisition of additional securities and/or shares as defined in Trust Deed; (c) Remaining authorized principal amount of bonds may be issued only to extent of 75% of actual cash cost or fair value (whichever may be less), of capital improvements or additions to properties of Company and/or any subsidiary company, or of additional securities and/or shares of a comany at least 51% of voting capital stock of which is, or will be upon pledge of such additional securities and/or shares, specifically pledged under Trust Deed. No additional bonds can be issued under (b) and (c) above, unless net earnings as defined in Trust Deed of Company and any subsidiary company or companies at least 51% of voting capital stock of which is pledged under Trust Deed for any twelve consecutive calendar months out of sixteen calendar months immediately preceding application for issue of such bonds shall have been equal to not less than one and one-half times annual interest charges on all First Refunding and Collateral Trust bonds of Company to be outstanding after proposed additional issue and on underlying subsidiary bonds as defined in Trust Deed.

Purpose of Issue—Proceeds from sale of $30,000,000 Series "A" bonds were applied toward retirement, at par and accrued dividend of Company's $32,363,950 par value of Pfd. stock.

Callability—Subject to call as a whole or in part on any interest date, on 60 days' notice, to and including Oct. 1, 1931, at 105 and interest, and thereafter at 1% less for each subsequent 5 years, or fraction thereof.

Sinking Fund—Provision is made for an annual cumulative sinking fund, commencing Oct. 1, 1927, which is sufficient to redeem one-third of Series "A" bonds by maturity.

Security—Secured by Trust Deed constituting a first specific mortgage and charge on: (1) all the real and immoveable properties of the Company; (2) the following securities and shares of subsidiary and/or associated companies; (a) over 99% of the issued capital stock of Montreal Light, Heat & Power Co.; (b) over 99% of the issued capital stock of Cedars Rapids Manufacturing & Power Co.; (c) certain bonds and shares of the above and other subsidiary companies; (d) $1,290,787.50 par value of $5,126,172.50 par value issued Common shares and $150,000 par value of $5,125,372.50 par value of issued Preferred shares of United Securities, Limited; (3) operating agreements of the Company with Montreal Light, Heat & Power Co. and Cedars Rapids Manufacturing & Power Co.; (4) power contracts with The Shawinigan Water and Power Co.

The bonds are additionally secured by the floating charge of the Trust Deed covering all the Company's assets not covered by the specific charge. The specific and floating charges will cover all of the Company's interest in assets acquired after the execution of the Trust Deed.

Legal Investment for life insurance companies under the Insurance Act, 1917, Canada.

Original Offering—First publicly offered in United States and Canada ($30,000,000, Series "A") in October, 1926, at 99.50 and interest, yielding over 5.03%, by Wood, Gundy & Co., Inc., Aldred & Co., Harris, Forbes & Co., New York; Harris, Forbes & Co., Inc., Boston; Harris Trust & Savings Bank, Chicago; Wood, Gundy & Co., Ltd., and Harris, Forbes & Co., Ltd., Montreal. THE CEDARS RAPIDS MANUFACTURING & POWER COMPANY

(Controlled by Montreal Light, Heat & Power Consolidated)

History and Property—Incorporated July 18, 1904, under laws of Dominion of Canada, to acquire, develop and operate the water power of the St. Lawrence River available at Cedars Rapids, a point about 30 miles above Montreal. Company's property is operated by The Montreal Light, Heat & Power Consolidated on terms shown in that Company's statement.

Under contracts with the Dominion Government and the Government of the Province of Quebec, the Company has the perpetual right to take 56,000 cubic feet of water per second, which is sufficient at the head of 32 ft. available at this point to develop 180,000 h. p. during the entire year. A further grant of 19,000 cu. ft. per second was obtained, which can be used yearly from Nov. 20 to May 20, when the Company's load is the heaviest. With this additional grant, which gives a total of 75,000 cu. ft. per second, or the equivalent of 245,000 h. p. the ultimate of 220,000 h. p. can be secured. The rapids at Cedars extend over a distance of two miles. To concentrate the difference of level at one point, a canal has been cut out of the solid rock along the north bank of the river, the outer wall of this canal being protected by a ramp made of the rock excavated from the canal. The canal is 13,000 feet long, with a width of 1,200 feet at its lower end, where a concrete dam is constructed, furnishing the foundation for the power house structure.

THE CEDARS RAPIDS MANUFACTURING & POWER CO. Securities

ALDRED & CO.

40 Wall Street NEW YORK

In the spring of 1913 a contract was let for the construction of the main part of the work with the exception of the power house super-structure and the transformer house. The work was pushed with great energy and completed on schedule time in Nov., 1914. Water was let into the canal on Nov. 1, 1914, and the first machine, No. 1 exciter was turned over Nov. 5, 1914. The first main unit was turned over on Nov. 11, 1914. In Oct., 1918, two additional units aggregating 20,000 h. p. were put in operation. The company has recently installed the two final hydro-electric units at Cedars bringing the plant to its ultimate capacity of 220,000 h. p.

There is an unlimited flow of water as the proposition has the Great Lakes for storage. Only the natural flow of the river is utilized there being no impounding of water necessary.

Contracts—Long term contracts have been made with the Aluminum Company of America, for 60,000 h. p., to be utilized at Massena, New York, and supplemental contracts with the Aluminum Company of American for 15,000 h. p., and with The Montreal Light, Heat & Power Co., covering 105,000 h. p. for distribution in the City of Montreal and vicinity.

PROVINCIAL LIGHT, HEAT & POWER CO., LTD.

(Controlled by The Montreal Light, Heat & Power Company)

History—Incorp. May 17, 1901, by letters patent of Province of Quebec, ratified and confirmed with additional powers by special act of Quebec Legislature, as successor to the Canadian Electric Light Co. Has acquired valuable rights from the Dominion Government to the surplus water of the Soulanges Canal, which rights, although nominally granted till 1963, are practically perpetual. The surplus water rights have been developed to the extent of 15,000 electrical horsepower, with provision for the installation of an additional 5,000 h.p. unit later on. There is an effective head of 53 feet from a non-varying flow of water. Power from the development is transmitted to Montreal at high voltage to a transformer station built on property controlled by the Montreal Light, Heat & Power Co. The latter has contracted with this company to purchase its power until the expiration of the Provincial Co.'s lease of the Soulanges water rights from **the Government. The contract** provides that during the life of the bonds the Montreal Light, Heat

& Power Co. shall take the power at such prices, as will pay all operating expenses, interest charges and fulfill the sinking fund conditions.

History—Incorporated in S. C. Owns and operates a hydro-electric generating station, completed in 1921, of approximately 18,500 h.p. capacity, a 5,000 k.w. steam plant, completed in 1926, located on the Broad River in South Carolina, and a system of transmission lines serving textile mills and the mill villages or manufacturing plants in Lockhart, Union, Jonesville, Pacolet and Gaffney. Power is sold at wholesale to the city of Union and to the town of Jonesville. Total population served, about 15,000. Monarch Mills owns the entire Common stock of Lockhart Power Company and is its most important power customer. During 1927, the company produced over 48,000,000 k.w.h. of electric energy.

CAPITAL STOCK

Authorized and outstanding, $300,000 Common and $700,000 7% cumulative Pfd. The Monarch Mills owns the entire outstanding Common stock.

FUNDED DEBT

$1,455,000 FIRST MORTGAGE SINKING FUND GOLD BONDS, 5½% SERIES DUE 1950; DUE FEBRUARY 1, 1950

Dated February 2, 1925.

Interest Payable February and August 1, at office of Harris, Forbes & Co., New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—National Bank of Commerce in New York, New York City.

Provisions of Issue—Authorized $5,000,000; issued, $1,500,000, of which $45,000 retired to Sept. 30, 1926. Proceeds were used to retire unsecured indebtedness incurred in connection with construction of Company's property. Additional bonds either of the 5½% Series, due 1950, or of other Series having such rates of interest, maturity dates and other provisions as directors may determine (provided, however, that the Sinking Fund with respect to any additional bonds shall be not less than 1% per annum) may be issued for not to exceed 65% of the actual cash cost or fair value, whichever is less, of permanent physical property additions or extensions, to be defined in the mortgage. No additional bonds may be issued, however, unless net earnings, also to be defined in the mortgage, for 12 consecutive calendar months out of the 15 months immediately preceding application for issue, shall have been not less than twice the annual interest charges on all bonds then outstanding and to be issued.

Callability—Subject to call on any interest date on six weeks' notice at 105 and interest through Feb. 1, 1930; thereafter at 103½ and interest through Feb. 1, 1935; thereafter at 102 and interest through Feb. 1, 1945; and thereafter prior to maturity at 100½ and interest.

SEATTLE AND RAINIER VALLEY RAILWAY COMPANY

History and Property—Incorporated June 8, 1916, in Del., successor to the Seattle, Renton & Southern Ry. (see Manual for 1916, page 728, or apply to our Information Department), which was bid in at foreclosure on May 12, 1916, by Attorney John C. Higgins, representing the bondholders and common claimants under the plan of reorganization. Owns and operates 25 miles of single track equivalent, from Seattle, via Columbia City and Rainier Beach to Renton, Wash. Gauge, standard. Rails, 56, 60 and 70 lb. T and girder. Passenger cars, 34; freight cars, 19; locomotives, 2. Power purchased from the City of Seattle.

Franchises—The Company's franchises from the City of Seattle run until Dec. 31, 1934. These franchises enable the Company to handle both freight and passengers and to operate express service. In April, 1917, a settlement was reached with the City over franchise difficulties and Company was awarded a judgment of $41,700 against City because of changes in grade on Rainier Ave., etc.

Proposed Purchase by City of Seattle—Final steps leading to the purchase of the property of this Company by the City of Seattle, Wash., for the sum of $1,200,000 were taken when the Seattle City Council in Dec., 1925, passed an ordinance offering this sum, but interests opposed to the purchase put the matter in litigation.

OMAHA & COUNCIL BLUFFS STREET RAILWAY COMPANY

History—Incorporated Oct. 5, 1891, in Neb.; successor to Omaha Street Ry. Leases lines of Omaha & Council Bluffs Ry. & Bridge Co. in Council Bluffs, Iowa, together with the bridge over the Missouri River, owned by the latter company; rental under this lease is $60,000 per annum in addition to all fixed charges. Franchises expire in 1928 according to claims of the City, while Company maintains they are perpetual. Negotiations are under way to settle this controversy.

Company also has the exclusive right to operate busses in the City of Omaha in accordance with a temporary injunction issued by District Judge Hastings, July 11, 1926.

Road—Owns and operates 130.58 miles of track, including all the street railways in Omaha, Neb., and by lease the company controls all of the street railways in Council Bluffs, Iowa, 32.12 miles, including the Omaha-Council Bluffs Bridge, making total of mileage, operated or controlled, 162.70 miles. Gauge, standard. Rails, 60 lb. T and 73 and 97 lb. girder. Cars: 23 open, 352 closed, 61 service and other cars—total, 436.

Bondholders' Protective Committee. — Deposits Asked—Holders of the First Consolidated Mortgage 5% Gold bonds, due Jan. 1, 1928 were notified in June, 1927, that the following had consented to act as a Protective Committee: Sidney W. Noyes, Chrm., Samuel Burns, J. C. Neff, Edwin N. Sanderson, Frank D. True, A. Perry Osborn and Hamilton Allport, Sec., 30 So. La Salle St., Chicago, Ill., with Cutting, Moore & Sidley, Chicago, Ill., and Gaines, Van Orsdel & Gaines, Omaha, Neb., as Counsel. The Committee recommended in Dec., 1927, the deposit of bonds with the New York Trust Co., New York, or the Omaha National Bank, Omaha, Neb., depositaries. Under the proposed agreement the bonds are to be extended to mature Jan. 1, 1931 and the interest rate increased from 5% to 6%. About 71% of the bonds had been deposited up to Dec. 20, 1927.

As a result of careful and impartial study of the situation the following effective measures were taken for the protection of the bondholders: John N. Shannahan, was made President of Company; the financing of the Omaha & Council Bluffs Ry. & Bridge Co., thus preserving the equity in this Company for the benefit of the Railroad Company bondholders; the election of representative business men of Omaha to the board; agreement with Company providing: (a) that no dividends shall be paid during the period of extension, and (b) for the cancellation or deposit as security of the $1,005,000 bonds now held in the treasury of Company; and to insure the maintenance in office of a satisfactory board of directors during the period of extension.

Stockholders' Protective Committee—Owing to the uncertainty of company's franchise situation and to the negotiations under way for the extension of the First Mortgage Consolidated 5% bonds, due Jan. 1, 1928, the following, owning or representing a large amount of the stock of Company constituted themselves a stockholders' committee with a view to protecting such interests: Albert Strauss, Chairman; Fred Hamilton, Marshall S. Morgan, Louis C. Nash, with M. W. Gaines, Secretary, 54 Wall St., New York City, and Cravath, Henderson & de Gersdorff, Counsel, 52 William St., New York City. The committee in Dec., 1927, did not ask for the deposit of stock but all holders of stock, both Pfd. and Common were urged to send their names and addresses to M. W. Gaines, 54 Wall St., New York City, Secretary.

the West End properties upon expiration of lease, on June 10, 1922, and the consolidation became effective on that date. The consolidation was effected as provided in the statute by an exchange of the outstanding Pfd. and Com. stock of the West End at par for an equal amount at par of First Pfd. and Second Pfd. stock of the Boston Elevated.

On April 29, 1903, the Boston Elevated Ry. Co. leased for 99 years certain tracks of the Old Colony St. Ry., located in the city of Boston, in all 23.75 miles. Rental, under the lease, is payment of taxes and 4% on the cost of all additions and betterments, together with 6⅛% of the replacement value of the leased property as of Feb. 16, 1903.

Consolidation of West End St. Ry.—In July, 1911, the Massachusetts Legislature passed an Act, superseding that of May, 1908, providing for the purchase and merger of this property by the Boston Elevated Ry., upon expiration of the lease on June 10, 1922. This Act was on July 21, 1911, approved by the shareholders of the Boston Elevated, and by a majority of the shareholders of the West End St. Ry. on Sept. 7, 1911, and was subsequently accepted by the City of Boston. The terms under which the merger was effected provided for the exchange at any time after June 10, 1922, of the Pfd. stock of the West End St. Ry. for an equal amount of First Pfd. stock of the Boston Elevated Ry., entitled to cumulative dividends at the rate of 8% per annum. The Common stock of the West End St. Ry. was exchanged for an equal amount of Second Pfd. stock of the Boston Elevated Ry., bearing cumulative dividends at the rate of 7% per annum.

Elevated Lines—The elevated section of the system in operation extends from Sullivan Square, Charlestown, to a connection with the subway lines at the North Union Station, Boston, and also from the subway lines on the south to Dudley St., Roxbury, together with a loop line along Atlantic Ave., in the city of Boston. An extension to Forest Hills was opened Nov. 22, 1909. The elevated line from Sullivan Square, Charlestown, to Everett, was opened to service March 15, 1919.

The Railroad Commissioners approved the route for the elevated structure in Boston, between the Boston end of the Cambridge Bridge and the Beacon Hill Tunnel, constructed by the Boston Transit Commission. This line, with the Beacon Hill Tunnel and the Cambridge Subway, was opened for business March 23, 1912. The East Cambridge elevated extension, running from the North Station through the West End district of the city and over the Charles River Viaduct to Lechmere Square, Cambridge, was opened to the public June 1, 1912.

*Of this amount $9,959.99 was collected from the E. Mass. St. Ry. Co. for their use of the North Section of Subway.
†Of this amount $6,147.10 was collected from the Park Sq. Real Estate Trust on a/c of extension of Arlington Station to Berkeley Street.
NOTE—Annual rental equal to the total interest on the Commonwealth of Massachusetts bonds outstanding (a/c Cambridge Subway Loan) plus ½% additional and 4½ on the bonds that have been retired.

Subways—The Tremont St. subway built by city of Boston within its "congested district" is leased to West End St. Ry. for 20 years from Dec., 1916, at annual rental of 4½% of the net cost of the subway; this lease has been assumed by the Boston Elevated Ry. Co. On Dec. 24, 1904, the latter company leased the East Boston tunnel (under Boston Harbor) until June 10, 1922, at annual rental of ⅜ of 1% of earnings of all lines owned, leased or operated. Since June 10, 1922, the rental for the East Boston tunnel is the same as for all other subways and tunnels, viz.: 4½% of the net cost of construction. The Boston Elevated Ry. also leases the tunnel for elevated trains under Washington St., for 25 years, at rental equal to 4½% of the net cost of construction, estimated at about $8,000,000. This tunnel was put in operation Nov. 30, 1908.

In June, 1906, the Massachusetts Legislature passed a bill permitting the company to build two subways in Cambridge, and to issue stock or bonds to provide for the cost of construction. The city of Cambridge will have the right, after twenty years, to purchase the subways upon payment of the cost of construction, plus 7%, less dividends paid. Construction work on these subways was begun in Aug., 1909, and the subway was put in operation March 23, 1912.

By a Special Act of the Legislature in Dec., 1919, the Cambridge Subway was sold to the Commonwealth of Massachusetts. The purchase price which was determined by its cost as certified by the Department of Public Utilities, which filed their report on March 11, 1920, stating the cost to be $7,868,000. This amount was paid May 1, 1920 and rental began on that date. The State has issued serial bonds to pay for same, and the company has leased the subway, paying for same ½ of 1% more than the interest rate paid by the State, and as fast as the bonds are retired the Company is to pay 4½% on the amount retired.

After a hearing, the Department of Public Utilities directed the application of the fund to the following purposes:

For the payment of Boston Elevated Railway Co. bonds due March 1, 1920	$1,500,000.00
For the payment of West End St. Railway Co. bonds due Aug. 1, 1919	1,581,000.00
For the payment of West End St. Railway Co. notes due Feb. 1, 1920	375,000.00
For the payment of West End St. Railway Co. bonds due Aug. 1, 1920	1,581,000.00
For the payment of permanent additions to West End St. Railway Co. property	1,561,245.21
For the payment of additions and improvements to Boston Elevated Railway Co. property	269,754.79
Appropriated for Forest Hills terminal yard and Everett shops	1,000,000.00
	$7,868,000.00

Additional Tunnels and Subways—An Act providing for the extension of under-ground lines in Boston was passed by the State Legislature in the summer of 1911, and was subsequently accepted by the Boston Elevated Ry. and the officials of the City of Boston.

The Act provides for the construction by the Boston Transit Commission, immediately following the filing of necessary plans and the execution of contracts with the Boston Elevated Ry. Co., of new tunnels or subways, as follows:

Dorchester Tunnel (connecting with the Cambridge connection at Park Street Station, Boston), extending via Dewey Square and South Boston to Dorchester, with necessary intervening stations and connections; Boylston St. subway, extending from Commonwealth Ave. and Beacon St. to the Park St. station of the Tremont subway, with necessary stations, etc.; East Boston Tunnel Extension, extending from the East Boston tunnel in Court St., near Scollay Square, to the surface tracks in Cambridge St., near Lynde St., with stations, etc.

The cost of construction, etc., is to be met through the sale by the City Treasurer, upon request of the Commission, of City Bonds, to be known respectively as "Dorchester Tunnel Bonds," "Boylston St. Subway Bonds" and the "East Boston Tunnel Extension Bonds." Any unexpended proceeds of the Boston Riverbank Subway bonds, after application of not exceeding $50,000 to the preliminary work of the Commission, shall be used on the Boylston St. subway. All bonds are to be issued for a term of not exceeding 45 years, and shall bear interest at not exceeding 4%; details to be decided by the Mayor and City Treasurer. Work was started on the Boylston Street subway on March 12, 1912, on the Dorchester tunnel May 30, 1912, and on the East Boston tunnel extension Nov. 29, 1912. The Boylston Street subway, including the line to its terminal at Kenmore St. was put in service Oct. 3, 1914. The East Boston tunnel extension was put into service March 18, 1916. On Dec. 15, 1917, the Dorchester Tunnel was opened from South Station under to Broadway station, greatly facilitating travel in the Dorchester and South Boston section. The tunnel was opened complete to Andrew Square July 1, 1918.

Terms of Lease—All old contracts for the use of existing subways have been renewed from their present date of expiration to extend to July 1, 1936, the annual rental of same for the extended period being on the following basis: 4½% on net cost of the Tremont St. subway, Washington St. tunnel and East Boston tunnel, the contract covering the last named, however, to have eliminated therefrom the provisions for tolls from passengers using the tunnel for the extended period. Contracts for the new lines are also to run to July 1, 1936, the rentals therefor to be as follows: Cambridge Connection, 4⅞% of the net cost for the first 20 years and 4½% thereafter, which latter amount is also to be paid as an annual rental for the Dorchester, Boylston, and East Boston Extension lines. All contracts shall continue in force after July 1, 1936, upon the same terms and conditions, unless terminated by either the City or the Company, by giving two years' notice of such intention.

PUBLIC MANAGEMENT AND OPERATION—SERVICE AT COST

Up to July 1, 1918, the railway was operated by the stockholders, and, since July 1, 1918, the railway has been operated by trustees appointed by the Governor under the provisions of Chapter 159 of the Special Acts of 1918. This act was accepted by the Boston Elevated Ry. Co. and by the West End St. Ry. Co. on June 3, 1918, and certificates that it had been duly accepted and that the $3,000,000 of preferred stock named therein had been duly subscribed for were filed with the Secretary of the Commonwealth on June 24, 1918.

The Act went into effect July 1, 1918 and provides substantially as follows:

(1) Road to be managed by five trustees, appointed by the Governor.

(2) The period of public operation is to be ten years or longer, at option of the Commonwealth.

(3) Trustees to have power to regulate fares and transfer privileges, and to determine character and extent of service.

(4) Company to raise $3,000,000 by sale of Pfd. stock at not less than par, $1,000,000 to be used as a reserve fund and $2,000,000 for additions and improvements.

(5) Fares must be sufficient to meet cost of service, Pfd. dividends at 7% and Common dividends at rate of $5 a share for the first two years, $5.50 for the next two years and $6 during balance of period of public operations; the first payment to be made six months after commencement of public operation.

(6) The trustees to adopt a schedule of eight different grades of fares, of which four shall be below and four above rate of fare first established; schedule to be increased whenever fare is changed, so that there shall always be not less than four grades above and four grades below the existing fare.

(7) Whenever income is insufficient to meet the cost of service, the reserve fund is to be drawn upon; if income is more than sufficient, the excess is to be transferred to the reserve fund.

(8) The trustees are permitted on certain dates not more than twelve months apart, as from time to time may be fixed by them, to consider a change of the rates of fare in force if the reserve fund exceeds by 30% or more original amount, and income during the preceding three months exceeded cost of service, the next lower grade of fare shall be adopted; if reserve fund is less than 70% of original amount, and during preceding three months income was less than cost of service, the next higher grade of fare shall be adopted. The fare shall continue to be decreased or increased if reserve fund is above or below said limits.

(9) If reserve fund is insufficient to meet deficiency in the cost of service, the State shall make up the deficit and assess same upon the cities and towns in which the company operates.

(10) At the end of the period of public management and operation, the road reverts to the Board of Directors, who may continue to operate same on service-at-cost plan, and pay $6 a share Common dividends.

(11) The State has the option of taking over the road by assuming its liabilities and paying in cash an amount equal to that paid in by the stockholders. The State may also take over the properties of the former West End Street Ry. Co. by paying in cash an amount equal to amount paid in by Common stockholders of West End Street Ry. Co. plus the par value of the Pfd. stock.

Depreciation—The statute under which the trustees act requires that they shall set aside "such allowance as they may deem necessary or advisable for depreciation of property and for obsolescence and losses in respect to property sold, destroyed or abandoned." Under this authority the trustees voted that a general depreciation credit be established in the sum of $167,000 for the month of July, 1918, and each subsequent month; on Jan. 1, 1924, the amount was increased to $208,000, with additional provision for motor buses.

Joint Special Committee Report—The Joint Special Committee, appointed under authority from the Massachusetts Legislature of 1924, filed its report for the next Legislature, on Dec. 14, 1925, on the future course of the Boston Elevated Railway. The recommendations of the Committee consists of the following:

(1) Extension of public control for a period of 30 years from July 1, 1926.

(2) Reduction of the dividend rental on Common stock from 6% to 5% beginning July 1, 1926; the preferred stock rentals to be the same as heretofore.

(3) Appointment of Trustees for initial terms of two, four, six, eight and ten years, and thereafter for ten years, the board to elect its own chairman every two years.

(4) Trustees be authorized to dispose of preferred stock without offering it to stockholders.

(5) Trustees be given authority to put into effect from time to time such rates of fair and schedules of charges as in their judgment will meet the cost of service.

(6) A requirement that the reserve fund shall be increased to $3,000,000 and that the road shall have earned $1,000,000 annually for two successive years before trustees shall be compelled to reduce the basic fare.

(7) The limiting of the franchise tax during public control by providing for a refund of any amount by which the franchise tax in any one year exceeds that paid in 1925.

(8) In the event of the state exercising its option to take the road by purchase or by eminent domain, compensation shall not be enhanced by reason of the proposed legislation or any contract made under it.

(9) The bill shall take effect when a majority of each class of stock of the Boston Elevated Railway has accepted the act.

Statement of Special Trust Fund, Dec. 31, 1927—Principal of Trust Fund as established, $1,500,000; accretions and accumulations to Dec. 31, 1927, $633,496; income from June 10, 1922, to Dec. 31, 1927 ($540,170; less amount paid on account of retirement of 718½ shares of second preferred stock, purchased in July, 1923, $72,193; 919 shares purchased in July, 1924, $90,320; 1,116 shares purchased in July, 1925, $111,685; 1,030 shares purchased in July, 1926, $108,647; 1,020½ shares purchased in July, 1927, $107,437). $49,888—total, $2,183,383. Contra: Investments, $2,132,050; cash on deposit, $51,333—total, $2,183,383.

The above Trust Fund is held by the Boston Elevated Ry. Co. under Chapter 740, Acts of 1911, "An Act to authorize the consolidation of properties and franchises of the Boston Elevated Ry. Co. and the West End St. Ry. Co." and represents the proceeds from the sale to the Boston Elevated Ry. Co. of real estate of the West End St. Ry. Co., which was not required in the conduct of the business. The amount so received ($1,500,000) is to be held by the Boston Elevated Ry. Co. and invested by it and allowed to accumulate until June 10, 1922. Hereafter, the annual income therefrom will be applied toward the purchase and retirement of the second preferred stock of the Boston Elevated Ry. Co. No part of this fund or its income can be used for any other purpose until all of the second preferred stock has been retired, when the fund becomes available for capital purposes.

History—Incorporated Feb. 26, 1893, in Ohio, as the Cleveland Electric Ry. Co., consolidation of the Broadway and Newburg St. Ry., the Brooklyn St. Ry., the East Cleveland Ry. and the South Side St. Ry. companies. On July 1, 1903, purchased all the rights and properties of the Cleveland City Ry. Co., and on April 27, 1908, absorbed the Forest City Ry., which had previously absorbed the Low Fare Ry. On June 2, 1908, name of the company was changed from Cleveland Electric Ry. Co. to Cleveland Ry. Co.

The property of the Cleveland Electric Ry. Co. was leased to the Municipal Traction Co. on April 27, 1908, for a term of 25 years at rental of interest on bonds and 6% interest on stock. The first payment of interest of 1½% under the lease was paid July 1, 1908, but the lease was abrogated as a result of a referendum election, and the property of this company, together with the Municipal Traction Co. was placed in Receivers' hands on Nov. 12, 1908, it being alleged that the Municipal Traction Co., having lost the lease of the Cleveland Ry. lines, had practically no assets. The debts of the Municipal Traction Co. having been provided for, the Receivers were discharged by order of Judge Taylor in Feb., 1910, and the Cleveland Ry. resumed possession of its lines on March 1, 1910.

The North Randall Ry. (see 1925 Manual, page 872), previously operated under agreement by The Cleveland Railway Company, was abandoned in 1925.

Franchises—The City Council of Cleveland passed a franchise ordinance which became effective in March, 1910, under the terms of which net earnings in excess of fixed charges and 6% on the capital stock are to be used toward the reduction of fares or betterment of the service. The city has the right to purchase the property at any time at par of outstanding bonds and floating debt and 110% of outstanding capital stock, or after Jan. 1, 1918, to designate a purchaser or licensee in lieu of the City on payment of the same amount. Judge Tayler placed the value of the physical property at $17,511,856, and the franchise value at $3,615,844—a total of $21,127,700, in addition to which the agreed value of the Forest City lines ($1,805,600) must be added, making a total valuation of $22,933,300.

Effective July 1, 1926, the City of Cleveland passed a new ordinance the outstanding features of which are:

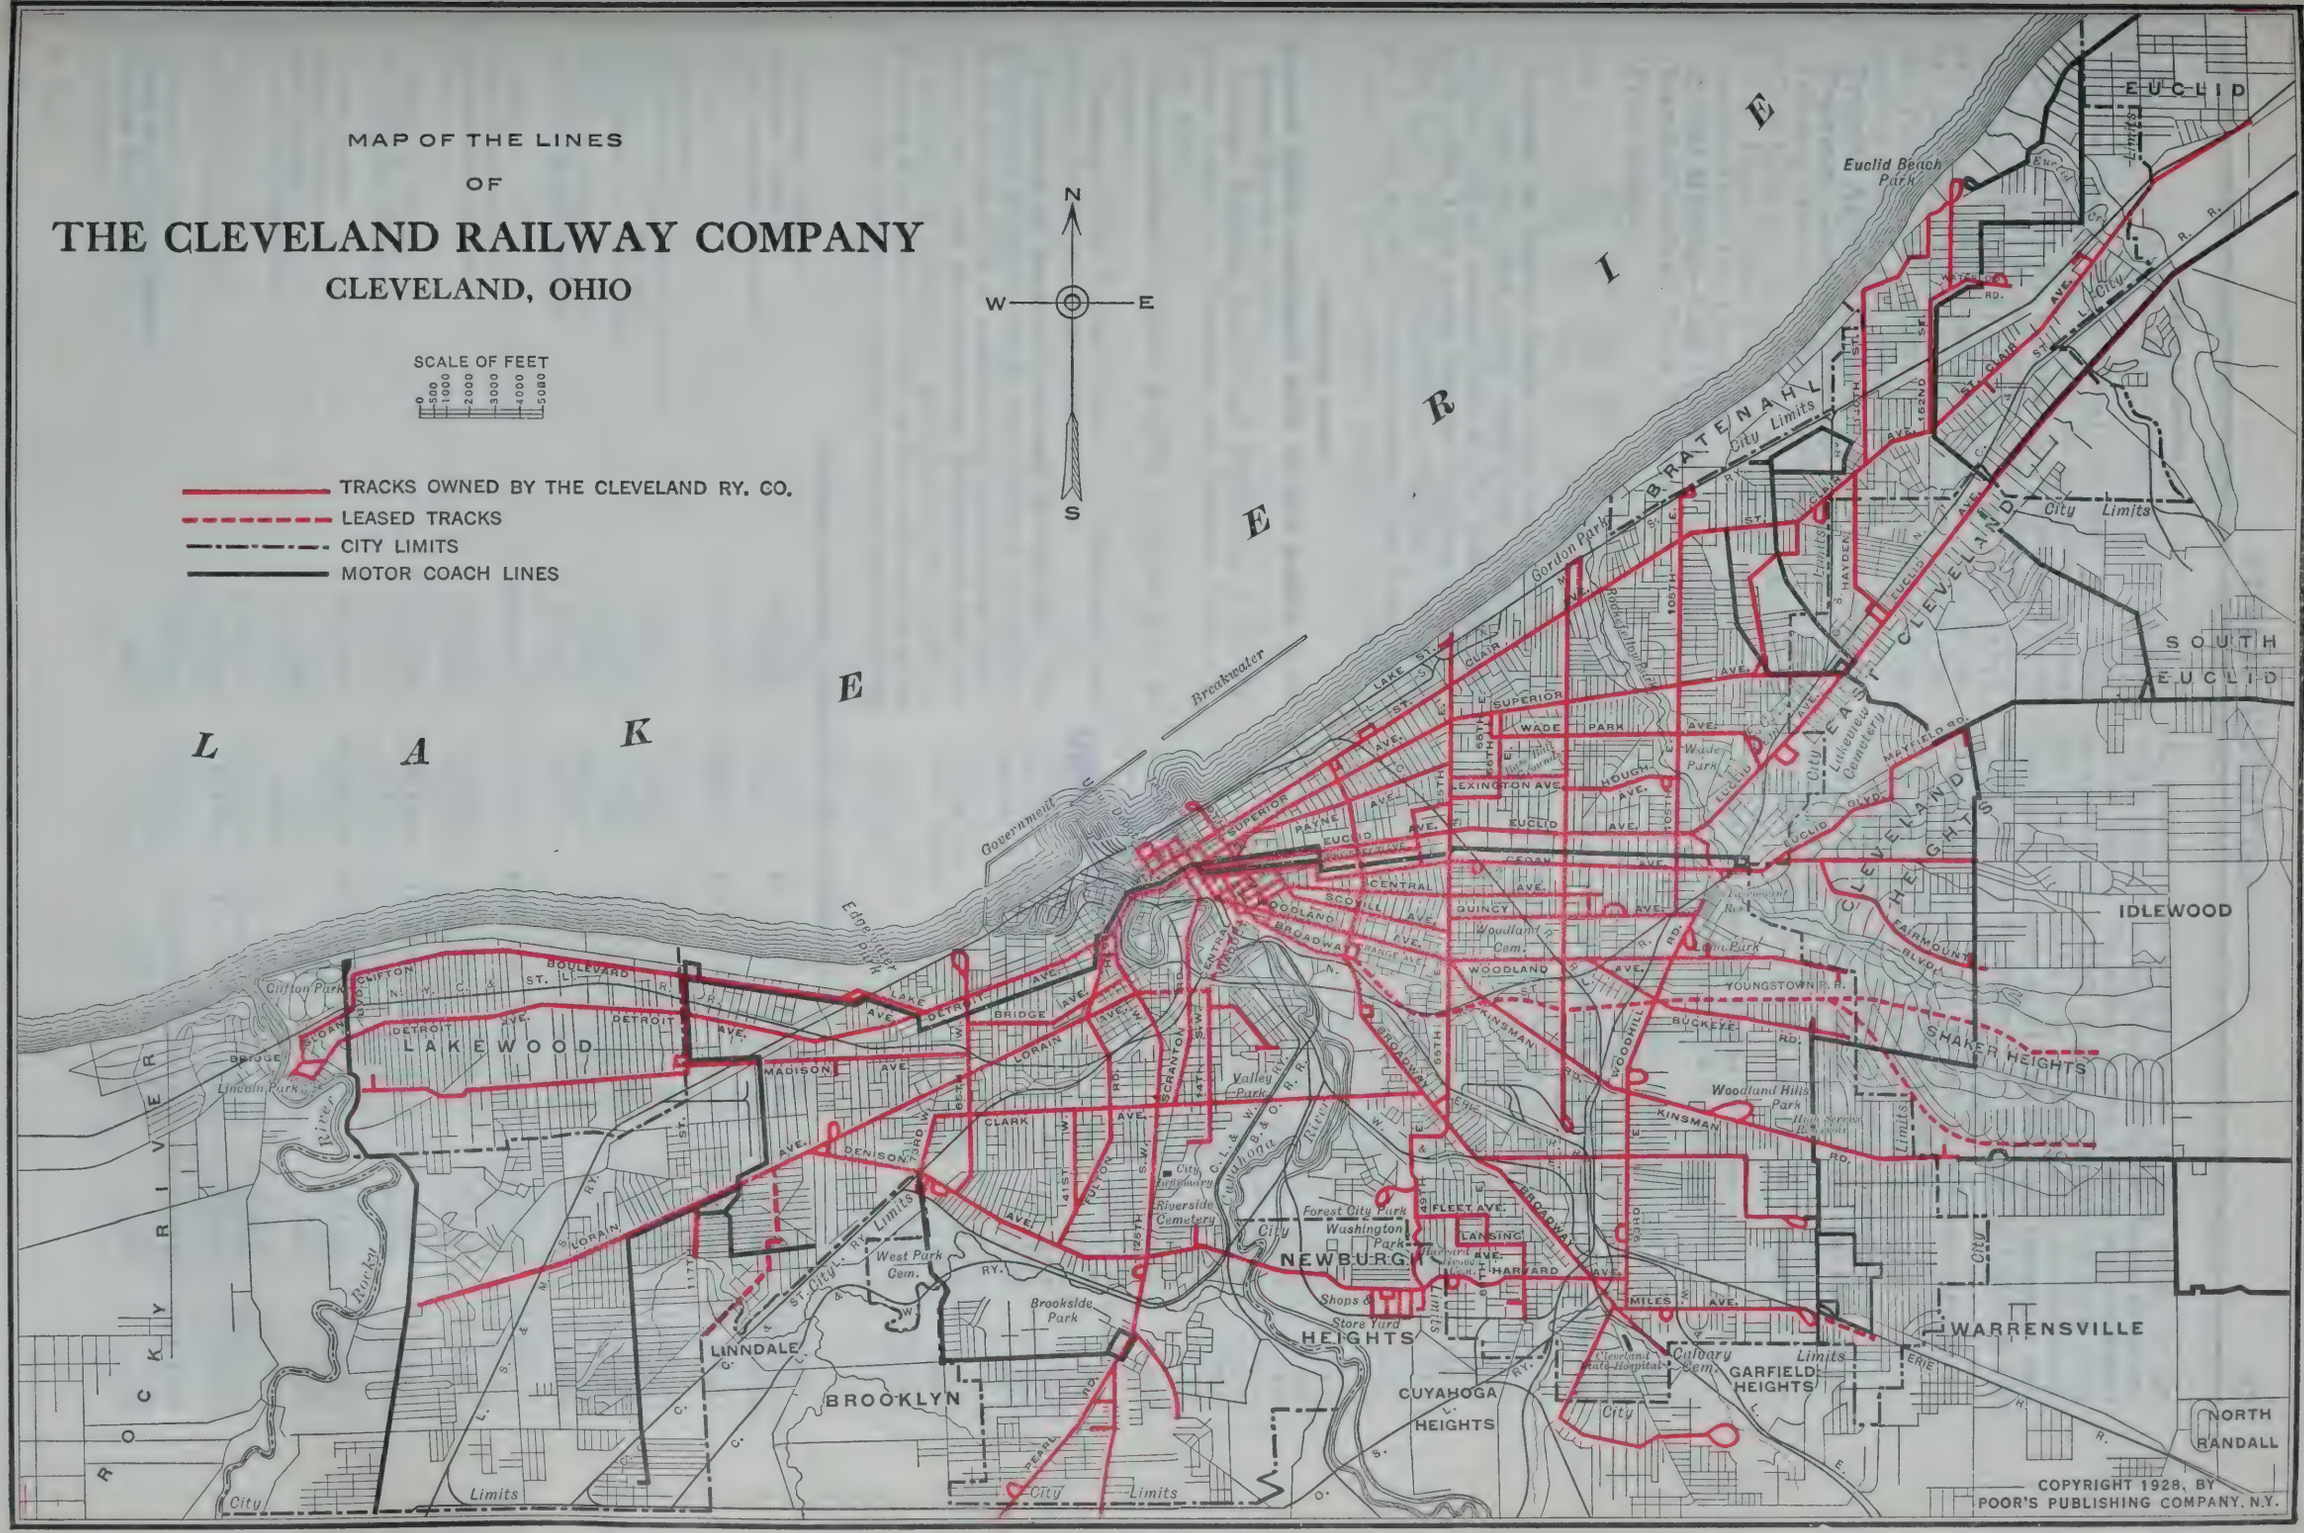
(1) The right of Company to furnish all the transportation to the City of Cleveland for 25 years, including Company's present system of street railways and motor coaches and additions thereto by any type of power or vehicle which the city may approve.

(2) The interest fund, from which interest on Company's stock is paid, has been increased in size by taking from earnings over a period of months $300,000. This fund was originally created by setting aside $500,000 of Company's capital. The levels of the fund at which the rate of fare is increased or decreased have been changed. Since 1910 they had been $300,000 and $700,000. This permitted the impairment of capital from time to time even though in each instance the impairment has been made good. The new contract makes the levels $500,000 and $1,100,000. The effect of the increase in the size and range should be to stabilize the rates of fare.

(3) Provision has been made that 1½% of gross receipts of Company shall be set aside monthly as a capital retirement or betterment fund. This fund can be used only in payment of floating or bonded indebtedness of company, the purchase of Company's stock, if the stock so purchased may legally be retired, or in the acquisition of property which shall not be added to the capital value of the Company. The purpose of this and its undoubted effect will be to relieve Company of making any unprofitable extensions or unwarranted additions and will create a small reservoir to draw on for reduction of capital.

(4) The city has the continuing right to renew the grant, but if it does not when present grant has less than 15 years' remaining life, Company may charge and collect, in addition to the rate of fare fixed through the interest fund by the cost of the service including interest on the investment, ½ cent from every street car rider and 1 cent from every motor coach rider, these charges to be used for the purpose of retiring the capital investment of Company. This provision increases the assurance of earlier contracts between Company and city that the city would, as it has, renew the grant, but beyond that it makes certain that a large amount of money may be charged annually for the benefit of investors should the franchise be permitted to expire.

(5) The schedule of fares ranged originally from 2 cents to 4 cents, was increased in 1919 to a permissable maximum of 6 cents and has had further higher rates included so that the permissible maximum rate of fare is now 10 cents.



The fundamental basis of the settlement effective in 1910 is preserved and continued unchanged in this new contract. The purpose of service-at-cost—"to secure to the city the best possible transportation at cost consistent with the security of the property and the certainty of a fixed return thereon"—remains the purpose of the new contract. The provisions as to city control of service, protection of the Company against unwarranted demands made upon by the City, the right of the city to purchase by paying a premium of 10% on Company's stock, all are as they have been since March, 1910.

Company expects to make similar settlement with the cities of East Cleveland, Cleveland Heights and Lakewood, whereby they will pay the same rate of fare charged in the city of Cleveland for their local service and an additional cent for ride to and from the city of Cleveland.

Mileage comprises the entire street railway lines of the city of Cleveland and suburbs—a total, as of Dec. 31, 1927, including leased lines, of 418.3675 miles of track. Gauge, standard. Rail, 95 to 141 lb. girder. Equipment: Revenue cars, 1,453; service equipment cars, 277; motor coaches (72 single deck and 53 double deck), 125—a total of 1,855 cars and motor coaches.

ADRIATIC ELECTRIC COMPANY

(Societa Adriatica di Elettricita)

History and Property—Organized in 1905 under the laws of the Kingdom of Italy. It is both an operating and a holding Company, and owns directly or indirectly more than a majority of the capital stock of twenty subsidiary companies. It and its subsidiaries, constituting the so-called Adriatica Group, own and operate hydro-electric plants, transmission lines and distribution systems, which together form one of the three largest systems for the production and distribution of electric power, heat and light in Italy.

The Group serves a territory comprising about 17,000 square miles, including 15 provinces surrounding the northern end of the Adriatic Sea and having a population of over 5,500,000. This territory includes Trieste and Venice, two of the four most important Italian ports, as well as the important cities of Bologna, Padua, Verona and Ferrara.

The plants owned by the Group have an aggregate installed capacity of approximately 236,000 h.p., (including steam reserves) with approximately 1,120 miles of transmission lines and approximately 6,700 miles of distribution lines and 58 principal sub-stations. Over 90% of such capacity is hydro-electric. These plants generate almost all of the electric energy sold by the Group, only about 10% of the energy sold being purchased outside the Group.

The electric energy supplied by the Group has increased steadily from about 220,000,000 k.w.h. in 1920 to over 546,000,000 k.w.h. in 1926, an increase of about 150% during the past six years. Of the energy distributed by the Group in 1926 it purchased about 55,000,000 k.w.h. outside of the Group. The number of consumers served by the Group has increased from about 178,000 in 1920 to over 300,000 in 1926. The water concessions from the Italian Government covering the deviation of public waters under which the companies of the Group operate either do not expire, or by virtue of the law of October 9, 1919, are renewable in such manner as not to expire, prior to 1977.

New plants and additional transmission lines now projected or in course of construction by the Group are expected to increase the installed capacity of its plants by 1930 by about 140,000 h.p., and its transmission lines by about 170 miles. The Company estimates the cost of completing this new construction at about $5,000,000.

CAPITAL STOCK

Outstanding, 2,500,000 shares of the par value of Lire 100 each, increased from 1,000,000 shares in Oct., 1924 and from 2,000,000 in Nov., 1927. 2,000,0000 shares are full paid, and the remaining 500,000 shares are one-tenth paid plus 5% premium, the balance being payable in April, 1928.

Dividends—Payments in respect of fiscal years have been made as follows: 1920 and 1921, 9%; 1922 to 1924, 10%; 1925, 12½%; 1926, 16%.

THE DENVER TRAMWAY CORPORATION

History and Properties—Incorporated June 23, 1925 in Delaware; organized in accordance with reorganization plan of The Denver Tramway Company, dated April 15, 1925 (see 1925 Public Utility Manual, pages 2084 and 2085 or apply to our Information Department); a consolidation of The Denver & Northwestern Railway Company, The Denver Tramway Company and The Consolidated Securities & Investing Company (see statements in 1925 Public Utility Manual, pages 2082 to 2088). Corporation owns all of the capital stock except directors' qualifying shares and all the outstanding mortgage notes of The Denver & Intermountain Railroad Company, all of said stock and notes being deposited as collateral under The Denver Tramway Corporation General & Refunding Mortgage.

Company owns and operates 221.39 miles of track, comprising the entire street railway system of Denver, including a line through the former town of Berkley (now part of Denver), northwesterly through Arvada to coal mining town of Leyden, with a branch from Arvada to Golden. It also owns all the capital stock (except directors' shares) of The Denver & Intermountain RR., operating 25.77 miles of track, making a total of 247.16 miles of lines in the system. In addition to the above, the company has traffic arrangement with The Denver & Crown Hill Ry., an independent company operating outside the limits of the city, which purchases its power and rents its cars from The Denver Tramway Corporation. Gauge, 3 ft. 6 in., rails, 30 to 100 lbs. Operated by overhead trolley. Population served, 325,000.

Franchises—The Denver Tramway Company (merged into present corporation), on March 30, 1914, acquired from Denver City Tramway Co. a franchise authorizing the operation and maintenance of cable and electric railways, dated Feb. 5, 1885. This franchise is without time limit. Franchises of The Denver & Northwestern Ry. (merged into present Corporation) runs for 50 years from March 3, 1902, in Denver; 99 years from June 2, 1903, in the city of Golden; are perpetual over county roads it crosses and intersects; balance comprising main mileage is over private right-of-way owned by the company in fee simple.

Rate Litigation—The properties of the former Denver Tramway Company were placed in the hands of a receiver on Dec. 24, 1920. This was brought about by company's failure to obtain relief in the way of a compensatory rate of fare and a general strike, following demands for increases in wages which the company was unable to meet.

Thereafter in March, 1921, the Court entered an interlocutory decree enjoining the city from enforcing a 6-cent fare and authorizing the receiver to collect fares not in excess of 8 cents for adults, with a 7½-cent ticket fare.

Valuation Proceedings—The city appealed from the above interlocutory decree, but such decree was affirmed by the U. S. Circuit Court of Appeals. Thereupon, for the purpose of final hearing and decree, the Court appointed a special master, who took testimony as to the values of the different classes of property comprising the Denver Tramway Company's entire electric street railway system within the city. The master reported the valuation of such property as he found it, and held that a 7½% return to the company upon such valuation would be fair and reasonable, and that the 6-cent fare sought to be enforced by the city did not afford such return and was confiscatory.

Reviewing the master's report, Judge Robert E. Lewis, in a decision filed in the U. S. District Court for the District of Colorado on Dec. 13, 1924, increased certain items in the valuation, fixing it at $23,514,769 for the part of the system within the city limits (not including either certain real estate not used in operation, or the Interurban Lines), and sustained the conclusions of the master as to the rate of return to which the company is fairly entitled and as to the confiscatory nature of the fare sought to be enforced by the city. Depreciated value of all properties owned by the System based on the above Court valuation was $27,445,668, as of Dec. 31, 1926.

In its opinion the court also referred to the franchise ordinances of 1885 and 1888 as perpetual easements in the streets.

Provisions of Issue—Authorized amount open; issued, $6,943,500, of which $501,500 are held in the Treasury available for general purposes, and $6,442,000 were issued for the purposes outlined in Plan of Reorganization of The Denver Tramway Co., dated April 15, 1925. The mortgage provides for the issuance of bonds, par for par, to refund any or all of the underly-

ing bonds or bonds of any series previously issued under this mortgage and provides for the issuance of additional bonds without limit as to amount for not exceeding 75% of expenditures by Company for additions, betterments and improvements to its street railway system made after July 1, 1925. The bonds may be issued in series, at such rates of interest, and having such dates of maturity, not, however, earlier than July 1, 1950, as the directors may determine at the time of authorization.

Callability—Subject to call on or before June 30, 1930 at 102½; thereafter to June 30, 1933 at 102; thereafter to June 30, 1940, at 101½; thereafter to June 30, 1945, at 101, and thereafter to June 30, 1949 at 100½.

Sinking Fund—Mortgage provides that on July 1, 1928 and on the 1st day of July thereafter, so long as any of the bonds of Series "A" shall be outstanding, there shall be deposited in cash 1% of the aggregate principal amount of such bonds on the respective dates then outstanding to retire bonds at lowest price obtainable, not exceeding the call price; providing also that, if prior to July 1, 1928, the Corporation shall declare and pay a dividend upon its Common stock, the obligation to make sinking fund payment shall be effective forthwith and each July 1st thereafter; and also that appropriate provisions shall be made in respect to subsequent series of bonds issued under this mortgage.

Security—A first lien on all the street railway property and appurtenant real estate and franchises of corporation, subject to $3,512,000 underlying liens described in paragraphs 1, 4 and 6. Additionally secured by pledge of all the $1,000,000 outstanding stock (except directors' qualifying shares) and all of the $495,900 First Mortgage 5% notes, due Jan. 1, 1938 of The Denver & Inter-Mountain RR.; also by pledge of $2,670,000 of The Denver Consolidated Tramway Co. First Consolidated Mortgage 5% Gold bonds, due Oct. 1, 1933.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

History—Incorporated June 3, 1891, in N. J. Owns and controls through operating subsidiaries the entire street railway systems in Minneapolis, St. Paul and vicinity. In addition, owns all of the local bus lines operating in and between Minneapolis and St. Paul, co-ordinated with the street railway system, and several important suburban bus routes; also owns a majority of the capital stock of the leading taxi-cab company operating in Minneapolis and St. Paul. The Company's lines serve an area exceeding 255 square miles with a population in excess of 800,000.

Company controls through stock ownership the Minneapolis Street Ry. Co., The St. Paul City Ry. Co., The Minneapolis and St. Paul Suburban RR. Co., The Minnetonka & White Bear Navigation Co., Twin City Motor Bus Co., The Rapid Transit Real Estate Corp., Transit Supply Co. and Yellow Cab Corp. of Minnesota (see appended statement of last mentioned corporation).

The electric railway system includes four interurban lines operating in and between Minneapolis and St. Paul, a suburban line of over 32 miles connecting St. Paul to White Bear, Stillwater and Bayport, and also lines totaling over 48 miles between Minneapolis and Excelsior, Deephaven and Tonka Bay on Lake Minnetonka together with lines from Minneapolis to Robbinsdale and St. Louis Park. The total mileage of the lines, reduced to single track, is 511.81 miles. The bus lines operate in and between the cities of St. Paul and Minneapolis, and in local service are co-ordinated with the street railways. The Yellow Cab Corp. of Minnesota owns over 300 cabs and is constantly adding to its fleet.

The companies own a large steam turbine electric power generating plant of 75,000 k. w. capacity and 12 sub-stations. Company also has favorable leases for water power at St. Anthony Falls of 16,000 k. w. capacity.

Subsidiary Companies—In 1910, in consequence of a decision of Supreme Court, holding that the suburban lines as railways are amenable to the Minnesota 5% gross earnings tax, the Minneapolis & St. Paul Suburban RR. was incorporated with $1,000,000 (outstanding, Dec. 31, 1927, $2,600,000) capital stock, and the Minnetonka & White Bear Navigation Co., with $250,000 capital stock, and The Rapid Transit Real Estate Corp., with $15,000 stock, to take title to the suburban lines, the steamer lines operated on Lake Minnetonka, and the restaurants and amusement enterprises of the company.

Twin City Motor Bus Company—The Twin City Rapid Transit Company on Aug. 1, 1924 purchased the entire capital stock (except directors' qualifying shares) of this company, which operates a line of automobile passenger busses between the business districts of Minneapolis and Saint Paul. In Dec., 1925, the Company purchased the remaining two bus lines, operating in Minneapolis and Saint Paul, and now owns all of the local bus lines operating in these cities.

Franchises—In April, 1921, the Legislature of the State of Minnesota passed an act vesting in the State Railroad and Warehouse Commission of the State of Minnesota exclusive power and authority to fix and determine the fair value of street railway property and establish rates of fare which shall yield a reasonable return on such value.

In addition the Act vests in the Commission, authority to regulate the issuance of stocks, bonds, notes and other forms of indebtedness.

Upon this law taking effect, the operating subsidiaries of Twin City Rapid Transit Company surrendered their then existing municipal franchises and accepted in lieu thereof indeterminate permits under the terms of the Statute. The indeterminate permits from the State continue in full force and effect unless and until the municipalities shall acquire the street railway properties at values established by the State Railroad and Warehouse Commission. The bus lines are operated under State Certificates of Public Convenience and Necessity.

Fares Increased—On July 3, 1925, the Railroad and Warehouse Commission of Minnesota filed its order fixing the fair value of the properties of Minneapolis Street Ry. Co. and the Saint Paul City Ry. Co., the

rate of return thereon and the fare to be collected at 8 cts. cash and requiring the Company to sell ten tickets for 60 cts., being an average rate of fare of about 6.20 cts. per revenue passenger. The companies commenced an action to enjoin the enforcement of the Commission's order. The Court denied an injunction, and ordered a six months' trial of the Commission's rate of fare, and appointing a special Master in Chancery to take testimony, who set October 12, 1925, for a hearing. In the meantime, the cities of Saint Paul and Minneapolis and the Company arrived at a settlement whereby they accepted the valuation of the property as of Jan. 1, 1925, as fixed by the Railroad and Warehouse Commission, being $26,787,228 for the Minneapolis Street Ry. Co. and $16,196,090 for the Saint Paul Railway Co. and a rate of return of 7½% upon the above value. This settlement was later confirmed by the U. S. District Court and the matter submitted to the Commission, which on December 22, 1925, filed its order fixing a fare of 8 cts. cash and requiring the Companies to sell six tickets for 40 cts., effective January 1, 1926, being an average rate of fare of about 6.67 cts. per revenue passenger.

Dated December 1, 1927.

Interest Payable June and December 1, at The Chase National Bank, New York, The National Bank of the Republic, Chicago, or The Royal Bank of Canada, Toronto.

Denominations—Coupon (principal may be registered), $100, $500 and $1,000, and fully registered, $1,000, $5,000 and multiples thereof.

Trustee—The Chase National Bank, New York.

Provisions of Issue—Authorized amount, unlimited; issued, $18,000,000 Series "A" 5½s, due 1952. Additional bonds may be issued in accordance with terms of the indenture for three purposes: (1) For the acquisition by the Minneapolis and St. Paul Street Railway Companies of new property or for additions and betterments or to pay obligations on contracts duly entered into therefor, in an amount not in excess of 75% of the actual cost of the new property so acquired or of the cost of said improvements, provided that the net earnings available for interest during any 12 months of the 15 months' period preceding the date of such issue, shall be at least twice the interest charges on all of the

then outstanding bonds issued under this indenture, including the new issue, and including other funded debt of the above subsidiaries of the issuing Company, and provided further, that all of such additional bonds of the Minneapolis and St. Paul Railway Companies be pledged under the indenture of the issuing Company; or (2) to retire previous series of bonds by the issuance of new series; or (3) for refunding the existing obligations of The St. Paul City Railway Co. which mature in 1932, 1934 and 1937.

Purpose of Issue—Of the proceeds of this issue $15,000,000 and interest accrued to dates of maturity were to be deposited with the Trustee to retire $15,000,000 principal amount of funded debt of the pledging subsidiaries maturing August 15 and October 1, 1928, and the balance to pay for capital additions and for other corporate purposes.

Callability—Series "A" bonds are subject to call as a whole or in part at 105 on or before Dec. 1, 1932; at 104 on or before Dec. 1, 1937; at 103 on or before Dec. 1, 1942; at 102 on or before Dec. 1, 1947; at 101 on or before Dec. 1, 1951; thereafter at 100 until maturity; plus accrued interest in each case.

Sinking Fund—A sinking fund amounting to $360,000 per annum, equivalent to 2% of the principal amount of the initial series of these bonds, will be provided, beginning June 1, 1929, and payable on June 1 in each year thereafter. The indenture provides that in lieu of payment of cash into the sinking fund the Company may cause its subsidiaries to expend all or part for additions and betterments, in which event the said improvement shall become subject to the lien securing the pledged bonds, and no further bonds may be issued against said improvements.

Security—A direct obligation of Company, secured through pledge of First and Refunding Mortgage bonds of Minneapolis Street Railway Co. and Refunding Mortgage bonds of The St. Paul City Railway Co. aggregating $18,000,000. The entire capital stock of Twin City Motor Bus Co. (except directors' qualifying shares) and the entire capital stock of The Transit Supply Co. (except directors' qualifying shares) are also pledged as security for these bonds. The value of the property of the Minneapolis Street Railway Co. and The St. Paul City Railway Co. was fixed and determined as of Jan. 1, 1925, by the Railroad and Warehouse Commission of the State of Minnesota at $42,983,318. The Twin City Motor Bus Co. is valued as per the books of the Company at $1,264,992. The Minneapolis & St. Paul Suburban RR. Co. property value as of Jan. 1, 1926, was $4,825,794 and with property of The Minnesota & White Bear Navigation Co. and The Rapid Transit Real Estate Corp. and capital additions to Jan. 1, 1927, there was a total value of property of subsidiaries as of Jan. 1, 1927, of $50,027,003.

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and agrees to refund upon timely application as provided in the Mortgage, personal property tax paid by residents of Connecticut and Pennsylvania not in excess of four mills, and of Maryland not in excess of four and one-half mills, and of California and Kentucky not in excess of five mills, and the Massachusetts local Income Tax not exceeding 6% per annum on income derived from these bonds.

Legal Opinion—Winston, Strawn & Shaw, Chicago (for the Bankers), and Lancaster, Simpson, Junell & Dorsey, Minneapolis (for the Company).

Original Offering—First publicly offered ($18,000,000) in December, 1927, at 97 and interest, to yield over 5.70%, by Chase Securities Corp., H. M. Byllesby & Co., Inc., Halsey, Stuart & Co., Inc., Hayden, Stone & Co., A. E. Ames & Co., Ltd., New York, etc.; Federal Securities Corp., and Illinois Merchants Trust Co., Chicago; Minnesota Loan & Trust Co. and First Minneapolis Trust Co., Minneapolis, and Merchants Trust Co. and Northwestern Trust Co., St. Paul.

Depreciation Policy—The depreciation policy of the operating subsidiaries has been in accord with the best practice, and has been in conformity with principles established and approved by the Railroad and Warehouse Commission of Minnesota. The depreciation reserve as of December 31, 1927, amounted to $13,950,775, practically all of which has been reinvested in the property. The trust indenture securing the Twin City Rapid Transit Co. First Lien & Refunding 5½s, due Dec. 1, 1952, provides that the depreciation policy shall continue in such manner as not only to preserve and maintain the reserves now existing, but to make such average annual charges to depreciation account in the future as have been made in the past.

YELLOW CAB CORPORATION OF MINNESOTA

(Controlled by Twin City Rapid Transit Company)

History and Business—Incorporated in Delaware in Dec., 1926, for the purpose of acquiring all of the outstanding capital stock of the Yellow Cab Company of Duluth, the Town Taxicab Company, Inc., Drive Yourself System, Inc., Yellow Cab Company, Inc., and the Pfd. and Common stocks of the Red Top Cab Co. As of January 1927 these subsidiaries operated a total of 330 Yellow Cab and Red Top taxicabs, 50 Hertz Ambassador Sedans, used in the taxicab and drive yourself services, and 52 Chevrolets, Fords and Chryslers, also used in the drive yourself service. They operate the Yellow Cab and Red Top taxi services in the cities of Minneapolis and St. Paul, the Yellow Cab taxi service in the City of Duluth, and the Town Taxi and Drive Yourself services in the cities of Minneapolis and Rochester, Minn.

CAPITAL STOCK

Authorized, 30,000 shares Class "A" Common of no par value; 60,000 shares Class "B" Common of no par value and $1,000,000 7% Pfd. stock, par $100; outstanding, Nov. 30, 1927, 25,000 shares Class "A" and 50,000 shares Class "B." A controlling interest is held by Twin City Rapid Transit Company.

Preferred Stock Provisions—Pfd. stock, if issued, will have priority over Common stock, as to earnings for cumulative dividends at $7 per share, and as to assets in case of dissolution for $100 per share plus accrued dividends.

Class "A" Stock Provisions—Class "A" Common is entitled to receive, subject to right of 7% Pfd. stock, if any shall be outstanding, cumulative dividends of $2 per share per annum, and after providing for cumulative dividends thereon at rate of $2 per share per annum for the current year, and for non-cumulative dividends on Class "B" Common at rate of $1 per share per annum for such year, any further dividends in such year shall be paid equally to outstanding Common stock without distinction as to class. In case of dissolution or liquidation Class "A" Common stock is preferred over Class "B" Common to the extent of $25 per share plus an amount equal to unpaid cumulative dividends at rate of $2 per share per annum, after which Class "B" Common well be entitled to receive $10 per share plus an amount equal to divi-

dends thereon at rate of $1 per share per annum for the current year, less such dividends not exceeding $1 as may have been paid thereon for such period. Thereafter remaining assets of the Corporation shall be distributed to the outstanding Common stock without distinction as to class. Voting power is vested in Class "B" Common except that holders of Class "A" Common shall have the right to elect three directors if the total number is seven, and a minority if the number is less. In the event of default in two years' cumulative dividends on Class "A" Common, and so long as non-payment shall continue, the right of holders of Class "B" Common to vote shall revert to holders of Class "A" Common, except that in the event of default in two years' cumulative dividends on any outstanding Pfd., and so long as non-payment shall continue, such right of holders of Class "B" Common to vote shall revert to holders of the outstanding Pfd. stock.

Transfer Agent and Registrar—First Minneapolis Trust Co., Minneapolis, Minn.

Legal Opinion—Lancaster, Simpson, Junell & Dorsey.

Original Offering—Class "A" Common stock first publicly offered (10,000) shares in December, 1926, at $22.50 per share and accrued dividend, by Lane, Piper & Jaffray, Inc.

Annual Meeting—Third Tuesday in January.

ITALIAN PUBLIC UTILITY CREDIT INSTITUTE

(Istituto di Credito per le Imprese di Pubblica Utilita)

History and Business—The Institute was created by a Royal Decree signed by the King of Italy on May 20, 1924, which decree was converted into law by the Italian Parliament on April 17, 1925. The Institute was created for the purpose of granting loans to private concerns of Italian nationality for carrying out works and making installations, or for making alterations necessary for utilizing concessions of recognized public utility. Loans are granted for the purpose of making power installations and carrying out other works which have been recognized to be of public utility by the State, Provinces, or Communes of not less than 100,000 inhabitants. The Institute operates under the supervision of the Minister of Finance of the Italian Government and under its charter has special powers, which constitute it in effect a quasi-state agency.

Borrowing Companies—The Institute has no constituent, subsidiary, owned or controlled companies. The parent companies of the groups to which loans were made by the Institute from the proceeds of its External 7% Secured bonds described below are:

Societa Idroelettrica Piemonte (SIP)
Societa Elettricita e Gas di Roma
Societa Elettrica del Valdarno
Societa Ligure Toscana di Elettricita
Societa Italiana di Elettrochimica
Societa Acciaierie e Ferriere Lombarde

Properties of Borrowing Companies—The plants of such companies and their subsidiaries covered by mortgages number 25, with an aggregate installed capacity of approximately 361,000 H. P., together with 2,200 miles of transmission lines in addition to the small distributing lines, and 76 principal substations. These plants produced, in 1925, at the rate of more than 920,000,000 k.w.h. The various companies distribute a large percentage of the electric energy furnished to a number of important centers in central, western and northwestern Italy, including the City of Rome, Turin, Milan, Florence, Siena, Leghorn and Pisa, the total number of cities and towns supplied exceeding 500. The districts served by these companies have a population of 16,000,000. The combined share capital of the borrowing companies outstanding in the hands of the public had a market value of $78,000,000 at the time the bonds were offered.

CAPITAL STOCK

Authorized, 100,000,000 lire Common all of which has been subscribed by the most important Government-controlled savings banks and similar state institutions and the two foremost insurance companies of Italy. 30% of the subscribed capital has been paid in and the balance thereof is subject to call at any time by the Board of Directors. The stock is issued in 100 quotas of 1,000,000 lire each.

FUNDED DEBT

$20,000,000 EXTERNAL 7% SECURED SINKING FUND GOLD BONDS; DUE JANUARY 1, 1952

Dated January 1, 1926.

Interest Payable January and July 1 in U. S. gold coin of the present standard of weight and fineness at The Chase National Bank of the City of New York or Blair & Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—The Chase National Bank of the City of New York.

Callability—Subject to call by operation of sinking fund, on interest dates at 100 and interest. Callable, other than for sinking fund, in whole at any time, or in part on any interest date on 60 days' notice at 105 and interest on or before Jan. 1, 1941, the premium decreasing thereafter ½% for each year or part thereof elapsed after Jan. 1, 1941 and prior to Jan. 1, 1951; thereafter at 100 and interest.

Sinking Fund—As a sinking fund for these bonds The Institute agrees to pay to the Fiscal Agents on May 1 and Nov. 1 in each year commencing Nov. 1, 1926, an amount in dollars equal to ¾ of 1% of the aggregate principal amount of all bonds then outstanding and all bonds then held for the sinking fund plus interest accrued on all bonds then held for the sinking fund to the interest payment date next succeeding such sinking fund payment date. The sinking fund payments are to be used by the Fiscal Agents to purchase bonds of this issue at not exceeding 100 and accrued interest. If bonds are not so obtainable, the sums remaining in the hands of the Fiscal Agents on May 15 and Nov. 15 next ensuing after any sinking fund payment date, shall be applied to the redemption by lot of bonds of this issue at 100 and accrued interest on the next succeeding interest date. Bonds may

be tendered in lieu of cash at prices not exceeding the average market price for the 15 day period immediately preceeding sinking fund payment date, but in no event greater than 100. Operation of the sinking fund is estimated to retire all of the bonds by maturity.

Security—These bonds are the direct obligations of The Institute specifically secured by closed first mortgage obligations aggregating $20,000,000 (U. S. gold) covering certain properties of six important Italian groups operating public utilities, the obligations of each group to be given to secure the repayment of the loan to be made by The Institute to such group, namely: Societa Idroelettrica, Piemonte (SIP) $11,-170,000; Societa Elettricita e Gas di Roma, $2,400,000; Societa Elettrica del Valdarno, $1,000,000; Societa Ligure Toscana di Elettricita, $2,500,000; Societa Italiana di Elettrochimica, $930,000; and Societa Acciaierie e Ferriere Lombarde, $2,000,000. The properties mortgaged as security for such underlying obligations with their transmission systems have been appraised by a commission of experts appointed by The Institute and concurred in by Stone & Webster, Inc., at 200% of the amount of the loan in each case, and in the aggregate at $40,000,000. The rate per installed horse power at which said properties and systems will be mortgaged will average $55.40 per horse power. The Institute in addition to the specific first mortgages above mentioned will have as security for the amount advanced to each company a special privileged credit and lien on the income from the mortgaged properties of such company, which is enforcible in the same manner as taxes are collectible by the State and ranks second only to the claim of the State for taxes. In addition, in case of default on the part of any of the borrowing companies, the Institute itself may collect for its own account the entire proceeds derived from the sale of all electric energy produced by such company.

Legal Opinion—Rushmore, Bisbee & Stern, New York and Sig. Roberto Pozzi, Milan, Italy.

Original Offering—First publicly offered ($20,000,-000) in February, 1926 at 93 and interest to yield over 7.60%, by Blair & Co., Inc., Bankers Trust Co., E. H. Rollins & Sons, Blyth, Witter & Co., Bonbright & Co., Inc., Cassatt & Co., Stone & Webster, Inc., New York, etc., and First National Corp., Boston. $5,000,-000 of this offering was sold in Europe.

Listed—New York Stock Exchange.

Price Range—

	1927	1926
High	101	93
Low	90⅝	87

NOTE—None of the borrowing companies have outstanding any bonds secured by mortgage lien other than the bonds of this issue, with the exception of an issue of Elettrochimica Co. bonds amounting to $1,134,936 and an issue of Societa Idroelettrica Piemonte bonds amounting to $22,440.

Internal Bonds—The Institute has also outstanding an issue of 150,000,000 lire Internal Secured Sinking Fund 6% bonds, due July 1, 1955.

Among the cities and towns served are Everett, Anacortes, Mount Vernon, Sedro Woolley, Snohomish, Arlington, Stanwood, Monroe, Marysville, Burlington and Duvall. Operates as a "connecting company" of the Pacific Telephone & Telegraph Co., and the Bell System. No. of exchanges, 16; telephones, 16,709 miles of wire, 30,059.

CAPITAL STOCK

Authorized, $1,200,000 (increased from $200,000 in 1927) Common and $1,800,000 Pfd.; outstanding, $500,000 Common, $213,100 7% cumulative Pfd., Series "A," and $336,600 6% cumulative Pfd., Series "B"; par $100.

Preferred Stock Provisions—Has preference as to assets as well as dividends. Is subject to redemption on three months' notice at 115. No additional Pfd. stock may be issued unless net earnings for preceding year are at least twice dividend requirements on Pfd. outstanding and to be issued. In the event of liquidation, voluntary or involuntary, Pfd. stock is entitled to par and accrued dividends.

Original Offering—First publicly offered ($200,000 6% cumulative Pfd., Series "B") in July, 1927, at 98 and dividend to yield over 6.12% by Blyth, Witter & Co., and Peirce, Fair & Co., Seattle, etc.

Annual Meeting—In January.

Dividends—Preferred dividends are payable quarterly, J, A, J & O 2. On Common, dividends have been paid as follows: 1922, 23½%; 1923, 35%; 1924, 62%; 1925, 159.06%; 1926, 150.61% ($45,000 cash and $136,800 stock); 1927, 325.33% ($56,210 cash and $171,200 stock).

FUNDED DEBT

$1,200,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE JULY 1, 1952

Dated July 1, 1927.

Interest Payable January and July 1 at The First National Bank of Everett, Everett, Wash

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The First National Bank of Everett, Everett, Wash.

Provisions of Issue—Authorized, $1,500,000 Series "A" 5s, due 1952; issued, $1,200,000. The balance of $300,000 authorized Series "A" bonds are to be retained in the treasury of the Company until their sale is authorized from time to time by resolutions of the Board of Trustees. Additional bonds may be issued under this Mortgage in series with such maturity dates, interest rates, redemption features and other special provisions not inconsistent with the mortgage, as may be determined by the Board of Trustees. Such additional bonds may be issued (a) to refund, retire or replace Series "A" or any other bonds issued under this mortgage; and (b) for not to exceed 70% of the actual cash cost of additions, extensions and betterments. No additional bonds shall be issued unless net earnings available for interest for a period of 12 consecutive months during 15 months immediately preceding shall have been not less than two times annual interest requirements, exclusive of sinking funds, of the total funded debt of the Company including the bonds proposed to be issued.

Purpose of Issue—Proceeds of this issue of $1,200,000 First Mortgage bonds and of $200,000 6% cumulative Pfd. stock, Series "B", were to be used to retire $50,000 First Mortgage 5% bonds and $1,076,400 First Mortgage 6% bonds due Feb. 1, 1936, to reimburse the Company for funds advanced in payment of $225,000 Farmers Mutual Independent Telephone Co. First Mortgage 6% bonds which matured April 1, 1927, and for other corporate purposes.

Callability—Subject to call as a whole but not in part upon 60 days' notice on July 1, 1937, or any interest date thereafter at 105 and interest

Sinking Fund—The Mortgage provides for a semi-annual sinking fund of $10,000 beginning Jan. 1, 1928, to be applied by the Trustee to the purchase of Series "A" bonds at prices up to and including 97½% of their face value. Payments to the sinking fund are not required during the time that moneys in such sinking fund amount to $20,000. Bonds acquired for the sinking fund are to be cancelled and are not to be reissued or replaced.

Security—Upon completion of financing, these bonds will constitute the only funded debt of Company and will be secured by a first mortgage upon all properties now owned or hereafter acquired. Valuation of the properties as fixed by the State Department of Public Works for rate making purposes on Dec. 31, 1921, was $1,950,000, and for sales purposes was $2,500,000. Additions and betterments from Dec. 31, 1921, to June 1, 1927, amounted to $673,042, giving a total rate base valuation of $2,623,042.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Peters & Powell, Seattle, Wash.

Original Offering—First publicly offered ($1,200,000) in July, 1927, at 96½ and interest, to yield over 5.25%, by Blyth, Witter & Co., and Peirce, Fair & Co., San Francisco, etc.

BONDS RETIRED

All of the First Mortgage 5% Bonds and First Mortgage 6% Bonds dated Feb. 1, 1916 and due Feb. 1, 1936, were called for redemption on Aug. 1, 1927, at 105 and interest at Dexter-Horton National Bank, Seattle, Wash.

As of August 1, 1927, the Company issued $300,000 of its Common stock and $130,000 6% Series "B" Pfd. stock in exchange for $430,000 of its Second Mortgage Gold 5s, due June 1, 1936. These bonds were delivered to the Trustee for cancellation and satisfaction of the mortgage.

INTERBOROUGH RAPID TRANSIT CO.

History—Incorporated May 6, 1902, under the General Railroad Law of N. Y. State, and in accordance with the provisions of the Law of 1902, Chapter 544, amending the Rapid Transit Act of 1891, Chapter 4; corporate life to be perpetual. Operates the tunnel rapid transit system built and owned by the City of New York, the first portion of which was opened for traffic on Oct. 27, 1904. The tunnel is leased for a period of 50 years from the date of the completion of the railroad, together with the right of renewal for a further period of 25 years from expiry of the original term. The lease provided that the lessee was to operate the system and to furnish all necessary equipment.

In July, 1902, acquired the entire capital stock (except directors' shares) of the Rapid Transit Subway Construction Co., which constructed the above subway and a tunnel under the East River to Brooklyn. The railroad in the Brooklyn tunnel is leased to the Interborough Co. for 35 years with the privilege and obligation on the part of the contractor of operating the railroad for a further period of 25 years. This latter clause of the contract was assigned in Aug., 1905, to the Interborough Co. On Jan. 9, 1908, the East River tunnel from Bowling Green, Manhattan, to Borough Hall, Brooklyn, was opened, and on May 1, 1908, the extension to the Long Island R.R. Depot at Flatbush and Atlantic Aves., Brooklyn, was put in operation.

The rentals payable under both of the leases to the City of New York are as follows: (1) An amount equal to the interest on bonds issued by the City to provide funds for the construction of the road, which is at present at the rate of 3.05% per annum, in respect to Contract No. 1, and 3.865% in respect to Contract No. 2. (2) A further amount, not exceeding 1% per annum, upon the amount of bonds so issued, with the exception of certain bonds issued to acquire rights of way, but payable: (a) For the first five years, only out of net income operations under the lease, after allowing a return of 5% per annum upon the capital of the operating company invested in the enterprise; (b) for the next five years, a fixed payment of ½ of 1%—the remaining ½ of 1% to be paid out of surplus income from operations under the lease, after allowing a return of 5% per annum upon the capital of the operating company, invested therein; (c) thereafter, a fixed payment at the full rate of 1% per annum. It is agreed that at the termination of the lease, the City shall purchase from the operating company, at a fair valuation, the entire equipment, including power houses, rolling stock and other appliances, tools, etc.

Interest in Other Companies—In March, 1906, and June, 1916, the Interborough Rapid Transit Co. acquired all of the 20,000 shares of stock of the Subway Realty Co., but sold the stock in February, 1924, to the Park Avenue Operating Co. Company now owns over 99% of the stock of N. Y. & Queens County Ry. (see appended statement) and half of the stock and bonds (the other half being owned by the Long Island RR.) of the New York & Long Island Traction Co., and the Long Island Electric Ry. Co.

Protective Committee for Bonds and Notes—In view of the traction situation in New York City, the following named consented to act as a committee to further the interests of the holders of First and Refunding 5% bonds and the Three-Year Secured Convertible 7% notes. Deposit of securities was not desired, but holders were urged to send to the Secretary of the Committee their names and addresses, in order that future communications from the Committee might promptly be received. Committee: J. P. Morgan, Chairman: Frederic W. Allen, George F. Baker, Jr., Allen B. Forbes, G. Hermann Kinnicutt, H. C. McEldowney, John J. Mitchell, Dwight W. Morrow, Edward D. Duffield, Haley Fiske, Darwin P. Kingsley and Charles E. Mitchell, with William Ewing, Secretary, 23 Wall St., New York; Stetson, Jennings & Russell, Counsel, and Bankers Trust Co., New York, Depositary.

Plan of Readjustment Dated May 1, 1922

The plan of readjustment for the Interborough Rapid Transit Co. and the Manhattan Ry. Co., outlined below, was declared operative as of Nov. 25, 1922, by the concurrent action of the three committees representing the different security holders.

Summary of the Main Features of the Plan

Modification of Manhattan Dividend Rental—The Manhattan rental is to be payable out of the earnings of the combined systems after the payment of fixed charges and is to be at the following rates:

For the fiscal year beginning July 1, 1922, 3%.
For the fiscal year beginning July 1, 1923, 4%.
For the fiscal year beginning July 1, 1924, 5%.
For each subsequent year thereafter, 5%.

Such dividend rental shall be payable quarterly, J, A, J & O 1, beginning Oct. 1, 1922. These preferential payments are to be cumulative and must be made to the Manhattan stockholders if the earnings exist.

In case 4% dividends should be paid in any year upon Interborough stock, any further distribution of dividends for that year is to be divided upon a prescribed basis between the Interborough stock and the Manhattan stock until the total dividends upon the Manhattan stock for that year have reached 7%. The aggregate dividend rental to the Manhattan Co. for any one year shall not exceed 7%.

Interborough Dividends Limited to 7%—No dividends shall be paid upon the capital stock of the Interborough Co. (a) before July 1, 1926, nor (b) out of income accruing prior to that date, nor (c) unless and until the foregoing Manhattan accumulated dividend rental and all taxes upon the Manhattan property and all dividend rentals accruing to and including July 1, 1922, shall have been paid in full. The dividends to be paid upon the stock of the Interborough Co. in any year prior to July 1, 1950, shall not exceed 7%. At no time shall the Interborough Co. make any distribution of corporate assets except by way of dividend on its stock. After July 1, 1950, no dividend shall be paid in excess of 7% per annum and no other distribution of corporate assets shall be made if the result of such dividends or distribution will be to reduce the aggregate net value of the assets of the Interborough Co. below $35,000,000, unless such dividend or distribution shall have received the consent of the Board of Directors of the Manhattan Co.

Maintenance and Improvement of Manhattan Property—Provision is made to insure the application of a proper amount to the maintenance and improvement of the Manhattan property, including the installation of turnstiles at stations and pneumatic control doors for cars.

Sinking Fund Waived—The interest payments on the Interborough 5% First Mortgage bonds and on the Secured Notes is to continue uninterrupted, but in order to increase the amounts available for the improvement of the Interborough properties and other capital purposes, the sinking fund in respect of the Interborough 5% Mortgage bonds is to be waived for a five-year period, so that no sinking fund instalments will be payable until July 1, 1926.

Extension of Interborough Notes—90% of the $38,144,000 Interborough secured notes, maturing Sept. 1, 1922, are to be extended for a period of ten years, the remaining 10% to be paid in cash within sixty days after the plan is declared operative. The notes shall carry interest at the rate of 7% per annum, payable semi-annually, to be represented by new coupons.

New Ten-Year 6% Notes—To provide for capital expenditures the Interborough Co. will create its 10-Year 6% Gold Notes to the authorized amount of $15,000,000, of which it is intended presently to issue $10,500,000. Until the payment of these notes the Interborough Co. will not sell or issue any First & Refunding Mortgage bonds, except upon the conversion of its Secured Convertible Gold Notes (or renewals or extensions thereof) or for the purpose of paying the principal of these 10-Year 6% Gold Notes.

Participation in Plan by Holders of Interborough Rapid Transit Co. Stock—Holders of Interborough Rapid Transit Co. stock (of which $1,087,500 is in the hands of the public) shall be entitled to participate in the plan by purchasing at their principal amount and accrued interest new Interborough Ten-Year 6% Gold Notes to the extent of 32% of the par value of their stock or at their option by surrendering 60% of their stock for delivery to the underwriting syndicate. Stockholders shall make their election in this regard at the time of their assent to the plan. The purchase price of the new notes shall be payable on thirty days' notice after the plan is declared operative.

Directorate Increased—Under the "Plan" the number of directors was increased from fifteen to eighteen and of this number nine shall be designated by a committee representing stockholders, three by the New York Transit Commission, three by a committee representing Interborough Rapid Transit Co. First Ref. Mortgage 5s and three by a committee representing Manhattan Ry. Co. stockholders.

Properties Operated—The Company operates the municipally owned underground railroad in New York City, popularly known as "the subway," comprising 249.39 miles of single track, and operates the Manhattan (Elevated) Railway, comprising the entire elevated railroad system in the Boroughs of Manhattan and the Bronx, 138.63 miles of single track, making a grand total of 388.02 miles of track.

The subways are owned by the City of New York, but all have been leased by the City to the Interborough Rapid Transit Co for a period extending until at least Jan. 1, 1966.

The real estate, power houses, sub-stations, rolling stock and other equipment employed in the operation of the existing subways are owned by the Interborough Rapid Transit Co., subject to the rights of the City under the leases.

The Interborough Rapid Transit Co. operates the property of the Manhattan Railway Company under a 999-year lease, from Nov. 1, 1875, at rental of interest on bonds and graduated dividends on stock and the new extensions to the elevated system under franchises granted by the City for periods of 85 years from the date of initial operation.

Out of the estimated cost of construction and equipment of new subways and elevated lines covered by said contract, the City will contribute over $66,000,000 for subways.

New Subways and Elevated Extensions

The contracts for the construction equipment and operation of the New Subways and Elevated Extensions were executed at the office of the New York Public Service Commission on March 19, 1913.

The new Subway Lines embraced in Contract No. 3, consist of additions to and extensions of the present subway System, covered by Contracts Nos. 1 and 2, and comprise 161.95 miles of single track, known respectively as the Astoria Line, Brooklyn Line, Corona Line, Clark St. Tunnel Line, Jerome Ave. Line, 149th Street Loops, Nostrand Ave. Branch, Lexington Ave. Line, Pelham Bay Park Line, Seventh Ave. Line, White Plains Rd. Line, and Queensboro Subway.

Contract No. 3 provides for the construction of the railroads above described together with the necessary terminals, storage yards and shops, by the City of New York and that the Company, the Lessee of said lines, shall contribute towards the cost thereof $58,000,000, unless the total cost shall be less than $116,000,000, in which case the Lessee's contribution shall be adminished by one-half the difference between $116,000,000 and the total sum of construction. The Lessee is to be deemed to have contributed the sum of $3,000,000 towards the cost of constructing the said railroads upon the assignment to the City by it of the railway known as the "Belmont Tunnel."

The Lessee shall provide at its own expense such equipment for the said railroads as shall be adequate to the requirements of the traveling public, not to exceed an estimated cost to the Company for initial operation of $22,000,000.

The City by the said Contract leases the said lines of railroad and their equipment to the Company for operation in conjunction with its existing railroads and equipment operated under Contracts Nos. 1 and 2 for a term of 49 years, beginning Jan. 1, 1919, and expiring Dec. 31, 1967.

The City reserves the right, upon notice at any time after the expiration of ten years from the date of initial operation to terminate the lease, upon all or certain specified groups of the new subways, upon payment to the Company of a sum of money which, with sinking fund accruals, will be sufficient to retire at 110 all outstanding bonds issued in respect thereto. These payments are to be received by the Trustee and applied to the redemption of the bonds. Provision is made for the equitable substitution of the downtown branch of the existing subway for the new downtown branch of the projected subway, or of the uptown branch of the existing subway for the new uptown branch of the projected subway (thus making a direct longitudinal line either upon the east side or upon the west side of the City); but in this event the branch taken over by the Interborough Company in exchange for the branch given up, is not to be subject to termination upon notice.

The leases from the City under which the Company now operates the existing subways are modified so as to expire contemporaneously with the lease of the new subways, but are not subject to termination by notice except as, in accordance with the provisions of the contract, portions thereof may be taken over in substitution for the Seventh Ave. branch or the Lexington Ave. branch of the new subways.

Rentals to be Paid the City—The lease provisions of Contract No. 3 provide that the gross receipts of the railways constructed under Contracts Nos. 1 and 2, hereinafter collectively termed the "Existing Railroads," and those constructed under Contract No. 3, hereinafter collectively termed the "Railroad," shall be combined during the terms of the latter Contract and that the City shall receive as rental a specified part thereof to be determined as follows:

From the said gross revenue the Lessee shall deduct (proportionately at the end of each quarter year), in the order named:

1. (a) The rentals required to be paid to the City under Contract No. 1 and Contract No. 2 for the Existing Railroads in the amount payable when the term of the lease begins.

(b) Such rentals, actually and necessarily payable by the Lessee for the use of other property in connection with the Railroad and the Existing Railroads, under contracts or leases approved by the Commission, as are not included in operating expenses in the accounting system prescribed by the Commission.

2. Taxes and such assessments for benefits as are not properly chargeable to cost of construction or cost of equipment.

3. All expenses, exclusive of maintenance actually and necessarily incurred by the Lessee in the operation of the leased Railroads.

4. An amount equal to 12% of the revenue for maintenance of said Railroads, exclusive of depreciation.

5. For the first year of operation under the lease an amount equal to 5% of the revenue for depreciation and for the subsequent years of the lease such allowances for depreciation and excess maintenance as may be determined by the Commission and the

Lessee. The said 5% for the first year of operation and such amounts as may be determined for future years as aforesaid shall be paid into certain depreciation funds for which the contract makes provision.

6. The sum of $6,335,000 to be retained by the Lessee for each year of the term of the lease as representing the average annual income from the operation of the Existing Railroads.

7. An amount equal to 6% of the Lessee's contribution towards the cost of construction of the Railroad and the cost of equipment of the Railroad for initial operation (such contribution and such cost of equipment, however), not to exceed $80,000,000, out of which the Lessee shall set aside amounts, sufficient, with interest and accretions thereon, to amortize within the terms of the lease such contributions and such cost.

8. An amount representing the annual interest upon the cost of any additional equipment, furnished by the Lessee, plus 1% for amortization.

9. An amount representing the annual interest upon the cost to the Lessee of construction of additions to the Railroad and Existing Railroads, plus 1% for amortization.

10. An amount to be paid to the City equal to 8.76% of the portion of the cost of construction of the Railroad, exclusive of additions, paid by the City.

11. An amount to be paid to the City representing the annual interest charge to the City upon its share of the cost of each additional unit of additions to the Railroad and Existing Railroads, together with an amount equal to 1% thereof for its amortization.

12. 1% of the revenue shall be paid quarterly into a separate fund until and to the extent that may be necessary to create and maintain a contingent reserve fund, equal to 1% of the cost of construction and the cost of equipment of the Railroad, or of the portion thereof remaining in operation.

13. The amount remaining after making all such deductions shall be deemed to be the income, earnings and profits of the leased Railroads, which income, earnings and profits shall be divided, 50% to be paid to the City, and the remaining 50% to be retained by the Lessee.

If in any quarter year the revenue shall be insufficient to meet the various obligations and deductions aforesaid in respect to said revenue, the deficits shall be cumulative and payments of such deficits shall be thereafter made in full before deducting the amounts required in the paragraph succeeding the paragraph providing for the payment of the obligations or deductions as to which there has been such deficit. Interest shall be payable upon such deficits at the actual rate payable by the Lessee or the City, or in the event that the Lessee or the City should not borrow money for the purpose of paying such deficits, then at the average rate of interest payable by the Lessee or the City on long term securities issued for the purpose of carrying out their obligations under this Contract. Interest upon such deficit shall semi-annually be added to and form a part of the cumulative deficits.

Manhattan Railway Certificate

The Manhattan Ry. Co. was, by the Certificate of the Public Service Commission dated March 19, 1913, authorized to construct, equip and operate certain additional tracks as a part of its elevated system on the Second, Third and Ninth Avenue Lines.

The licenses granted for the additional tracks above referred to shall be held by the Manhattan Ry. Co. for a period of 85 years from the date on which it shall first begin operation of any part of any of the railroads in question.

As compensation there shall be payable by the Manhattan Company to the City from the gross receipts from the transportation of passengers and property for each year or portion thereof, of each station served by express trains upon such line a sum equal to 2% of the excess of such gross receipts over the gross receipts of the same station from the transportation of passengers and property for the year ended June 30, 1911, or for a corresponding portion of such year; but no percentage of the gross receipts of intermediate local stations shall be required to be paid. The amounts to be so paid shall be readjusted at the end of 25 years, and thereafter at intervals of 20 years.

Interborough Certificate

The Interborough Rapid Transit Co. was, by the Certificate of the Public Service Commission dated March 19, 1913, authorized to construct, equip and operate certain extensions and connections of the Manhattan Railway System as follows: Webster Avenue Line, Eighth Avenue and 162nd Street Connection, Queensboro Bridge Line and West Farms Subway Connection.

The licenses granted for the extensions above referred to shall be held by the Interborough Company for a period of 85 years from the date on which the Interborough Company shall first begin operation of any sort on any of the railroads in question, unless sooner terminated as provided in said Certificate.

After the beginning of operation of any part of the extensions the net profits upon all elevated lines operated by the Interborough Company, including additional tracks to be added thereto under the Manhattan Certificate, in excess of the average annual net profits of the existing Manhattan Railway for the two years ended June 30, 1910 and 1911, shall be ascertained and one-half of the amount remaining of the said excess of net profits, after deducting therefrom the rental for additional tracks, shall be deemed to be the compensation payable to the City by the Interborough Company. The amount of excess net profits shall be ascertained by first deducting taxes, rentals not chargeable to operating expenses, including rentals payable to the Manhattan Ry. Co. for the use of property in connection with the Company Lines under contracts or leases, operating expenses, maintenance, depreciation, interest and sinking fund on bonds for extensions, additional tracks, power houses, equipment or additions to the Company Lines, and an amount to be retained by the Interborough Company equal to $1,589,348 as representing the average net profits of the existing Manhattan Railway for the two years ended June 30, 1910 and 1911, provided, however, that if the Federal corporation tax be held to be payable in respect of dividends on the stock of the Manhattan Ry. Co. the aforesaid amount shall be reduced to the sum of $1,547,351.

The completed system consists of a line from 242nd Street and Broadway (Van Cortlandt Park) via Broadway to a connection with the Seventh Avenue Subway at 45th Street, Times Square, there being two and three tracks above 96th Street and four tracks below 96th Street; also a line from 241st Street and White Plains Road, consisting of a three-track viaduct structure via White Plains Road to 179th Street and Boston Road, West Farms, where it joins the West Farms Branch of the present Subway which connects with the Broadway Subway at 96th Street and thence to Times Square where it connects with the Seventh Avenue Subway.

The new Seventh Avenue Subway is a four-track road extending under Seventh Avenue, Varick Street and West Broadway to Chambers Street; beyond this point it is a two-track road under Greenwich Street and Battery Park to South Ferry, where it connects with South Ferry Loop of old subway. Also a two-track subway from Chambers Street and West Broadway under Park Place, Mail, Beekman and William Streets, Old Slip and through Clark Street Tunnel and under Clark and Fulton Streets, Brooklyn, to a connection with old subway (which is a four-track line), just east of Borough Hall; thence to Atlantic Avenue, where a junction is made with Eastern Park-

way Line, which is a four-track double deck subway, under Flatbush Avenue and Eastern Parkway to Buffalo Avenue, where it curves into East 98th Street and will continue as an elevated two-track structure (with provision for an additional track), along East 98th Street and Livonia Avenue to terminus at New Lots Avenue and East New York. At Nostrand Avenue a two-track subway extends from Eastern Parkway Line southerly under Nostrand Avenue to terminus at Flatbush Avenue (Vanderveer Park).

The Jerome Avenue line runs from Woodlawn Road and Jerome Avenue as a three-track viaduct structure, on Jerome and River Avenues to 157th Street, continuing as a three-track subway under Mott Avenue to a point south of East 138th Street, where it becomes a two-track subway joining the Lexington Avenue Subway at 135th Street and Park Avenue.

The Pelham line starts at Pelham Bay Park and Westchester Avenue as a three-track viaduct structure, runs along Westchester and Whitlock Avenues to portal at Aldus Street, there becoming a three-track subway, running under Southern Boulevard and 138th Street to Rider Avenue and 138th Street, where it becomes a two-track structure and joins the Lexington Avenue Subway at 135th Street and Park Avenue. The four-track subway formed by the junction of the Pelham and Jerome Avenue lines continues south through the Harlem River tunnel and on a double deck structure under Lexington Avenue to junction with old subway at 38th Street and Park Avenue over which line it connects with South Ferry and the old Brooklyn Subway via Bowling Green.

A shuttle under 42nd Street connects the East and West Side subway lines.

The Queensboro lines consist of a three-track viaduct structure from Corona along Roosevelt Avenue and Queens Boulevard to a point west of Skillman Avenue, and two tracks to Queensboro Plaza where it is joined by Astoria Line, which is a three-track viaduct structure from Ditmars Avenue on Second and Jackson Avenues to a point south of South Washington Place, and two-track to Queensboro Plaza, from which point a two-track connection is made with Second Avenue elevated line by means of Queensboro Bridge. From this point also a two-track viaduct structure extends on Ely Avenue and Davis Street to portal at Hunters Point Avenue, continues as a two-track subway from Hunters Point Avenue, under 4th Street and East River and under 42nd Street, Manhattan, to Grand Central Station.

Construction, year ended June 30, 1927—Repairs and improvements to the Railroad were continued during the year, including the reinforcement of ends of longitudinal girders of the 3rd Avenue Line between Bent No. 473, near 36th Street, and Bent No. 286, at 6th Street.

The easterly pile cluster adjacent to the north rest pier of the 129th Street Drawbridge was redriven and the timber fender of the pivot pier of the 158th Street Drawbridge renewed. A new balance wheel track was installed on the pivot pier of the 129th Street Drawbridge.

Rebuilding of eleven column foundations of the 2nd Avenue Line, between 77th and 81st Streets, in order to remove the present bases which project above the street surface, is in progress.

Of the seventeen column foundations of the Sixth Avenue Line structure on the east side of West Broadway, between Spring and West 3rd Streets, to be rebuilt, nine have been completed.

The repairing of stringer I-beams which support ties of the Sixth Avenue Line pin connected structure has been completed.

Changes and additions at 149th Street and 3rd Avenue Elevated Station have been completed and placed in service. Work involved construction of new mezzanine at Bent No. 162 connecting with platforms by means of the two stairs south of Bent No. 162 and two new stairs north of Bent No. 162. From the mezzanine a stairway leads to street level where it connects with stairs and tunnels built by the City, leading to the Subway.

The work of installing interlocking plants north of 149th Street Station and at 164th Street, 3rd Avenue Line, is practically completed.

An additional stairway leading from platform to north east corner of 86th Street and Broadway, Broadway-7th Avenue Line, was completed and placed in service as was also the new stairway at the south west corner of 167th Street and River Avenue, 167th Street Station, Jerome Avenue Elevated Line.

The Queensboro Subway Extension to 8th Avenue was sufficiently completed to permit of extending operation to the Times Square Station on March 14, 1927.

The construction of the Flushing Extension from Alburtis Avenue to Main Street, Flushing, with the exception of the Bridge over Flushing Creek, and a portion of the structure under reconstruction, due to settlement, has been completed. The electrical equipment, signal apparatus work, etc., is in progress. On May 7, 1927, shuttle train operation was extended from 111th Street Station to Willets Point Boulevard Station, west bound track.

At Corona Yard the inspection shed enclosure is 89% completed. Equipment work has not been started. At 148th Street-Lenox Avenue Yard the dock construction has been completed. The construction work under the Fourth Addition to Shops, including erection of Service Building No. 3, Oil House, Garage, Storehouse, etc., is in progress. Equipment work in connection therewith has been started.

At Pelham Yard the construction work has been completed and the equipment work is practically completed.

Steel rails were renewed on 6.10 miles of single track and 38,415 ties were replaced on the Manhattan Division, and on the Subway Division steel rails were renewed on 23.75 miles of single track and 12,975 ties were replaced.

In the 74th Street Power Station, there has been installed one 4,250 kilovolt-ampere transmission transformer, one 300 K. W. turbine driven exciter generator, one boiler feed pump. There has been installed in the 59th Street Power Station, one boiler feed pump. All of the above installations of power station equipment were made necessary by the increased demand for power due to additional service.

To Install Control Devices—On May 13, 1927 the New York Transit Commission adopted an order directing a hearing with respect to the safety and adequacy of the signal system and signal methods now used on the local tracks of the subway and elevated lines operated by Company. As a result of conferences, the Transit Commission adopted an order requiring the installation of signals at a total estimated cost of $12,535,000 through a period of ten years based upon a schedule of expenditures which it is estimated the Company can meet from earnings, the principal part of the work being scheduled to be performed during the years 1934, 1935 and 1936.

Dividend Litigation—Decision—Several suits were brought against Interborough Rapid Transit Co. in the State Courts of New York, in which holders of Manhattan Ry. Co. stock who did not assent to the Plan of Readjustment claimed their right to the full 7% guaranteed dividend. In February, 1924, Supreme Court at New York and July 16, 1925, Appellate Division of Supreme Court, at Albany, decided that Interborough Rapid Transit Co. must pay 7% rental to holders who dissented to modification plan.

Advertising Contract—The N. Y. Transit Commission on July 14, 1925 approved a contract executed by Company and the Street Railways Advertising Co. of New Jersey, of which Barron Collier is President. The contract gives to the Street Railways Advertising Co. the privilege of controlling the advertising and merchandise vending privileges on the subway and elevated lines of Company for the period of 18 years from Nov. 1, 1925.

Wage Agreement—On April 1, 1927, an arrangement was made putting into effect an increase of 5% in the rates of pay prevailing March 31, 1927. Subsequently, the Constitution of the Brotherhood of Interborough Rapid Transit Company Employees was modified by the men so as to give the General Committee of the Brotherhood authority to negotiate contracts for employment with the Company for definite periods of service, not exceeding five years. Acting under this authority, on June 30, 1927, a contract was entered into between the Company and the Brotherhood providing for a two-year period of service for each employee and providing that the rates of pay as increased April 1, 1927, and present working conditions (unless modified by mutual consent) are to remain in force for a period of two years, until April 30, 1929, and from year to year thereafter unless terminated by 30 days' notice in writing by either party.

Fare Increase Application—It was announced Feb. 2, 1928 that Company had applied to New York Transit Commission for permission to increase its fare of 5 cents to 7 cents, upon five days' notice. On February 14, 1928 Company filed a bill in equity in the U. S. District Court praying for an injunction to issue, restraining city and state authorities from interfering with the collection of a 7-cent fare on its lines. On February 14, 1928, the Transit Commission announced it had denied Company's plea for an increased fare. The matter was still in litigation at date of going to press.

Callability—Subject to call on any interest date as a whole or in amounts of not less than $500,000, or in any amounts for the sinking fund, at 110 and interest.

Sinking Fund—The mortgage provides that on the first day of July, 1918, and on the first day of January and the first day of July in each calendar year, thereafter, the company shall pay and deliver to the Trustee a sum equal to one-half of 1% of the face amount of all bonds issued and outstanding thereunder, including bonds held in the sinking fund (which sum may be paid in cash or bonds except that with regard to bonds issued for "Additions" as defined in Contract No. 3 with the City of New York said payments shall be in cash), for purchase of bonds for sinking fund at not exceeding 110% of the face value of the principal. If not so purchasable, bonds may be called by lot at that price. The bonds acquired by the Trustee for sinking fund shall be deemed to remain alive for purposes of the sinking fund and stamped "non-negotiable." If the new roads are open for operation prior to year 1918, sinking fund payments shall begin at the interest date next succeeding such initial operation. At its option the company at any time may pay additional sums into the sinking fund. Bonds are also subject to call as a whole, or in amounts of not less than $500,000, at 110 and interest on any interest date upon four weeks' notice.

Under the Plan of Readjustment dated May 1, 1922 and declared operative Nov. 25, 1922, the sinking fund is postponed for a period of five years beginning Jan. 1, 1921 (including the unpaid instalments due July 1, 1921, Jan. 1, 1922 and Jan. and July 1, 1923), so that no sinking fund instalments will be payable until July 1, 1926. However, these sinking fund payments are to be made up by increasing the annual payments on and after the latter date.

Security—1. The First and Refunding Mortgage covers all the right, title and interest of the Interborough Company in and to the real estate and the buildings thereon erected, situate in the City of New York, constituting the main power house and electric sub-stations, and also all machinery and appliances for the generation and transmission of electric power therein contained, constituting a part of the equipment of the rapid transit railroads operated by the Company under the Rapid Transit Contracts No. 1 and No. 2, hereinafter referred to, and together with all other equipment, including all rolling stock and motors purchased or acquired pursuant to the said Contracts, and all machinery, wires, conduits, subways, implements and devices, including power houses or real estate used by the Company for the generation or transmission of motive power and all apparatus and devices for signalling and ventilations which may be provided by the Company at its own expense, pursuant to the provisions of the said contracts having an aggregate value at the present time of approximately $40,000,000. Also all equipment used or intended for use on the said railroads acquired pursuant to the provisions of said contracts or with the proceeds of bonds issued under the mortgage; and subject to the lien reserved in said contracts by the City of New York for the faithful performance thereof.

2. Certain parcels of real estate, buildings and improvements thereon, including terminal properties situate in the City of New York not constituting part of the equipment of the Company under or in connection with the said Contracts No. 1 and No. 2, or either of them but subject to all rights of the City of New York under contract No. 1 or Contract No. 2.

3. The lease part of the aforesaid Contract No. 1, dated Feb. 21, 1900, between John B. McDonald and the City of New York, duly assigned to the Interborough Company under date of July 10, 1902, and the leasehold interest of the Interborough Company therein, and all the right, title, interest, claim and demand whatsoever of the Interborough Company, of, in and to the said lease part of said contract and the premises and property covered thereby; subject, however, to any and all rights of the City of New York, created by or arising out of the provisions of the Contract No. 3, dated March 19, 1913, between the City of New York and the Interborough Company.

4. The lease part of the aforesaid Contract No. 2, dated July 21, 1902, between Rapid Transit Subway Construction Co. and the City of New York, assigned to the said Interborough Company, Aug. 10, 1905, and the leasehold interest of the Interborough Company therein, and all the right, title, interest, claim and demand whatsoever of the Interborough Company of, in and to the said lease part of said contract and the premises and property covered thereby; subject, however, to any and all rights of the City of New York created by or arising out of the provisions of the aforesaid Contract No. 3, dated March 19, 1913, hereinafter referred to, between the City of New York and the Interborough Company.

5. The said Contract No. 3, dated March 19, 1913, between the City of New York and the Interborough Company, including:

(a) The leasehold interest of the Company thereunder and all the right, title and interest, claim and demand whatsoever of the Company, of, in and to said contract and the terms and property subject, or to become subject thereto:

(b) Any and all sums of money, indemnity bonds or other security and other property of every kind, payable, or paid to, or receivable, or received by the Company, or its successors in the event of the termination by the City of New York of said contract as to all or any part of the lines covered thereby under any of the provisions thereof; and

(c) Any and all sums of money, indemnity bonds or other security and other property of every kind payable or paid to, or receivable or received by, the Company, or its successors, in the event that the City of New York, or its licensees shall enter into possession of, or operate the railroads or any thereof, subject to the provisions of said contract.

6. The lease executed to the Company by the Manhattan Company, dated Jan. 1, 1903, hereinafter referred to, subject to an agreement entered into between the Interborough Company and the Manhattan Railway Co., dated March 15, 1913, including:

(a) Any and all right, title and interest of the Company in or to railroad property and appurtenances constructed or acquired, or provided by the Company for, or in connection with the railroads constructed pursuant to provisions of the Certificate, dated March 19, 1913, granted by the Public Service Commission for the First District in respect to the construction, equipment and operation of the railroads designated in said Certificate, Second Avenue additional tracks, Third Avenue additional tracks and Ninth Avenue additional tracks; in the Boroughs of Manhattan and Bronx in the City of New York;

(b) Any and all equipment and other property constructed or acquired by the Company for use upon or in connection with said railroads or any thereof; and

(c) Any and all sums of money, indemnity bonds, or other security and other property of every kind payable or paid to, or receivable or received by the Company, or its successors, in the event of the termination by the City of New York of the authorizations or licenses granted by said Certificate, but excepting any and all equipment and other property which is, or may be paid for, or reimbursed by the Manhattan Railway Company pursuant to the provisions of Article Second of the said agreement between the Company and the Manhattan Railway Co., dated March 15, 1913, and excepting (unless such equipment or other property to be hereafter acquired by bonds issued hereunder or the proceeds thereof) also the payments or other form of reimbursement received by the Interborough Company thereunder.

7. The franchises, authorizations, licenses and rights conferred upon or vested in the Company under and pursuant to the provisions of the Certificate dated March 19, 1913, granted by the Public Service Commission for the First District, in respect of the construction, equipment and operation of the lines of railroad designated in said Certificate. The Webster Ave. Line, Eighth Ave. and 162d St. Connection, Queensboro Bridge Line, and West Farms Subway Connection, in the Boroughs of Manhattan, Bronx and Queens, in the City of New York, including:

(a) The railroad, property, appurtenances and equipment constructed or provided by the Company pursuant to the provisions of said Certificate; and

(b) Any and all sums of money, indemnity bonds, or other securities and other property of every kind payable or paid to, or receivable or received by the Company, or its successors, in the event of the termination by the City of New York of the authorizations and licenses granted by the said Certificate.

8. Any and all proceeds of bonds secured by the First and Refunding Mortgage, whether held by the Company or deposited for its account in any depositary, subject, however, to the right of the Company

to withdraw and to disburse such proceeds for the purposes for which the same shall be applicable under the provisions of said mortgage, and to deposit such part thereof as may be required under the terms of the aforesaid Contract No. 3 with the City of New York as security for the performance by the Company of said contract.

9. All other property, real or personal, acquired at any time subsequent to the date of said mortgages by the Company with bonds issued thereunder, or the proceeds thereof, other than such of said bonds as shall be certified and delivered to the Company in reimbursement for its expenditures theretofore made for the acquisition for property that shall have been subjected to the lien of the said mortgage, or upon property that shall be subject thereto, subject, however, to any and all rights or liens upon any such property created by or vested in the City of New York under the provisions of the said Contract No. 3 or the said Interborough Certificate, or the said Manhattan Certificate.

10. Any and all additional shares of stock which hereafter shall be acquired by the Company with the proceeds of bonds issued under the said Mortgage in any corporation of which a majority of the stock shall be subject thereto.

11. All bonds, obligations and evidences of indebtedness of and claims and demands and rights of action against any corporation or association, the greater part of whose capital stock shall at any time be subject to the said mortgage, which the Company owned, or was entitled to at the date of said mortgage, and all mortgages, liens and charges upon or against any part of the property of any such corporation then owned or possessed, or which with the proceeds of bonds issued under said mortgage, shall thereafter be acquired by the Company.

12. All property of every name and nature, from time to time hereafter, by delivery or by writing of any kind, for the purposes hereof, pledged assigned or transferred by the Company, or with its written consent by any one in its behalf, to the Trustee, together with any and all rents, issues, profits, tolls and other income of the lines of railway or other properties, including leasehold estates hereinbefore described, and any and all right, title and interest which may be hereafter acquired by the Company in, or to any of said lines of railway or other properties, including leasehold estates.

Briefly, these bonds are secured by a first lien (subject to the City's rights under the leases) upon real estate, power houses, sub-stations, equipment and other property now owned directly by the Interborough Rapid Transit Co., and also by first lien upon all the leasehold and other rights of the Interborough Rapid Transit Co. in the existing and proposed subway and elevated lines.

*Several of the items included in "Securities of Associated Companies" and in "Due from Associated Companies" are in course of liquidation, including the first item under "Items Awaiting Distribution", which may realize but a comparatively small sum. When their value shall be definitely ascertained and items of a similar character shall have been re-valued in accordance with the existing conditions, the balance sheet will be re-cast and there will be entered upon the books the full asset value of Contract No. 3, the Subway Lease including the appraised present worth of the Subway preferentials when earned. This value has not been set forth heretofore in full and is now awaiting final appraisal. It is believed that the additional value of the Lease, when finally determined, will be in excess of the shrinkage in the other assets.

†The total liability for the Sinking Fund on First and Refunding Mortgage 5% bonds included in "Current Liabilities" is made up of $2,356,030 which is a present current obligation, and $10,550,491 which need only be met pro rata semi-annually to July 1, 1956, as provided by the "Plan of Readjustment." $13,938,000 face amount of these bonds have been acquired for the sinking fund and are in the possession of the Trustee of the mortgage.

‡This accrual makes no allowance for Federal taxes on income from date of operation under contracts with the City of New York to Jan. 1, 1924. Complete exemption is claimed because of the profit sharing contracts with the City.

**Under the "Plan of Roadjustment" of May 1, 1922, payments of the sinking fund instalments due from July 1, 1921, were postponed to July 1, 1926, at which date they were to be resumed in an amount sufficient to retire the bonds at the date originally contemplated by the sinking fund provisions of the mortgage.

MANHATTAN RAILWAY COMPANY

(Leased by Interborough Rapid Transit Co.)

History and Property—Incorporated Nov. 1, 1875, in N. Y., under charter running for 999 years; consolidation of New York Elevated R.R., Metropolitan Elevated Ry., and Suburban Rapid Transit Cos. Owns all the completed elevated railroad lines in Manhattan and Bronx Boroughs, New York City. Leased on Jan. 1, 1903 (the lease taking effect as of April 1, 1903), to the Interborough Rapid Transit Co., for 999 years (from Nov. 1, 1875—the date of incorporation of the Manhattan Ry. Co.), at annual rental of 7% dividends on the stock and interest on the bonds. The line was operated by steam power up to Oct., 1902, at which time the third rail electric system was placed in operation. For proposed extensions, etc., see under Interborough Rapid Transit Co.

Franchises, Etc.—The Company's franchises, except as to the third tracks built under the certificate from the Public Service Commission, dated March 19, 1913, are perpetual. The lease and subsequent agreements provide that upon a possible default by the Interborough Rapid Transit Co. and consequent forfeiture of the lease, the Manhattan Ry. Co. shall, within eighteen months, pay the Interborough Rapid Transit Co. for capital expenditures upon the road and equipment not provided for by the Consolidated or Second Mortgage of the Manhattan Elevated Ry. Co., and that in the event of a recapture of the third tracks and additional structures provided for under the Public Service Commission's certificate of March 19, 1913, the Manhattan Elevated Ry. Co. will repay to the Interborough Rapid Transit Co. for its expenditures in construction from the moneys received from the City to the extent that the Interborough Rapid Transit Co. has made such expenditures. Claim for reimbursement for such expenditures was waived by the Interborough Rapid Transit Co. under the Plan of Readjustment dated May 1, 1922.

Mileage, June 30, 1926—Length of line, 41.39 miles; second track, 9.29 miles; third to fifth tracks, 32.10 miles; sidings and turnouts, 20.59 miles; total track, 138.63 miles. Gauge, standard.

Equipment, June 30, 1926—Passenger cars (motor, closed, 1,004; trailer, closed, 707; trailer, open, 3), 1,714; service cars, 65—total cars, 1,779. Elevated extensions, passenger closed motor cars, 476.

Plan of Readjustment dated May 1, 1922—For details see statement of Interborough Rapid Transit Co. on a preceding page.

Dividends—Dividends of 7% per annum were formerly paid under the lease, quarterly, Jan., etc., but under the Plan of Readjustment dated May 1, 1922, the rental has been modified (for details see statement of Interborough Rapid Transit Co.) as to the stockholders who deposited under the Plan. The Jan. 1, April 1 and July 1, 1922 dividends, amounting to $3,050,000 due under the lease were defaulted, but the July 1 and Oct. 1, 1922 payments of 1¾% each were made. On Jan. 2, 1923, a distribution of $5.25 per share was made in scrip warrants of Interborough Rapid Transit Co., payable on Nov. 1, 1923, representing the arrears of dividends at 7% per annum up to and including dividend due July 1, 1922; in addition, $1.50 per share was paid in cash, being the dividend of ¾ of 1% due Oct. 1, 1922, and the dividend for the same amount due Jan. 1, 1923, in accordance with the Plan of Readjustment; April 2, 1923, 75 cts.; July 2, 1923, 60 cts.; Oct. 1, 1923, $1; Jan. 1, 1924, dividend deferred; April 1, 1924, $1; July 1, 1924, $1 and 15 cents balance due on account of July, 1923, dividend; Oct. 1, 1924, $1, being payment deferred in Jan. 1, 1924; Nov. 1, 1924, $1.25; Jan. 1, 1925, dividend deferred; April 1, 1925, $1.25; July 1, 1925, $2.50, including $1.25 on account of Jan. 1, 1925, dividend deferred; Oct. 1, 1925, 75 cents; Jan. 2, 1926, 27 cents on the modified guaranteed stock (leaving $1.48 a share accrued unpaid dividends on that stock); April 1, 1926, $1.25; July 1, 1926, $2.73 (including 50 cents account Oct. 1, 1925 and 98 cents account Jan. 1, 1926, dividends); Oct. 1, 1926, $1.25; **Jan. 1, 1927, deferred; April 1, 1927, $1.25; July 1, 1927,** $1.25; Sept. 1, 1927, $1.25 (in payment of dividend due Jan. 1, 1927); Oct. 1, 1927, $1.25; Jan. 1 and April 1, 1928, deferred.

Dividends under the Modifications of the Plan were to be cumulative and payable out of earnings of the Manhattan Leased Lines or the Interborough Manhattan System, whichever amount was the larger and were to be 3% for the year ended June 30, 1923; 4% for the year ended June 30, 1924, and 5% for each fiscal year thereafter. Dividends guaranteed under lease by the Interborough Rapid Transit Co.

Between Jan. 1, 1922 and Oct. 1, 1925, dividends were actually paid only to those stockholders who had deposited their stock under the Plan or who had entered into separate agreements with the Interborough Rapid Transit Co., but on Oct. 1, 1925, $28 was paid on account of dividends accrued upon non-assenting stock from Jan. 1, 1922 to Oct. 1, 1925; Jan. 2, 1926, $1.75 per share on non-assenting stock, and $1.75 each quarter to and including April 1, 1928; payments, J, A, J & O 1.

Dividend Litigation—Decision—Several suits were brought against Interborough Rapid Transit Co. in the State Courts of New York, in which stockholders who did not assent to the Plan of Readjustment claimed their right to the full 7% guaranteed dividend. In February, 1924, Supreme Court at New York and July 16, 1925, Appellate Division of Supreme Court at Albany, decided that Interborough Rapid Transit Co. must pay 7% rental to holders who dissented to modification plan.

NEW YORK & QUEENS COUNTY RAILWAY COMPANY

(Controlled by Interborough Rapid Transit Co.)

Incorporated June 29, 1896, in N. Y. and reorganized on June 30, 1899. Absorbed the Newtown Ry. Co., the Riker Ave. & Sanford Point Ry., the Steinway Ry. Co., the Long Island City & Newtown Ry. Co. and the Flushing & College Point Electric Ry. Co. In June, 1902, absorbed the Queens Ry. Co., which was a reorganization of the New York & North Shore Ry., sold under foreclosure. Owns and operates street railway lines in Long Island City and vicinity. Length of line, 18.673 miles; total track, 35.068 miles. Gauge, standard. Rail, 70 to 116 lb. T and girder. Cars, 81. Sub-stations, 2.

On Dec. 16, 1909, this company was granted a permanent franchise to run cars over the Queensboro Bridge across Blackwells Island and operations were begun on Feb. 5, 1910. Through passengers only are carried across the bridge; no extra fare being charged.

Receiverships—Justice Callaghan in the Queens County (N. Y.) Supreme Court April 27, 1922, on the application of the Guaranty Trust Co. of New York, trustee under the First Mortgage of the Steinway Railway, named S. W. Huff and Robt. C. Lee, receivers of that property. The order signed by Justice Callaghan provided that the receivers take over the property which originally belonged to the Steinway Company, the Dutch Kills Line from the Queensboro Bridge Plaza to the 92nd Street Ferry in Astoria, the Steinway Line from the Bridge Plaza to Riker Avenue at North Beach, the Broadway Line from the 92nd Street Ferry to Woodside, the Flushing Avenue Line from the 92nd Street Ferry to North Beach, the Ravenswood Line and the Jackson Avenue Line from the 34th Street Ferry to Woodside. Application for a receivership was based on the fact that the company had defaulted on Jan. 1, 1922, in the payment of interest on the Steinway Railway mortgage bonds. The default of the interest on Jan. 1, 1922, on the bonds was corrected, the members of the protective committee, of which Harold B. Thorne, Chairman, having subscribed the $45,000 necessary to meet the interest due on that date. The receivers took over the Steinway property on May 10, 1922.

Following the announcement of Grayson M-P. Murphy that the Interborough Rapid Transit Co. would no longer advance funds to meet deficits, L. C. Andrews on Jan. 18, 1923, was appointed receiver for the New York & Queens County Co. by Justice J. C. Van Siclen in the Supreme Court at Long Island City, N. Y. on the petition of the Bankers Trust Co., Trustee for outstanding bonds. The receivership does not

cover the so-called Steinway lines, formerly part of the system but now operated by receivers.

Steinway Ry. Bondholders' Committees Consolidate—The two bondholders' committees constituted respectively under deposit agreements dated Jan. 3, 1922 and Dec. 28, 1921 of which George W. Davison and Harold B. Thorne were Chairmen, respectively, in Jan., 1922, announced that they had agreed to consolidate. The committee resulting from the consolidation consists of George W. Davison, Roswell Eldridge, Walter E. Frew, Harold B. Thorne and Wm. Carnegie Ewen, with Larkin, Rathbone & Perry and Dewey Loucks as Counsel. The depositary for the consolidated commitee is Central Union Trust Co. of New York. Holders of bonds were urged to support the consolidating committee by depositing their bonds with the depositary.

Committee for First Consolidated Mortgage Bonds—Default having been made in the payment of semi-annual interest due April 1, 1922, on the First Consolidated Mortgage 4% bonds, and defaults having also been made in the payment of the semi-annual interest payments on three underlying issues, protective committee was formed under Deposit Agreement dated April 6, 1922, in order that First Consolidated Mortgage bondholders could take concerted action for the protection of their securities. Committee: Frederick Osborn, Chairman; C. Stevenson Newhall, and James H. Perkins, with C. D. Bailey, Sec., New York, and Cravath Henderson, Leffingwell & De Gersdorff, New York, as Counsel. Bondholders were asked to deposit their bonds with April 1, 1922, and subsequent coupons attached, at the Farmers' Loan & Trust Co., New York, Depositary, or the Pennsylvania Co. for Insurances on Lives & Granting Annuities, Philadelphia, Sub-Depositary. Present Committee: M. N. Buckner, Chairman; C. Stevenson Newhall and W. C. Potter, with H. M. Fisher, Sec., New York, and Cravath, Henderson & De Gersdorff, New York, as Counsel.

CAPITAL STOCK

Authorized, $5,000,000; outstanding, $3,235,000; par, $100. The Interborough Rapid Transit Co. owns $3,194,800 of the stock. Annual meeting, third Wednesday in July.

FUNDED DEBT

$1,300,000 New York & Queens County Ry. First Consolidated Gold 4s; dated June 29, 1896; due Oct. 1, 1946; int. April and Oct. 1, at Corn Exchange Bank, Queens County Branch, Long Island City. Coupon, $1,000. Bankers Trust Co., New York, Trustee. Authorized issue, $3,000,000. There were originally issued $2,500,000 5% bonds, but at time of reorganization in 1899, $1,200,000 were cancelled and interest reduced to 4%. Subject to call at 105 and interest. Company does not pay Normal Federal Income Tax.

Default—Interest due April 1, 1922, was defaulted.

$1,500,000 (entire issue) Steinway Ry. First Gold 6s; dated July 1, 1892; due July 1, 1922; int. Jan. and July 1, at Guaranty Trust Co., New York, Trustee. Coupon, $1,000; principal may be registered. A first lien on the property formerly of the Steinway Ry., 18.25 miles. Company does not pay Normal Federal Income Tax.

Default—Company defaulted the payment of interest due on Jan. 1, 1922, but the default was subsequently corrected by the Protective Committee. The principal is now in default.

$2,086,827 New York & Queens County Ry. First & Refunding Gold 4s. Company has not sold any of the $10,000,000 First Refunding Mortgage bonds authorized by the State Board of RR. Commissioners, but bonds in the amount of $2,186,827.28 have been certified and delivered to the Trustee, of which $2,086,327.28 are pledged as collateral security for loans made, the proceeds of which have been expended for additional construction and equipment. The remaining $100,000 of said bonds are in the Treasury of the Company for the purpose as set out in Article 1 of the First Refunding Mortgage dated Nov. 1, 1906.

NOTE—Newton Railway Company's 5s, due Dec. 1, 1924, par value $150,000, and Flushing and College Point Railway Company's 5s, due June 1, 1925, par value $50,000, with interest coupons attached were acquired during 1926 by the Receiver and subsequently cancelled by the New York Trust Company, Trustee.

MINNEAPOLIS GAS LIGHT COMPANY

History—Incorporated in Minn., in 1870. The Co's franchise was granted Feb. 21, 1870, and approved Feb. 24, 1870, for a period of 40 years. The ordinance granting the franchise provided that if at the expiration of 40 years the city desired to purchase the said franchise and gas works, it should have the privilege of doing so, and that three arbitrators should be chosen, one by the city, one by the gas company, and the third by the two thus chosen; also that should the city decline to purchase at the valuation fixed by the arbitrators, then the said rights, franchises and privileges should be extended automatically for 20 years longer and in 1910, owing to the failure of city to purchase plant, franchise was extended as above. The franchise gives the company exclusive right to manufacture and sell gas for any and all purposes in Minneapolis. This franchise contains no burdensome restrictions and its exclusive character has been sustained by the courts of Minnesota.

The east side of the river, or, as it was called originally, St. Anthony, also granted a franchise which is owned and controlled by the Minneapolis Gas Light Co., and which is of the same character as the Minneapolis franchise.

Officials of Company on Nov. 3, 1927, presented to the Minneapolis city council special committee on gas matters the draft of a proposed ordinance to extend the present franchise which expires in 1930, for 20 years, fixing a minimum charge of $1 a month for all gas consumers, retaining the present method of arriving at the monthly charge of consumers using up to 3,000 cubic feet of gas, and providing step rates for large users of gas.

Receivers Discharged—On Oct. 9, 1924 Alonzo T. Rand and Clive T. Jaffrey, were discharged as Receivers for Company and property turned back to owners. These two men succeeded Rufus R. Rand (deceased) on April 16, 1921, the latter having been appointed on Jan., 1920, by Judge Wilbur F. Booth in the Federal District Court.

Property—Property includes a water gas manufacturing plant, with daily capacity of 24,600,000 cu. ft.; 4 holders with a capacity of over 8,700,000 cu. ft., and 785 miles (of which 20 suburban) of mains, serving 118,876 (of which 1,030 suburban) meters.

Valuation—Wm. A. Baehr of Chicago, consulting engineer, has appraised the valuation of the Company's property as of Jan. 1, 1920, at $19,371,063 and fixed the valuation at $13,792,831 as of July 1, 1918, at a date when Dr. Milo R. Maltbie of New York, public utilities expert employed by the City of Minneapolis, fixed $6,000,000 as a fair valuation. The U. S. Circuit Court of Appeals at St. Louis on Jan. 9, 1923, handed down a decision fixing the valuation of Company's property at $9,255,216 and ordering the price of gas to be fixed to yield 7.5% annually on this amount.

Gas Rates—On May 1, 1923, the U. S. District Court allowed 3c per thousand cu. ft. to be added to the rate representing the return of 7½% per annum on the increase in valuation from $8,000,000 as found by the Master to $9,255,216 as found by the U. S. Circuit Court of Appeals. Price of gas to City of Minneapolis (net): May 1 to Aug. 31, 1924, $1.01; Sept. 1 to Dec. 31, 1924, $0.98; Jan. 1 to Apr. 30, 1925, $0.96. May 1 to Aug. 31, 1925, $0.95; Sept. 1 to Dec. 31, 1925, $0.93; Jan. 1 to April 30, 1926, $0.94; May 1, 1926, to Aug. 31, 1926, $0.97; Sept. 1, 1926, to Dec. 31, 1926, $0.95; Jan. 1, 1927, to April 30, 1927, $0.93; May 1, 1927 to Aug. 31, 1927, $0.96; Sept. 1, 1927 to Dec. 31, 1927, $0.94; Jan. 1, 1928 to April 30, 1928, $0.94. Suburban gas rates: First 500 cu. ft. and minimum bill, $1.00 net; next 4,500 cu. ft., $1.50 net per M.; over 5,000 cu. ft., $1.10 net per M.

MANNHEIM & PALATINATE ELECTRIC COMPANIES

(Grosskraftwerk Mannheim Aktiengesellschaft) (Pfalzwerke Aktiengesellschaft)

History and Business—The Mannheim Electric Company was organized in 1921 by the City of Mannheim, the Palatinate Electric Company, in Ludwigshafen am Rhein, the Baden Works (Badische Landeselektrizitaetsversorgungs A. G.) in Karlsruhe, and the Neckar Canal Company (Neckar Aktiengesellschaft) in Stuttgart, and began operations in the latter part of 1923. The Common stock of the Company, of 2,000,000 R. M. par value (cumulative Pfd. shares are outstanding in the amount of 186,000 R. M. only) is all owned by the original organizing group.

The Mannheim Electric Company at present supplies, under contracts, the entire requirements of electric power and light of the City of Mannheim, substantially the entire requirements of the Rheinau Works (Kraftwerk Rheinau A. G.), which distributes power and light in territory adjacent to the City of Mannheim, and at least a third of the requirements of the Palatinate Electric Company

Current delivered by the Mannheim Electric Company in the fiscal years ending March 31 was: 1925, in excess of 95,000,000 k.w.h.; 1926, approximately 130,000,000 k.w.h., with a maximum demand of about 33,000 k.w.; 1927, about 141,000,000 k.w.h.

The Palatinate Electric Company was organized in 1912 by the Palatinate district of the Free State of Bavaria, certain of the cities and communities within the district and the Rhine Electric Company (Rheinische Elektrizitaets A. G.) of Mannheim. More than 70% of its capital stock of 9,000,000 Reichsmarks par value is owned by the Palatinate and certain Palatinate municipalities. For its principal sources of supply the Palatinate Electric Company utilizes not only the Mannheim Electric Company but also the Kraftwerk Homburg A. G. in the neighboring Saar District, in which it owns 100% of the capital stock. The Palatinate Electric Company also maintains high tension connections with the Baden Works and with the Rhine-Hessen Electric Works (Elektrizitaetswerk Rhein-hessen A. G.) so that its current supply is well insured against contingencies.

The Palatinate Electric Company has over 60,000 customers including 268 cities and communities which purchase current at wholesale for redistribution to local consumers. It distributes directly to consumers in 325 cities and communities. The total population of the territory reached both directly and indirectly was about 780,000 in 1925.

Current delivered by the Palatinate Electric Company in the calendar year 1924 was in excess of 37,500,000 k.w.h.; in the calendar year 1925 was about 50,900,000 k.w.h.; and in the calendar year 1926, 61,600,000 k.w.h. The connected load at the end of 1925 was 91,000 k.w.

The Mannheim Electric Company (Grosskraftwerk Mannheim Aktiengesellschaft) owns and operates a large central generating plant delivering electric energy at wholesale only, principally to three important utility systems, which in turn distribute to consumers. One of these distributing systems is owned and operated by the Palatinate Electric Company (Pfalzwerke Aktiengesellschaft), which draws at least a third of its supply from the Mannheim Electric Company, in which it owns 26% of the Common stock. Thus the Companies have a mutual interest in the improvement and extension of their respective production and distribution facilities.

Properties—The central generating plant operated by the Mannheim Electric Company has at present a capacity of 37,500 k.w. and includes switch and transformer facilities for delivery of electric energy to the lines of its customers at voltages of 20,000 and 100,000. This plant, in operation only since the latter part of 1923, is modern in every respect. It is located on the Rhine near the great coal terminals of Mannheim and possesses ample storage capacity and equipment for handling fuel directly from barges. Extensions now under way will add one 20,000 k.w. unit to present capacity as well as additional boiler plant; the buildings under construction will provide for the installation of yet another generator of like capacity.

The property of the Palatinate Electric Company includes a generating plant of 6,000 k.w. capacity located in Ludwigshafen a. Rh.; a large administration building; two converter and five switch stations; a 100,000 volt transformer station for receiving, and 570 transformer stations for delivering current; about 974 miles of high tension lines (of which 66.5 miles are 100,000 volt and 848 miles 20,000 volt) and 323 local distribution systems. The Company owns in addition to its shares in the Mannheim Electric Company, 48% of the capital stock of the Kraftwerk Homburg Plant located in the Saar District (capacity 20,000 k.w.) and the entire capital of a small electric company.

The sound value of the plant directly owned and operated by the Mannheim Electric Company, as independently appraised, is $2,976,000. The sound value of the plant and equipment of the Palatinate Electric Company, as appraised is $5,000 000. The combined appraised values of plant and equipment of the two Companies is therefore about $8,000 000, exclusive of extensions to be made out of the proceeds of the loan described below.

Trustees—First Trust & Savings Bank, Chicago, and Deutsche Waren-Treuhand Aktiengesellschaft, Hamburg, Germany.

Purpose of Issue—Proceeds of this issue were used for additions and betterments, retirement of underlying indebtedness and other corporate purposes.

Callability—Subject to call as a whole only, except for sinking fund, on any interest date, on 60 days' notice, on and after June 1, 1931, at par and interest.

Sinking Fund—Companies shall pay to fiscal agent as a sinking fund sum of $120,000 annually May 24, 1931 to 1940, inclusive, to be applied on next succeeding interest date to redemption of bonds at par and interest. Bonds so redeemed shall be selected by lot.

Security—Bonds are the direct, joint and several obligations of both Companies, secured by two mortgages each in gold mark equivalent of one-half of the principal amount of bonds outstanding, as follows: (a) Mortgage upon the generating plant of the Mannheim Electric Co., subject to no prior liens except charges under the Dawes Plan of $65,120 (based on the present assessment), and ranking equally with an existing mortgage in terms of coal value, which is estimated to have a value, at March 31, 1927, of approximately $597,527; (b) mortgage upon the generating plant and administration building of the Palatinate Electric Co. at Ludwigshafen a. Rh.; the 100,000 volt transformer station of that Company at Mundenheim, together with switch stations, high tension lines and certain transformers with an aggregate capacity of about 21,000 kw., subject to no prior liens except charges under the Dawes Plan of $515,240 based on the present assessment.

The Indenture securing these bonds authorizes each Company to create additional liens upon any of its property mortgaged to secure these bonds, ranking equally with the mortgage securing these bonds, provided that the total of the amount of such mortgage, of all liens upon such property ranking equally therewith or prior thereto and of the lien proposed to be created less cash deposited under the Indenture, shall not exceed one-half the then appraised fair value of such property and that net earnings applicable to interest charges of the Company in question, during its next preceding fiscal year shall have been at least 1¼ times the maximum annual interest and amortization charges on all indebtedness of such Company to be outstanding after the creation of such additional lien.

Tax Provisions—Principal and interest payable without deduction for any taxes or charges, past, present or future, of the German Reich or of any German State, municipal, or other governmental subdivision or German taxing authority.

Original Offering—First publicly offered ($3,000,000) in July, 1926, at 96½ and interest, to yield 7.40%, by A. G. Becker & Co., W. A. Harriman & Co., Inc., and Marshall Field, Glore, Ward & Co. (now Field, Glore & Co.), New York.

Listed—Boston Stock Exchange.

History—The Brooklyn Edison Company, Inc., succeeded, by change of name on Jan. 10, 1919, to the Kings County Electric Light & Power Co., incorporated June 26, 1890, and by merger on Jan. 27, 1919, to the Edison Electric Illuminating Co. of Brooklyn, incorporated March 9, 1887. The Edison Electric Illuminating Co. of Brooklyn was itself the successor, through merger on Oct. 31, 1899, to the Citizens Electric Illuminating Co., incorporated Dec. 13, 1883, and the Municipal Electric Light Co., incorporated Aug. 2, 1884, and was also the owner, through acquisition at the time of such merger, of the controlling interest in the bonds and stock of the Amsterdam Electric Light, Heat & Power Co., which was incorporated April 12, 1897, and was the assignee of the franchise granted on Jan. 7, 1896, to the State Electric Light & Power Co., incorporated Dec. 7, 1891. The Edison Electric Illuminating Co. of Brooklyn was also the successor, through merger on April 11, 1900, to the Bergen Beach Light & Power Co., incorporated April 10, 1896.

In Nov., 1924, the Brooklyn Edison Company, Inc., acquired from the Flatbush Gas Company its entire electric transmission and distribution sys-

tem in the 29th Ward, together with its franchise granted by the State of New York to the Knickerbocker Electric Light and Power Company, by and with the consent of the Town Board of the Town of Flatbush, dated July 21, 1893, and assigned to the Flatbush Gas Company, Dec. 27, 1893. Subsequently in 1925, the electric transmission and distribution system in the 30th and 31st Wards was acquired from the Flatbush Gas Company.

By these mergers, change of name and acquisitions, the various franchises and other properties have become concentrated in the present operating company, the Brooklyn Edison Co., Inc., with the gradual elimination and disappearance of the other companies named, except the Flatbush Gas Company and the Amsterdam Electric Light, Heat & Power Co. The franchise and properties of the Amsterdam Electric Light, Heat & Power Co. are leased for operation by the Brooklyn Edison Co., Inc., and all the $500,000 in stock and $300,000 in bonds of the Amsterdam Electric Light, Heat & Power Co. are owned by the Brooklyn Edison Co., Inc. The operations by the Brooklyn Edison Co., Inc. under the various franchises cover the entire electric light and power business in the Borough of Brooklyn.

Franchises—The various franchises, brought together under the one control as above, are not limited in duration, and in the most important cases extend over the entire Borough of Brooklyn as now constituted, for both lighting and power purposes.

Property and Service—The Company's property includes three generating plants, one located on the East River at Hudson Avenue, another on the East River at Gold Street, and the third on New York Bay at 66th Street, which have an aggregate rated capacity of 419,500 kilowatts in generators, with the necessary condensing, switchboard and auxiliary equipment.

The aforementioned capacity includes the 80,000 kilowatt unit at the Hudson Avenue Generating Station, the installation of which was started in 1925 and placed in operation in 1926, making the total capacity of this station 230,000 kilowatts. The station structure to house this unit and four additional units, as they may be required, was also completed in 1926.

There are twenty-seven substations containing 80 units, with a total rated capacity of 95,700 kilowatts for converting alternating current into direct current, and 45 units of alternating current transforming capacity, totaling 402,500 kilovolt amperes. The substation adjacent to the Hudson Avenue Generating Station has a 35,000 kilovolt ampere frequency changer set used for tying in the twenty-five cycle system to the sixty cycle system.

The installation of a 110,000 kilowatt generating unit at the Hudson Avenue Generating Station was started in October, 1927, to provide for additional load in 1928. It was planned to have this unit ready for operation in the summer of 1928. This is the fifth generating unit to be installed at Hudson Avenue and will bring the total capacity of the station up to 340,000 kilowatts. Approximately three-quarters of the total energy generated by the Company during 1927 was supplied by the Hudson Avenue Station.

The Company owns a 35-acre parcel of land on the waterfront in the Borough of Richmond, which is used for coal storage purposes, being fully equipped with modern devices for the loading, unloading, handling and storage of coal. The twelve story office building owned by the Company on the northwest corner of Pearl and Willoughby Streets is wholly devoted to the purposes of the Company for housing the general executive and operating departments. This building was extended in 1927, increasing the square feet of office space by approximately 80%. There is also a six story office building, at Johnson and Pearl Streets, occupied in part as a substation. Property has been purchased on Fourth Avenue between First and Third Streets for a general service building and garage.

The transmission and distribution systems include 7,040 miles of overhead construction carried on 46,420 poles, and 6,435 miles of underground construction laid in subway conduits. There are 744,323 meters in use on the system, the territory served being estimated to have a population of over 2,250,000.

Rates—A voluntary reduction was made by the Company in its maximum rate for service, from 7½ cents to 7 cents a kilowatt hour, effective Jan. 1, 1927. This is the second general reduction in rates in two years.

PROVISIONS OF GENERAL MORTGAGE APPLICABLE TO FOREGOING SERIES "A," AND "B" BONDS, AND TO ADDITIONAL BONDS ISSUABLE.

Aggregate face amount of bonds at any time outstanding shall never exceed $100,000,000. Bonds may differ as to interest rate, maturity and redemption date, and may have the privilege of conversion into capital stock as shall be determined by the Company. Bonds are the direct obligations of the Brooklyn Edison Co., Inc., and are secured equally by a mortgage on all its real and personal property now owned or hereafter in any way acquired, subject only to the liens of the mortgages securing the above enumerated outstanding $11,951,000 in mortgage bonds of the Kings County Electric Light & Power Co. and the Edison Electric Illuminating Co. of Brooklyn, which underlying mortgages are closed by the General Mortgage so that no more underlying bonds may be issued. Bonds are issuable only upon authorization by Public Service Commission of the State of New York

$8,500,000 of Series "A" and "B" bonds, as well as $500,000 of the Series "C" bonds, (which latter were called for redemption Jan. 1, 1925), comprised the $9,000,000 of bonds issuable under the provisions of the General Mortgage for reimbursing the Company's treasury for cost of properties acquired prior to the date of the Mortgage (Jan. 1, 1919) in construction, completion, extension and improvement of plants and facilities. The remaining $1,500,000 of Series "C" bonds (which also were called for redemption Jan. 1, 1925) and the $8,000,000 of Series "D" bonds (which latter were redeemed Dec. 1, 1924), together with the remaining $14,300,000 of outstanding Series "A" bonds, or $23,800,000 in the aggregate, were issued to reimburse the Company's treasury in part for expenditures made for the acquisition of property and for construction, completion, extension and improvement of plants and facilities subsequent to said date of the Mortgage as therein provided.

The remaining bonds under the General Mortgage may be issued for future—

(1) Refunding or acquisition of the above enumerated underlying bonds or other obligations constituting a lien upon the mortgaged property at the date of the mortgage or other obligations secured by a lien upon property subsequently acquired by the Company and become subject to the lien of the mortgage.

(2) Construction, completion, extension, development or improvement of or additions to plants and facilities.

(3) Acquisition of the whole or any part of the properties, rights, privileges and franchises of any corporation supplying light, heat or power by electricity or other means in the present territory of New York City and Nassau and Suffolk Counties.

(4) Acquisition of securities of other corporations supplying light, heat or power by electricity or other means in said territory, provided the Company be or thereby becomes the owner of at least two-thirds of the outstanding capital stock of any such corporation.

(5) Reimbursement of the Company for expenditures made subsequent to the date of the Mortgage for any of the purposes for which bonds are issuable under (2), (3) and (4) above or to meet indebtedness of the Company contracted for any of such purposes.

Provided, however, that except for refunding or acquisition of underlying bonds and obligations under (1) above, bonds shall not be issuable at face amount in excess of 80% of the actual cost or reasonable value (whichever may be less) of the property or securities acquired, or the extensions, developments, improvements or additions made, nor issuable for the acquisition of securities under (4) above if thereby more than 25% of the actual cost or the reasonable value of the property subject to the General Mortgage (after deducting the face amount of all underlying liens) would consist of stock, bonds, or other obligations acquired by the use of bonds issued under the General Mortgage, nor unless net earnings of the Company, as defined in the General Mortgage, shall have been at least twice the annual interest charges upon all outstanding underlying bonds, the outstanding bonds secured by the General Mortgage and those applied for.

BARCELONA TRACTION, LIGHT AND POWER COMPANY, LIMITED

History and Properties—Incorporated Sept. 12, 1911, under laws of Canada, for the purpose of developing hydro-electric power in Spain, with the intention of serving the very large market for light and power and also developing the electric railway and tramway system in the City of Barcelona and the surrounding district. For the purpose of constructing and operating the hydro-electric works in Spain, a subsidiary company, called the **Ebro Irrigation & Power Co., Ltd.,** was formed in Canada, and protocolised in Spain under the name of "Riegos y Fuerza del Ebro, S. A." For the purpose of developing the electric railway and tramways a Spanish company, entitled **Ferrocarriles de Cataluna, S. A.,** was also organized. The Ebro Irrigation & Power Co., Ltd., in addition to operating its own hydro-electric business, operates and controls the electric undertakings of the various subsidiary companies which the Barcelona Traction, Light & Power Co., Ltd., controls through share holdings.

The Company controls (a) The Ebro Irrigation & Power Co., Ltd., through ownership of entire stock and bonds; (b) the **Compania Barcelonesa de Electricidad, S. A.,** through the ownership of approximately its entire outstanding Ordinary Share Capital; (c) **Union Electrica de Cataluna** (which in turn owns the entire capital stock of the **Energia Electrica de Cataluna**), and (d) the supply of light and power, in a large portion of the Province of Cataluna by means of an extensive system of transmission lines, and in the important industrial cities of Tarrasa, Tarragona, Reus and Tortosa, through the ownership of practically the entire Share Capital of the Companies operating in these towns.

The Compania Barcelonesa de Electricidad furnishes electric light and power and has an extensive system of canalisations for the distribution of light and power throughout the City of Barcelona and the surrounding district, serving a population of about 800,000 people, and has a steam station of a total capacity of about 65.000 H.P., held as a reserve plant.

The lighting and power companies operating in Tarrasa, Tarragona, Reus and Tortosa, where there are many manufactories in operation, serve a large industrial population, estimated at approximately 300.000.

The Ebro Irrigation & Power Co., Ltd., hydraulic generating plant on the Pallaresa and Segre Rivers have a rated capacity of approximately 134,000 H. P., with the following stations in operation: Pobla, 4,000 h.p.; Seros, 56,000 h.p.; Tremp, 36,000 h.p.; Camarasa, 34,000 h. p.; Corbera, a small plant. The Energia Electrica de Cataluna has five hydro-electric power stations in operation, with an estimated capacity of 58,000 h. p.

CAPITAL STOCK

Authorized, $15,000,000 Ordinary (par $50) and $30,000,000 7% non-cumulative Participating Preference; (par, $100); outstanding, $14,362,500 Ordinary and $25,193,400 Preference. The capital was increased in June, 1913, from $25,000,000 to $30,000,000, and in July, 1913, to $42,500,000. In 1921 the rights of the Preference shares were modified and the provisions compelling the Company to redeem the Preference shares in fifteen years or at any time were cancelled. In June, 1924, the capital was increased by the creation of $17,500,000 of Preference shares and was reduced to $45,000,000 by halving the nominal value of the Ordinary shares ($100 to $50). The Preference shares are entitled to a non-cumulative dividend of 7%, to participate pro rata with the Common shares in remaining profits, and to priority for capital without further participation. They are redeemable, at the Company's option, at 110% at any time.

FUNDED DEBT

(1)

£2,800,000 CONSOLIDATED 6½% PRIOR LIEN BONDS (FORMERLY 6% PRIOR LIEN "B" BONDS); DUE JUNE 1, 1965

Dated June 1, 1915.

Interest Payable June and December 1, in sterling, at office of J. Henry Schroder & Co., London, Eng.

Denominations—Coupon, £100, £500 and £1,000.
Trustee—National Trust Co., Ltd., Toronto.
Provisions of Issue—Authorized, £5,000,000; outstanding, £2,800,000 or $13,626,666.67. By deed of June 25, 1924, the Company was authorized to increase the Prior Lien Bonds from £3,000,000 to £5,000,000, subject to the provisions that it should retain in its treasury for the redemption of the Prior Lien "A" bonds an amount of Prior Lien bonds of a nominal par value at least 10% in excess of the par value of the Prior Lien "A" bonds for the time being outstanding.
Callability—Subject to call as a whole or in part on any interest date upon six months' notice, at 102, before June 1, 1939, and at par on and after that date.
Sinking Fund—The bonds are redeemable by the operation of a cumulative sinking fund to be applied annually in purchasing bonds at or under par, or by drawings at par. The operation of this fund commenced during the year 1925.
Security—Secured by trust deeds, dated July 10, 1915, Dec. 31, 1918, and June 25, 1924, under which the bonds are the direct obligation of the Company and, with the redemption on June 1, 1926, of the 7% Prior Lien "A" bonds, became automatically a first specific charge on the whole of the mortgaged assets of the Company and a first floating charge on its general undertakings and assets.
Original Offering—First publicly offered (£2,800,000) in June, 1924, at 91, by J. Henry Schroder & Co., London, Eng.

INTERSTATE RAILWAYS COMPANY

History—Incorporated Dec. 3, 1902, in N. J., to acquire, construct, and invest in other railroads; to develop and furnish all kinds of motive power, etc. Acquired control of The United Power & Transporation Co. through purchase of the outstanding capital stock on a basis of $75 for each $25 share, payable in collateral trust bonds. All of the 143,750 shares of The United Power & Transportation Co. have been acquired.

During 1924 the Company cancelled 99,600 reacquired shares of the 100,000 shares of its Pfd. stock then outstanding, leaving only 400 shares outstanding. Of these 400 shares 384 shares have been cancelled and retired. The Company also owns $1,835,000 of its Collateral Trust 4% bonds.

Plan of Reorganization—On Nov. 25, 1910, shareholders ratified the plan of readjustment (see Manual for 1912, page 1843), and the leasing of underlying companies was subsequently consummated. The subsidiaries are now in four groups, Wilkes-Barre, Reading, Wilmington and Trenton, and the following leasing companies were formed to take over the various

properties; Wilkes-Barre Ry., Reading Transit Co. Trenton & Mercer County Traction Corporation, Wilmington & Philadelphia Traction Co. and Southern Pennsylvania Traction Co. (the two latter companies being under the same management,) but part of the Reading properties were disposed of during 1917. (For statements of these several companies, see General Index).

The United Power & Transportation Co. owns practically the entire capital stocks of the leased properties, and the leases return to the respective lessor companies a total annual income of $830,000 as follows:

Wilkes-Barre System	*Reading System	Wilmington System	Trenton System	Total
$400,000	$55,000	$225,000	$150,000	$830,000

*Balance of Reading System was disposed of during 1917. The rentals received in former years were $300,000 annually.

The United Power & Transportation Co. and the Interstate Railways Co. sold during the year 1917 their entire holdings in the United Traction Co., of Reading, Pa., and the Edison Electric Illuminating Co., of Lebanon, Pa., for a consideration of $1,250,000 face value United Railways Gold Trust Certificates, and $2,760,000 in cash, this Company's proportion being the $1,250,000 United Railways Gold Trust Certificates and $1,465,431.65 in cash. The $1,250,000 face value United Railways Gold Trust Certificates, together with $750,000 additional of said certificates, purchased out of the cash received above by this Co., making a total of $2,000,000, were surrendered to and cancelled by the New York Trust Co., under the supplemental agreement with it, dated July 26, 1917, for the withdrawal of the shares of stock of the United Traction Co., of Reading, Pa., the Edison Electric Illuminating Co., of Lebanon, Pa., and the Holmesburg, Tacony & Frankford Electric Ry. Co., deposited under the Original Trust Agreement and the supplemental agreement aforesaid. The balance of the cash received by this Company has been all invested.

The Co. also surrendered and had cancelled, during the year 1917, $323,000 additional United Railways Gold Trust Certificates, and $40,500 Delaware County Railway Gold Trust Certificates, which, together with $354,400 Interstate Railways Co. Collateral Trust Gold bonds purchased, were applied in the withdrawal from the Real Estate Title Insurance & Trust Co., of Philadelphia, of 1,125 shares of stock of the Reading & Southwestern Street Ry. Co., and 4,925 shares of stock of Roxborough, Chestnut Hill & Norristown Ry. Co., deposited under the new tripartite agreement of July 26, 1917; said shares of stock now being free assets in the treasury of the Company, with the exception of 785 shares of stock of Reading & Southwestern Street Rv. Co. subsequently disposed of.

The Company also surrendered and had cancelled, during the year 1918, $222,200 United Railways Gold Trust Certificates and $27,700 Delaware County Ry. Gold Trust Certificates, which, together with $250,000 Interstate Railways Co. Collateral Trust Gold bonds were applied in the withdrawal from the Real Estate Title Insurance & Trust Co. of Philadelphia, of 9,975 shares of stock of the Schuylkill Valley Traction Co. and 1,600 shares of stock of Media, Glen Riddle & Rockdale Electric St. Ry. Co., deposited under the new tripartite agreement of July 26, 1917, said shares of stock now being free assets in the treasury of the Company.

The company also surrendered and had cancelled during the year 1921, $112,100 Delaware County Ry. Gold Trust Certificates; $55,600 for and on account of the withdrawal from the Real Estate Title Insurance & Trust Co., Philadelphia, of 9,975 shares of stock of Lebanon Valley Street Ry. Co. deposited under the new tripartite agreement of July 26, 1917, and $56,500 additional. During 1923, $444,900 United Railways Gold Trust Certificates also surrendered and cancelled account withdrawal of 9,975 shares Lebanon Valley Street Ry. The company also surrendered and had cancelled during the year 1925, $21,200 Delaware County Railway Gold Trust Certificates. During 1925 the Company surrendered for cancellation $103,000 United Railways Gold Trust Certificates. During 1927, Company surrendered for cancellation $2,100 Delaware County Railway Gold Trust Certificates.

WESTPHALIA UNITED ELECTRIC POWER CORPORATION

(Vereinigte Elektrizitatswerke Westfalen G. m. b. H.)

History and Properties—Organized on March, 1, 1923, under the name of Dortmunder und Verbands-Elektrizitatswerk G. m. b. H., the Company acquired from time to time the properties and franchises of Stadtisches Elektrizitatswerk Dortmund, Elektrizitatswerk Westfalen A. G. and Westfalisches Verbands-Elektrizitatswerk A. G. On Jan. 1, 1925, the name of the Company was changed to Vereinigte Elektrizitatswerke Westfalen G. m. b. H., on which date Elektrizitatswerke Westfalen A. G. leased its properties to the Company which assumed all the liabilities of the lessor company.

Westphalia United Electric Power Corp. is one of the most important producers and distributors of electricity in Germany. It serves a territory of over 4,255 square miles in western Germany including most of the industrialized districts in the Ems, Lippe and Ruhr river valleys. The principal cities served are Dortmund, Barmen, Bochum, Munster, Buer, Herne, Recklinghausen, Horde and Witten. Corporation supplies, directly or through local distributing systems, electricity to about 440,000 customers in 530 communities (serving directly more than 180,000 consumers in 395 communities), and gas to over 21,000 consumers in 14 communities. The aggregate population of communities served is estimated at about 3,000,000. Property includes four large steam electric generating plants with an aggregate installed generating capacity of 160,000 k. w., which in Jan., 1928, was being increased to 235,000 k.w.; about 2,669 circuit miles of transmission lines (including about 474 miles of 50,000 and 100,000 volt lines carried on steel towers, 1,268 miles of 10,000 and 15,000 volt lines and about 927 miles of underground cables) and about 3,460 circuit miles of distribution lines (of which about 670 miles are underground).

In addition Company operates a hydro-electric plant having an installed capacity of 6,000 K. W. under a lease extending to 1948 from Ruhr Valley Stream Control Association. An additional 6,000 k.w. in water power and 33,000 k.w. in steam power has been made available by purchase contracts with owners of small water power plants and mining companies within the Company's territory.

The gas properties include 194 miles of mains (of which 39 miles are high pressure transmission mains) and six small generating plants. Two plants are operated under lease. The greater part of the gas distributed is purchased from by-product coke oven plants.

Four coal mines, owned by subsidiary companies, have reserves adequate for the system's requirements on the basis of present operations, for a period of over 25 years.

Corporation owns at least 93½% of the capital stock of each of its subsidiary companies except Gemeinschaftswerk Hattingen G.m.b.H. and a half interest in this company; the other half is owned by the City of Barmen. Gemeinschaftswerk Hattingen G.m.b.H. owns one of the power plants subject to the mortgage securing the Series "A" 6% bonds.

FUNDED DEBT

$20,000,000 FIRST MORTGAGE 6% SINKING FUND GOLD BONDS, SERIES "A"; DUE JANUARY 1, 1953

Dated January 1, 1928.

Interest Payable January and July 1 at Speyer & Co., New York, or Harris Trust & Savings Bank, Chicago, in U. S. gold coin. Principal payable at office of Speyer & Co., New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustees—Deutsche Treuhand-Gesellschaft, Berlin, Germany, Trustee, and Harris Trust & Savings Bank, Chicago, Ill., Co-Trustee.

Provisions of Issue—The total amount of bonds to be at any time outstanding will be limited to $50,000,000 (or equivalent in other currencies). Issued and outstanding $20,000,000 Series "A" 6s, the proceeds of which were used to refund the $7,500,000 First Mortgage 6½% bonds, due Dec. 1, 1950, to repay floating debt incurred for capital expenditures, and to provide for additions and improvements to the properties of Corporation and its subsidiary companies.

Additional bonds may be issued as Series "A" bonds or bonds of other series with such rates of interest, maturity dates and other provisions as may be determined by the Corporation, under restrictions set forth in the indenture, for a principal amount not to exceed 66 2/3% (in the case of coal properties not to exceed 50%) of the cost or fair value, whichever is less, of (a) additions and improvements made by the Corporation or subsidiaries, the fixed properties of which are subject to the mortgage, and (b) fixed properties, subjected to the mortgage, of additional subsidiary companies; but bonds may be so issued only if, for a period of twelve consecutive months (within fifteen months preceding application for such issue), combined net earnings (as defined in the indenture), shall have been not less than three times the annual interest on all bonds to be outstanding, including bonds then to be issued. Bonds may be issued also for refunding, but only for an amount not to exceed the bonds to be refunded. The indenture provides that hereafter only $8,000,000 bonds may be issued in respect of gas properties and only $3,000,000 bonds in respect of coal properties.

Callability—Series "A" bonds are subject to call as a whole or in part on any interest date, on 60 days' notice, at par and interest.

Sinking Fund—Provision is made for an annual cumulative sinking fund beginning in 1931, sufficient to redeem 60% of Series "A" bonds at or before maturity, to be applied to the purchase of such bonds at or below par and interest, or, if not so obtainable, to redemption by lot at par, the first redemption to be on Jan. 1, 1932. In lieu of cash payments Corporation may tender Series "A" bonds at par.

Security—A direct obligation of Corporation and secured by a direct first mortgage on substantially all fixed properties now owned by Corporation and its subsidiary companies, subject only to charges under laws enacted to give effect to the Dawes Plan and to a real estate mortgage of $33,333 on a small portion of the property of Corporation. The lien of the mortgage covers all fixed property, mortgagable under German law, hereafter acquired by Corporation or its present subsidiary operating companies and by future subsidiary companies the properties of which may be subjected to the mortgage. The electric and gas properties to be mortgaged have been appraised by an independent American engineer at about $36,000,000 and the coal properties by an independent German engineer at more than $3,000,000.

Tax Provisions—Principal and interest are payable without deduction for any German taxes of any nature.

Legal Opinion—Sullivan & Cromwell, New York, and Dr. Heinrich F. Albert and G. A. Westrick, Berlin, Germany.

Original Offering—First publicly offered ($20,000,000 Series "A" 6s) in January, 1928, at 92¾ and interest, to yield about 6.60%, by Speyer & Co. and Harris, Forbes & Co., New York; Harris, Forbes & Co., Inc., Boston; Harris Trust & Savings Bank, Chicago, and Harris, Forbes & Co., Ltd., Montreal.

Listed—Boston Stock Exchange and New York Curb Market. Application will be made to list the bonds on the New York Stock Exchange.

BOND REDEMPTION

All of Company's $7,500,000 First Mortgage 6½% bonds, due December 1, 1950, were called for payment on June 1, 1928, at par and interest.

INDUSTRIAL DEBENTURES

Under the Dawes Plan and the Law of Industrial Charges of August 30, 1924, the Corporation and its subsidiary companies have issued approximately $1,378,000 principal amount of Industrial Debentures, the maximum annual payments in respect of which, amounting to about $82,680, are secured by a first charge upon their fixed properties. The total charges, in accordance with the above law and other legislation for carrying out the Dawes Plan, on the basis of present provisional assessments, will be $92,132 per annum.

CONSOLIDATED STATEMENT OF EARNINGS, YEARS ENDED
(Corporation and Subsidiaries, Intercompany Transactions Eliminated)

Tramways System, in operation, as of Dec. 31, 1926, consisted of 208.2 miles of electric lines, 6.1 miles of gasoline lines and 2.2 miles operated by animal traction—a total of 216.5 miles.

Equipment, as of Dec. 31, 1926—Passenger cars: First class motor, electric, 308; trail, electric, 35; mule, 5; second class trail, 65; combination 1st and 2nd class motor, (gasoline, 3; electric, 6), 9. Freight—motor, 43; trail, 57; mule, 3. Funeral equipment—motors and trailers, 48; miscellaneous, 4. Total cars, 577. Omnibuses, 9.

Interest Defaults—The interest defaults of the various issues of bonds of the Mexico Tramways Co. and its controlled companies were attributable, not to any failure of the management, but on account of the extraordinary conditions prevailing in Mexico and the consequent depreciation in Mexican currency. Furthermore, the operation of the Mexico Tramways Co. was taken over by the Government authorities in Mexico in Nov., 1914, and were so operated from that time up to May, 1919, when the properties were returned to the officials of the Company by whom they are now operated.

Bondholders' Protective Committee—The bondholders of the Mexico Tramways Co., the Mexican Light & Power Co., Ltd., the Mexican Electric Light Co., Ltd., and the Pachuca Light & Power Co. in February, 1916, were notified that the Protective Committee urged deposits at an early date. Committee: E. R. Peacock (Chairman), H. F. Chamen, Robert Fleming, A. P. Holt, H. Malcolm Hubbard, Sir Alexander Roger and G. C. Cassels, 3 London Wall Bldgs., London, E. C. This committee co-operates with the Trustees, the Mexican Light & Power Co., Ltd., and the Board of Directors in taking such measures from time to time as will best safeguard the interests of the security holders.

Plan Approved—The Provisional Agreement of Reorganization, dated May 30, 1921, outlined at some length in the 1921 Public Utility Manual, on page 2395, was approved by the bondholders at a meeting held June 29, 1921.

£1,461,500 ($7,112,633.33) MEXICO TRAMWAYS COMPANY 6% FIFTY-YEAR MORTGAGE BONDS; DUE JANUARY 1, 1966

Dated January 1, 1909.

Interest Payable January and July 1, at Bank of Scotland, London, Eng., Jan. 1, 1915, and subsequent interest in default.

Under the terms of the "Provisional Agreement of Reorganization" the payment of interest on the bonds is to be postponed so that such arrears as well as the current interest and revised Sinking Fund payments will only be paid out of the surplus earnings of the Company so far as they are sufficient for the purpose in the opinion of the Committee, but to be cumulative. As soon as all the arrears of interest have been discharged an additional 1% per annum to be allocated from Surplus Revenue to be applied as a Sinking Fund. This arrangement to remain in existence until all arrears of interest have been discharged and the current interest has been paid regularly for six consecutive half yearly periods. After that date the interest to become again fixed and the Sinking Fund stipulated by the Trust Deed to come into operation should the date be 1928 or later.

Denomination—Coupon, £100; principal may be registered.

Trustee—National Trust Co., Ltd., Toronto, Can.

Provisions of Issue—Authorized issue (subject to increase), £3,150,000, of which £1,688,500 held in treasury. The issue of these bonds may be increased subject to the provisions of the trust deed, it being provided that all additional security and assets acquired by such additional bonds or the proceeds thereof shall form additional security for the entire issue of the said mortgage debenture bonds.

Callability—Subject to call at 105 and interest at any time on six months' notice.

Sinking Fund—See under "Interest Payable" above.

Security—These bonds are secured on all concessions and immovable property of company, present and future, and upon all shares, stocks, bonds and securities of other companies now or hereafter owned by it, subject to the 5% bonds described above. Also secured by a first charge upon certain securities which were purchased with the proceeds of these bonds but subject to the conditions of the Reorganization Agreement of 1921.

THE MEXICO ELECTRIC TRAMWAYS, LTD.

(Leased to Mexico Tramways Company)

History—Incorporated April 13, 1898, in Great Britain. Company owns the 5,000,000 pesos ordinary capital and 4,000,000 pesos 6% Second Debentures of La Compania de los Ferrocarriles del Distrito Federal de Mexico, together with the shares of the Mexican Traction Co., and a lease as from Jan. 1, 1901, of the former company's system. The entire undertaking is leased from July 1, 1907, to the Mexico Tramways Co., which holds all the shares of The Mexico Electric Tramways, Ltd.

Modifications of the Rights of Debenture Holders—Early in 1922 holders of the £400,000 5% First Charge Debentures agreed to certain modifications of the rights of the debenture holders, substantially as follows: (a) That the trustees as holders of all the 4,000,000 pesos Second Charge 6% debentures of La Compania de los Ferrocarriles del Distrito Federal de Mexico, which form part of the specific security for the 5% First Charge debentures, consent that the First Debentures of La Compania de los Ferrocarriles del Distrito Federal de Mexico be extended from Dec. 31, 1921, to Dec. 31, 1926, and that the interest on such debentures be increased to 8%, such debenture holders being paid a cash bonus of 5% on the debentures on Dec. 31, 1921, and such debentures be made payable free of all Mexican taxes and in gold pesos or at the option of the holders in U. S. dollars at the exchange of one U. S. dollar for two Mexican dollars; (b) that the trustees consent that the Second Charge debentures of La Compania de los Ferrocarriles del Distrito Federal de Mexico be extended to Dec. 31, 1959, on similar terms to those arranged with the First debentures, except that no cash bonus be paid for the extension of the Second debentures; (c) that company create a cumulative sinking fund of 1% per annum, commencing in 1922, for the purchase below or redemption at par by annual purchases of drawings of the First Charge debentures of Mexico Electric Tramways, Ltd., which are not payable at any fixed date.

THE MEXICAN LIGHT & POWER COMPANY, LTD.

(Controlled by Mexico Tramways Co.)

History and Properties—Incorporated in Sept. 1902, in Canada, to acquire property and franchises of Societe de Necaxa in connection with water power on Necaxa, Tenango and Catepuxtla rivers, in Puebla, Mex. Original concession, granted in 1903, gave the right to construct transmission lines in any part of Mexico, with the right of expropriation of land required. The concession granted the exclusive use of the waters in the Necaxa and Tenango rivers, with the right of expropriation of all lands required for reservoirs and other purposes in connection with the hydraulic development. Subsequently the company made application for a supplementary concession covering the entire upper water-sheds of the rivers adjacent to the Necaxa and Tenango, and these rights, granted in May, 1906, and approved by decree of the Federal Congress, extend to 2012. The company has acquired franchises from the States of Pueblo, Hidalgo, Mexico and Michoacan, through which its transmission lines now pass. The franchises of the Company are consolidated and ratified by decrees of the Federal Congress.

In Aug., 1903, purchased the Mexican Electric Works, Ltd., now lighting streets of Mexico City; and in 1905 acquired Mexican Gas & Electric Co. and San Ildefonso Lighting Co., through formation of Mexican Electric Light Co., Ltd., which this company controls by lease, and whose entire capital stock it owns. In Aug., 1907, arranged to acquire the Robert Electric Co., a competitive lighting company in the Federal District of Mexico. In Jan., 1910, acquired the entire capital stock of the Compania Electricia e Irrigadora en al Estado de Hidalgo, and subsequently the entire share capital of the **Officina Tecnica.** For the convenience of working, the Pachuca Light & Power Co. (whose entire capital stock is owned by the Mexican Light & Power Co.) was subsequently incorporated, and succeeded to the business and undertaking of the Compania Electricia e Irrigadora en al Estado de Hidalgo. Also controls the Alameda River Hydro-Electric Co. (Cia Hidro-Electrica del Rio de la Alameda), which has completed a hydro-electric development on the Alameda River, placed in operation Jan. 21, 1923. Also owns 45% of the share capital of 200,000 pesos of the Mexican Steel & Chemical Co., Ltd., the remaining 55% being owned by the Mexico Tramways Co.

In Sept., 1922, the installations of the El Oro Light & Power Co., a subsidiary of The Mexican Light & Power Co., Ltd., which supplied the local services to the small towns of El Oro and Acambaro, were transferred to the latter Company and the liquidation of the El Oro Light & Power Co. completed in 1923.

Receivership—G. T. Clarkson was appointed Receiver in Aug. 1915, being subsequently succeeded by R. C. Brown, President of the Company, who was duly discharged upon the termination of the Receivership Sept. 30, 1921.

Scheme of Arrangement for Payment of Arrears of Interest—On May 3, 1927, a scheme of arrangement was prepared for the purpose of settling the outstanding arrears of interest on the Second Mortgage bonds amounting to £750,000; on the 6% Cumulative Income bonds amounting to $3,532,757; and also for discharging the unpaid accumulations of dividend on the 7% Cumulative Preference Shares amounting to $5,670,000. The scheme was approved by shareholders and second mortgage bondholders the latter part of May, 1927, and subsequently by the Canadian Courts.

Under the Scheme, each £100 Second Mortgage bond received (a) £7 10s. 0d. in cash and (b) £50 in bonds of the same issue with interest coupon payable June 1, 1927, in satisfaction of all accumulated interest to the holders of the 6% Cumulative Income bonds, there were issued at par $3,532,757 10-year unsecured non-interest bearing notes, due Jan. 1, 1937 (described below), in satisfaction of all accumulative interest. As sum of $200,000 (which may be increased to not exceeding $650,000 in any year) is to be set aside every half-year as a sinking fund for the redemption of the notes at or under par.

To the holders of the 7% cumulative Preference Shares there was issued 4% cumulative Redeemable Second Preference Shares of $5 each (a new issue created by the Scheme), on the basis of $95 par value of Second Preference Shares for each $100 par value of 7% Preference Shares held, in full satisfaction of all accumulated dividends. The Ordinary capital stock was changed from shares of $100 par value to shares of no par value.

CAPITAL STOCK

Authorized, 19,000,000 shares Ordinary of no par value, $6,000,000 7% cumulative Preference, par, $100, and $5,700,000 4% cumulative Redeemable Second Preference, par, $5; outstanding upon completion of the above mentioned Scheme of Arrangement, 13,585,000 shares Ordinary, $6,000,000 Preference and $5,700,000 Second Preference. The Mexico Tramways Co. owns 8,733,600 Ordinary Shares.

In May, 1927, the par value of the Ordinary stock was changed from $100 to no par and the Second Preference stock issued at $95 to holders of 7% Preference stock in satisfaction of the accumulated dividends thereon from 1913 to May 1, 1927, amounting to $5,670,000.

Second Preference Stock Provisions—Has preference, subject to the rights of the 7% Preference shares, for assets and 4% cumulative dividends over Ordinary stock, and is redeemable as a whole or in part by purchase at or below par or by drawings at par and accrued dividend. On or before May 1, 1928 and annually thereafter, 50% of the surplus profits of the preceding fiscal year (to be determined as below stated) is to be set aside as a sinking fund to be applied to the redemption of the Second Preference shares either by purchases in the market at or under par and accrued dividend or by drawings at par. The surplus profits shall be the ones remaining after deducting (a) full dividends of 7% per annum on the Preference shares; (b) full dividends of 4% per annum on the Second Preference shares; (c) not exceeding $250,000 for the sinking fund for the Unsecured Non-Interest Bearing Notes, and (d) dividends of $4 per share per annum on the Ordinary shares now outstanding and those that may be issued for cash hereafter; however, should any Ordinary shares be issued for the redemption of any prior security or share capital, there shall be deducted such additional sum above the $4 per share per annum as would be equivalent to annual charges on such securities redeemed.

History and Property—Incorporated, July 14, 1921, in New York, for the purpose of acquiring under Plan of Reorganization by Agreement all the property, rights and franchises of the New York Steam Co., which was incorporated in 1881 as the consolidation of the Steam Heating & Power Co. of New York and the New York Steam Co. (see 1921 Public Utility Manual, page 791, or apply to our Information Department.) Operates under perpetual and unrestricted franchise granted by the Board of Aldermen of the City of New York, Dec., 1880, permitting the corporation to lay mains and pipes in any of the streets on the Island of Manhattan for the purpose of transporting steam and other fluids.

The corporation serves two districts, one embracing below Chambers Street that portion of Manhattan known as the financial district in which most of the large office buildings are situated, and the other, the up-town East Side residential and mid-town business district. The Corporation supplies steam to over 2,000 buildings in the City of New York, the cubic contents of which buildings aggregate 1,108,400,000 cu. ft. Of this amount, 625,300,000 cu. ft. or over 56% of the total are represented by 1,450 buildings which contain no steam generating equipment whatsoever and in many instances not even smoke stacks. These figures compare with 389,000,000 cu. ft. content of all buildings connected with the system, during the heating season of 1921-1922. The distribution system consists of 240,000 feet of substantially constructed mains and services. Corporation owns 4 steam generating stations, practically at the waterfronts of each of the territories served, together with the land upon which they are situated and in two cases land adjacent thereto sufficient for future expansion, two being located at 59th St. and East River, one at Burling Slip and one, the new Kip's Bay Station (the first two units of which are in operation), located at 35th St. and East River, two blocks south of the New York Edison Co.'s Waterside Station. The combined capacity of the boilers installed in these plants is over 100,000 horsepower.

The Kip's Bay Station will be the most highly concentrated and one of the most efficient plants in the world. It is designed for an ultimate capacity of 150,000 horsepower and the initial installation, including a new unit now being installed, is 46,000 horsepower. Thus, upon completion of the initial installation and including that part of the capacity of The New York Edison Co., at the disposal of the Corporation, under contract, the latter will have available 136,000 horsepower, a boiler capacity sufficient to operate about 400,000 kilowatts in modern electric generating units. The principal station in the downtown financial district is of modern design, and its capacity has recently been increased by over 10,000 horsepower through the installation of boiler economizers which have also increased the efficiency of the station. The equipment in Station "J" at 59th Street and East River was installed in 1922.

Under a mutually advantageous agreement, The New York Edison Company is supplying steam from its Waterside Stations to the New York Steam Corporation in order to augment the supply from the corporation's present stations for distribution in the territory, north of 70th Street on Park Avenue, and south from Madison Avenue at 47th Street through the Grand Central commercial section to 33rd Street. Steam is also available from the Edison Company's Duane Street Station. The Corporation has disposed of its station known as "B" at Cortland, Dey, Greenwich and Washington Streets, on a long term lease upon advantageous terms, said station being of no further usefulness in the conduct of the business.

CAPITAL STOCK

Authorized, 30,000 shares Common of no par value and 100,000 shares Pfd. of no par value; outstanding June 30, 1927, 30,000 shares Common, 41,930 shares $7 cumulative Pfd., Series "A," and 50,000 shares of $6 dividend Series Pfd.

Capital Stock Reclassification—Stockholders on April 17, 1924, authorized a reclassification and change of the 50,000 previously authorized shares of Series"A" Pfd. stock, of the par value of $100 each, issued or unissued, into shares of Pfd. stock, Series "A", without par value, and an increase in the number of shares of such stock, as reclassified, to 100,000 shares without par value.

Preferred Stock Provisions—Has preference for assets and dividends. Additional Pfd. stock of Series "A", or any other series, entitling holders to cumulative dividends at such rate or rates, redeemable at such price or prices and with such other preferences and privileges and such other restrictions and qualifications not inconsistent herewith, as a corporation may determine at the time of the authorization of the particular series, may from time to time be authorized and issued. However, no Pfd. stock of any series shall be created in such amount that the aggregate amount of authorized Pfd. stock of all series shall exceed 100,000 shares except with the written consent of the holders of two-thirds in amount of Pfd. stock outstanding, all series voting as one class.

Additional shares of Pfd. stock may be issued only (a) upon the acquisition or retirement of funded obligations of the Corporation, at the rate of one share for each $100, principal amount, of funded obligations

acquired or retired, or (b) on account of expenditures for permanent extensions or betterments to the properties of the Corporation; provided, that in the case of the issue of stock on account of such expenditures, net earnings for a twelve months' period ending not more than ninety days prior to the date of such issue of Pfd. stock, after the payment of all interest charges and taxes and after making provision for maintenance and replacements to the extent required by the Corporation's First Mortgage, shall have been at least equal to twice the annual dividend requirements on all Pfd. stock which shall be outstanding immediately after such issue. As to 75% of such expenditures, Pfd. stock may be issued at the rate of one share for each $100 of expenditures in excess of the principal amount of First Mortgage bonds issued on account thereof, and as to the remaining 25% thereof, Pfd. stock may be issued at a rate not exceeding one share for each $125 thereof.

So long as any of the Pfd. stock remains outstanding, no bonds, notes or other evidences of indebtedness maturing more than one year from the date of their issue (except bonds issued as permitted by the conservative provisions of the Corporation's First Mortgage) may be issued, nor may the authorized number of shares of Pfd. stock be increased, nor may the provisions relating thereto be changed or repealed, except as authorized by the vote of two-thirds of the Pfd. stock at the time outstanding, or two-thirds of the particular series affected by such change or repeal. The Pfd. stock also has the right to vote in any proceeding for mortgaging the property and franchises of the corporation, or for the sale thereof; but for any other purpose (including the election of directors) the Pfd. stock has no voting rights, unless the Corporation shall be in default in the payment of any two quarterly dividends on the Pfd. stock, in which event, the Pfd. stock will have full voting rights at least equal to the stock of any other class until all unpaid accumulated dividends on the Pfd. stock shall have been paid or provided for. If the Corporation shall at any time be in default in the payment of any four quarterly dividends on the Pfd. stock, the Pfd. stock will have the exclusive right to elect directors until all unpaid dividends thereon shall have been paid or provided for.

Preferred Stock Reserve Fund—Company is required under its amended Certificate of Incorporation to set upon its books on May and Nov. 20 of each year a sum equivalent to $2. per share on the number of shares of Pfd. stock issued, of which one-half may be released to company upon certificate that it has made capital expenditures to a like amount which have not been made the basis in whole for the issuance of bonds or Pfd. stock, and the other half or $1. per share shall be applied to the purchase of Pfd. stock at not exceeding 105, which Pfd. stock may again be issued to company and sold under the provisions relating to the issuance of additional Pfd. stock.

Series "A" Preferred Stock—Entitled to cumulative dividends at rate of $7 per share per annum; also to $115 a share and accrued dividends in case of voluntary dissolution and to $100 a share and accrued dividends in case of involuntary liquidation. It is subject to redemption as a whole or in part on any dividend date at thirty days' notice at $115 a share and accumulated dividends.

$6 Dividend Series Preferred Stock—Entitled to cumulative dividends at rate of $6 per share per annum; also to $105 a share and dividends in the case of voluntary distribution of capital assets and $100 a share and dividends in the case of involuntary liquidation. It is subject to call as a whole or in part on any dividend date on 30 days' notice at $105 a share and accumulated dividends.

Tax Provisions—Free of Normal Federal Income Tax, Pennsylvania Four Mills Tax and Massachusetts Income Tax at not exceeding 6% of the dividends refunded to resident owners from company's surplus, upon proper application.

Legal Opinion—Shearman & Sterling, New York.

Public Offering—11,000 shares of $7 cumulative Pfd. stock, Series "A" publicly offered in July, 1924, at $94 and accrued dividend, yielding about 7.45%, by The National City Co. and Cassatt & Co., New York, etc.; 5,000 shares of same stock offered in Oct. 1924, at $96 flat, yielding about 7.29%, by The National City Co., New York, etc.; 10,000 shares of same stock offered in April, 1925, at $99 flat, yielding over 7.05%, by National City Co. and Cassatt & Co., New York, and Thayer, Baker & Co., Philadelphia. The $6 Dividend Series Pfd. (25,000 shares) was first publicly offered in Oct., 1926, at $93.50 per share, yielding about 6.45%, by National City Co., New York, etc., and Cassatt & Co., Philadelphia, etc. 25,000 additional shares $6 Dividend Series Pfd. were publicly offered in April, 1927, at $97.50 per share flat, to yield 6.20%, by the last two named bankers.

Dated—Series "A" 6s, May 1, 1922; 5% Series, May 1, 1926.

Interest Payable May and November 1, at The National City Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; exchangeable in equal aggregate amounts, and interchangeable with fully registered bonds in denominations of $1,000, $5,000 and multiples thereof.

Trustee and Registrar—The National City Bank, New York.

Authorized—Authorized amount, unlimited. Issued, $6,100,000 Series "A" 6s, and $8,000,000 5% Series due 1951, of which $406,500 Series "A" and $46,000 5% Series due 1951 retired by sinking fund to Feb. 14, 1927.

Additional bonds in series bearing the same or different rates of interest, dates, maturities and such other distinguishing features with respect to each particular series, as may be determined by the Board of Directors at the time of the original authorization of each series, subject always to the restrictive provisions of the mortgage, may be issued from time to time in amounts equal to and for the acquisition or retirement of bonds of another series issued under this mortgage or of any bonds secured by lien upon after-acquired property. Additional bonds may also be issued in reimbursement of not exceeding 75% of actual and reasonable expenditures for permanent extensions and additions to the plants and properties of the Corporation made after May 1, 1922, provided net earnings for twelve consecutive months shall have been at least twice the annual interest charges on all First

Mortgage bonds outstanding in the hands of the public, together with those then to be issued. The mortgage contains certain provisions permitting the modification or alteration thereof, or of any supplemental indenture, in any particular, with the assent of the holders of 75% in principal amount, of the outstanding bonds, not including any bonds owned by the corporation, provided that nothing shall permit the extension of the maturity of any bond or the reduction in the rate of interest there or any other modification in the terms of payment of such interest, without the consent of the holder thereof, nor the creation by the Corporation of any mortgage lien ranking prior to or on a parity with the lien of the First Mortgage.

Callability—Series "A" 6s: Not redeemable prior to May 1, 1932; redeemable on any interest payment date upon 60 days' prior notice at 107½ from May 1, 1932 to Nov. 1, 1936, incl.; at 105 from May 1, 1937 to Nov. 1, 1941, incl.; and at 102½ thereafter but prior to maturity.

5% Series due 1951: Subject to call as a whole or in part, either at option of the Corporation or by the sinking fund, on any interest date, upon 30 days' notice, at 105 on or before May 1, 1948, and at 100 thereafter.

Sinking Fund—The mortgage provides for a sinking fund for Series "A" bonds, requiring cash payments to the Trustee on Dec. 1, 1922, and semi-annually thereafter, so long as Series "A" bonds are outstanding, equal in each case to 1% of the largest aggregate principal amount of Series "A" bonds at any time issued, such moneys to be applied toward the purchase of Series "A" bonds up to 102½ and accrued interest, the balance remaining unexpended after three months being reimbursed to the corporation at its request for property expenditures against which no bonds shall have been or may be issued.

A sinking fund is also provided for bonds of the 5% Series, due 1951, requiring semi-annual cash payments to the trustee equal in each case to at least ½% of the aggregate principal amount of said bonds outstanding at the time of such payment. Such moneys shall be applied toward the purchase or redemption and cancellation of bonds of the 5% Series due 1951.

General Reserve Fund—The mortgage requires the corporation annually either to expend for maintenance, repairs, renewals and replacements, for extensions, enlargements and additions against which no bonds may be issued, or for the purchase of First Mortgage bonds, an amount equal to 7½% (subject to periodical redetermination) of the aggregate bonded indebtedness of the corporation outstanding with the public at Dec. 31 of such year, or in so far as such an amount is not so expended, to deposit with the Trustee cash, which may in turn be drawn out to reimburse the corporation for expenditures for one or more of the said purposes.

Security—Secured by a direct first mortgage on the entire physical property of the Corporation.

Covenants—Company covenants that so long as any of the bonds remain outstanding and unpaid, it will not declare or pay any cash dividends on any of its Common stock, except out of surplus earnings from its operations subsequently to May 1, 1922, remaining after deducting therefrom all operating expenses, including taxes of every kind, rentals, insurance, all expenses or charges for current maintenance and repairs, and for renewals and replacements, all interest charges and charges for amortization of debt discount and expense and all other usual and proper deductions from income.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax and Connecticut Personal Property or Exemption Tax 4/10% of principal in any year, refunded upon application.

Legal Opinion—Shearman & Sterling, New York.

Legal Investment for Savings Banks in New Hampshire.

FAYETTE HOME TELEPHONE COMPANY, INCORPORATED

History and Property—Incorp. Oct. 17, 1923 in Del., to take over the business of The Fayette Home Telephone Company, which, latter company was incorporated under the laws of W. Va., in 1901, the Delaware corporation issuing therefor $300,000 of Pfd. stock and 50,000 shares of Common stock without nominal or par value. The new company assumed all assets and liabilities of the old company as well as debts and obligations unpaid upon date of transfer.

The company has exchanges at Lexington, in Fayette county, and in Versailles and Midway, in Woodford county, and county lines radiating from each exchange, the whole serving a population of approximately 95,000. No. of stations at Dec. 31, 1927, 13,292 Franchises were granted in Lexington in 1927 for period of 20 years; Versailles in 1918 for 20 years; and Midway in 1924 for five years. The rates charged vary at different exchanges from $2.00 to $3.75 for residence, and from $3.00 to $6.75 for business telephones.

CAPITAL STOCK

Authorized, 200,000 shares Common of no par value and $300,000 6% cumulative Pfd., par, $100; outstanding, 50,000 shares of Common stock and $300,000 Pfd. Both classes of stock have equal voting power. Transfer Agent and Registrar: Security Trust Co., Lexington, Ky. Annual meeting, first Thursday after February 18.

Dividends—Quarterly dividends at rate of 6% on Pfd. stock regularly paid. Dividends in recent years have been paid on Com. stock as follows: 1916, 6%; 1917, 6½%; 1918, 6%; 1919, 8½%; 1920 to 1922 incl., 8%; 1923, 10%; 1924 to date, 25cts. per share each quarter; payments (since 1924) quarterly, J., A, J & O 1.

FUNDED DEBT

ERIE RAILWAYS COMPANY

History and Properties—Incorporated Sept. 27, 1924, in Pa., and took over the property formerly owned and operated by the Buffalo and Lake Erie Traction Company in the City of Erie, Pa., and adjacent townships, in accordance with the Plan and Agreement of Reorganization dated April 1, 1924. The interurban line between Erie and Buffalo formerly operated by the Buffalo and Lake Erie Traction Co., as a result of reorganization is now owned and operated by the Buffalo & Erie Railway Co., a separate organization. Under the Plan, holders of First and Refunding Mortgage 5% 30-year Gold Bonds of the Buffalo and Lake Erie Traction Co. received for each $1,000 principal amount of the following: 1½ shares of 7% cumulative Pfd. stock (in $100 shares) and 3 shares of Common stock (of no par value) of Erie Railways Company, 1 share of 5% non-cumulative Pfd. stock of Buffalo and Erie Railway Company (of $100 par value), together with $28 in cash. (For latest published statement of Buffalo and Lake Erie Traction Co. see 1924 Public Utility Manual, or consult our Information Department). The Erie & Suburban Ry. Co. and the Erie Electric Motor Co., formerly controlled through stock ownership and lease, have been consolidated (for latest published statements, see 1927 Public Utility Section, page 211). Company owns the entire $40.000 capital stock of the **Erie Coach Company.**

Mileage, Dec. 31, 1927—First track, 40.94 miles; second track 18.22 miles; sidings, etc., 6.96 miles—total operated, 66.12 miles. Rails, T, 80, 95 and 100 lbs. Gauge, 4 ft. 8½ in. Operated by overhead trolley. Equipment: Closed passenger motor cars, 108; service cars, 16; automobiles, 10. Company also operates 8 busses over a round trip mileage of 12 miles.

Valuation—The Public Service Commission of Pennsylvania fixed a valuation as of Oct. 12, 1920 of $4,100,000 for the property, exclusive of an allocation of property then assigned to the Interurban Division, which has now become the sole property of the Erie Railways Company, which, plus net capital expenditures since that date to August, 1924, amount to nearly $5,500,000.

Franchises—All franchises, with minor exceptions, are practically perpetual.

CAPITAL STOCK

Authorized, 60,000 Common shares of no par value, and $1,500,000 7% cumulative Pfd., (par, $100); outstanding, 60,000 Common shares and $1,050,800 Pfd. Of the issued Pfd. stock, $240,700 is held in Company's treasury.

Preferred Stock Provisions—Subject to redemption on any dividend date at 110 and dividends.

Transfer Agents (Both Classes)—Equitable Trust Co., New York.

Registrar (Both Classes)—New York Trust Co., New York.

Annual Meeting—Last Monday in September, in Erie, Pa.

Dividends—Initial dividend (No. 5) of 1¾% for quarter ended Dec. 31, 1925, paid Jan. 2, 1926; also a dividend (No. 1) of 1¾% for quarter ended Dec. 31, 1924, was paid same date. Subsequent Pfd. dividends have been regularly paid quarterly when due, and deferred dividend No. 2 of 1¾% was paid Jan. 3, 1927, leaving dividends still unpaid as of Dec. 31, 1927 (Nos. 3 and 4) of 3½%; payments J, A, J & O 1. Additional bonds may be issued as follows: (a) For the purpose of refunding par for par underlying prior lien bonds, and (b) for not more than 80% of the cost or fair value, whichever is less, of permanent improvements, or additions and the acquisition of new property. No additional bonds may be issued except for refunding prior lien bonds then outstanding unless net earnings as defined in the mortgage for 12 consecutive calendar months out of the 15 immediately preceding application for issue shall have been at least equal to 1¾ times the actual annual interest requirements on all underlying bonds (except bonds held in sinking funds) and all First and Refunding Mortgage Bonds issued and outstanding, including those proposed to be issued.

Callability—Subject to call as a whole or in part on any interest date on and after Oct. 1, 1929 to and including Oct. 1, 1934 at 105; thereafter, to and including Oct. 1, 1939 at 104; thereafter, to and including Oct. 1, 1944 at 103; thereafter, to and including Oct. 1, 1949 at 102; thereafter and prior to maturity at 101.

Maintenance and Renewal Funds—The Company covenants to pay to the trustee on or before April 1 in each year, beginning with the year 1929, as a Maintenance and Renewal Fund, an amount of money as follows: For the years to April 1, 1934, 2% of the railway operating revenues from all sources for the preceding calendar year; for the years thereafter to maturity, 5% of said railway operating revenues. This fund may be used and applied under the mortgage provision for improvements, repairs, renewals, betterments and additions, against which no First and Refunding mortgage bonds may be issued. This fund may, however, be used for the purchase and retirement of First and Refunding mortgage bonds at not exceeding the then redemption price.

Security—Secured by a first mortgage on essential parts of the system and a direct mortgage lien on the balance of the property subject only to $1,576,800 bonds outstanding under closed mortgages which are being retired through annual sinking fund operations.

Tax Provisions—Free of Pennsylvania Four Mill tax. Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Beekman, Bogue, Clark & Griscom, New York (for the bankers), and Brooks, English & Quinn, Erie, Pa. (for the company).

Original Offering—First publicly offered ($1,000,000) in Nov., 1924 at 95 and interest to yield 6⅜%, by Myron S. Hall & Co., New York, and Harper & Turner, Philadelphia.

History—Incorporated Sept. 7, 1895, under the Transportation Corporation Laws of New York and on Nov. 4, 1895, acquired, subject to existing mortgages, the properties, rights and franchises of the following gas companies in Brooklyn: Brooklyn Gas Light Co., Metropolitan Gas Light Co., Fulton Muni-

cipal Gas Co., People's Gas Light Co., Citizen's Gas Co., Williamsburgh Gas Light Co. and Nassau Gas Light Co. Franchises are perpetual and cover Wards 1 to 29, inclusive and 32 of the Borough of Brooklyn, and Wards 2 and 4 of the Borough of Queens.

The Company also acquired, in 1896, the following companies: The Flatbush Gas Company, operating in the 29th Ward of the Borough of Brooklyn; The Newton Gas Company, operating in the 2nd Ward of the Borough of Queens; The Jamaica Gas Light Company; The Woodhaven Gas Light Company and the Richmond Hill and Queens County Gas Light Company operating in the 4th Ward of the Borough of Queens. The Company owned the entire capital stocks and bonds of these companies, which were operated as subsidiary companies, the Brooklyn Union Gas Company supplying all the gas sold by them. On Dec. 31, 1927, these companies, together with the Equity Gas Company, a non-operating company, were merged into The Brooklyn Union Gas Company.

Price of Gas—The following rates for gas became effective October 1, 1922, by an order of the Public Service Commission: First 100,000 cu. ft. of gas, per meter per month, $1.15 per 1,000 cu. ft.; next 200,000 cu. ft., $1.10 per 1,000 cu. ft.; next 300,000 cu. ft., $1.05 per 1,000 cu. ft.; next 400,000 cu. ft., $1.00 per 1,000 cu. ft.; all over 1,000,000 cu. ft., $0.95 per 1,000 cu. ft

Dollar Gas Law Confiscatory—The Company and its subsidiaries instituted suits in the U. S. District Court to have declared unconstitutional the Dollar Gas Law passed by the State Legislature and known as Chapter 899 of the Laws of 1923. This law not only reduced the price of gas to be charged by the various gas companies in the City of New York to $1 per thousand cubic feet, but increased the standard of gas from 537 B.T.U. (as fixed by the Public Service Commission in conjunction with a rate of $1.15 per thousand cubic feet) to a standard of 650 B.T.U.

On March 21, 1925, the Special Master in the case filed his Final Report with the District Court. In the Final Report, as in the Tentative Report and Opinion rendered December 29, 1924, the Special Master found, after resolving all doubts against the Company, that the statute had been proved to be confiscatory as to The Brooklyn Union Gas Company and that a return of $1.00 per thousand cubic feet for gas, whether of the standard actually supplied by the Company or as prescribed by the statute was, is and will continue to be confiscatory. He also found that the company was entitled to a return of not less than 8% per annum, on the fair value of its property devoted to the public service. In his Final Report the Special Master substantially increased his findings as to property values and in addition found that the Company was possessed of "Going Value" in the amount of $6,000,000 over and above the value found for the physical property.

The Final Report of the Master, with one immaterial exception, was confirmed in all respects by the U. S. District Court in an Opinion handed down on June 24, 1925.

The Attorney General of the State appealed from the decision to the Supreme Court of the United States. The Public Service Commission did not join in the appeal, having withdrawn from the case.

Argument on the appeal was made at the October, 1926 term of the court, and on Nov. 29, 1926, the U. S. Supreme Court unanimously confirmed the decision of the District Court, declaring the statute to be confiscatory as against this Company. The Mandate of the Supreme Court was subsequently filed in the U. S. District Court and on Jan. 5, 1927, the latter Court entered its final decree in the case, rendering judgment in favor of the Company.

$6,000,000 THE BROOKLYN UNION GAS COMPANY FIRST LIEN AND REFUNDING MORTGAGE GOLD 6s, SERIES "A"; DUE MAY 1, 1947

Dated May 1, 1922

Interest Payable May and November 1, at The National City Bank of New York.

Denominations—Coupon, $500 and $1,000, and fully registered, $1,000, $5,000 and $10,000. All coupon bonds are registerable as to principal. Coupon bonds in denominations of $500 aggregating $1,000 in principal amount are interchangeable with coupon bonds in denominations of $1,000. Coupon bonds aggregat-

ing in principal amount of $1,000 or multiples thereof, are interchangeable with fully registered bonds. Registered bonds are interchangeable with coupon bonds of the same series.

Trustee—National City Bank of New York.

Provisions of Issue—Authorized issue unlimited. The First Lien and Refunding Mortgage provides for the issuance of bonds thereunder in series bearing the same or different rates of interest, dates, maturities and such other distinguishing features with respect to each particular series as may be determined by the Board of Directors of the Company at the time of the original issue of each series, subject always to the restrictive provisions of the Mortgage. Bonds of any series may be issued from time to time in the future in principal amounts equal to and for the acquisition or retirement of underlying bonds now outstanding with the public, so much of the 7% Convertible Debentures of 1919 as shall not have been converted, and bonds of other series issued under the new mortgage. Additional bonds may also be issued for not exceeding 75% of actual and reasonable expenditures for permanent extensions and additions to the plants and properties of the system made after May 1, 1922, provided consolidated net earnings for twelve consecutive months shall have been at least twice the annual interest charges on all underlying bonds outstanding in the hands of the public, all unconverted 7% Convertible Debentures of 1919, and all First Lien and Refunding Mortgage bonds outstanding and then proposed to be issued.

The First Lien and Refunding Mortgage contains certain provisions permitting the modification thereof or of any supplemental indenture, in any particular, with the assent of the holders of 75% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company; provided, however, that nothing shall permit the extension of the maturity of any bonds or the reduction in the rate of interest thereon, or any other modification in the terms of payment of such interest without the consent of the holder thereof, nor the creation by the Company of any mortgage lien ranking prior to or on a parity with the lien of the First Lien and Refunding Mortgage.

Callability—Not subject to call.

Sinking Fund—None.

Security—Secured by a direct mortgage on the entire property of the Company now owned or hereafter acquired, subject to the following (closed) mortgages retirement of which is hereunder provided for: $264,000 Citizens Gas Light Co. Consolidated (now First) 5s due 1940, and $14,736,000 Brooklyn Union Gas Co. Consolidated (now First) 5s due 1945. Further secured by the pledge of all stocks and $5,222,000 First Mortgage 6½% bonds (the entire funded debt) of the Company's five subsidiaries, The Flatbush Gas Co., The Newtown Gas Co., The Jamaica Gas Light Co., The Woodhaven Gas Light Co. and the Richmond Hill & Queens County Gas Light Co. As further amounts of First Mortgage bonds of the subsidiaries are issued, they shall be acquired by Company and promptly pledged under this mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

THE ARIZONA POWER COMPANY

History—Incorporated March 31, 1908, in Maine, and on Dec. 31, 1922, purchased all the properties and assets of the Prescott Gas & Electric Co. and The Arizona Steam Generating Co. (see 1922 Public Utility Manual, page 1142, or apply to our Information Department).

Property—The Company owns and operates: Two modern hydro-electric power plants, installed capacity 11,500 h.p., located about 65 miles east of Prescott, Ariz.; a modern steam turbo-electric plant, capacity 12,000 h.p., at Clarkdale; electric and gas generating and distributing systems in Prescott; transmission

lines, sub-stations and distribution lines for general distribution of power.

The Company supplies without competition the following: Gas and electricity in Prescott, County Seat; electricity to U. S. Public Health Hospital (1,000 beds) at Fort Whipple, near Prescott; electricity at wholesale or retail in Clarkdale, Jerome, Humboldt, Mayer and Cottonwood; power for mines and smelters in the Yavapai County Copper District, its largest consumer being the United Verde Copper Co.; power to the Central Arizona Light & Power Co., which in turn serves a population of about 60,000 in Phoenix and adjacent territory in the Salt River Valley.

Franchises—All franchises and permits under which the Company operates extend beyond the maturity of all bonds outstanding, the shortest franchise expiring in 1952.

CAPITAL STOCK

Authorized, $3,000,000 Common, $1,000,000 8% cumulative First Pfd., and $1,000,000 6% and 7% cumulative Pfd.; outstanding, Feb. 20, 1928, $3,000,000 Common; $99,400 8% Pfd.; $980,250 7% Pfd., and $19,750 6% Pfd.; par of all issues, $100.

Exchange of 6% Pfd. Stock—Holders of the 6% Pfd. stock have the right to exchange their holdings, share for share, for 7% Pfd. Stock. Of the $1,000,000 6% Pfd. stock originally outstanding, $980,250 has been exchanged for the 7% Pfd. leaving $19,750 unexchanged.

Preferred Stock Provisions—Holders of the 7% Pfd. stock are entitled after payment of cumulative dividends on all 8% First Pfd. stock outstanding, to dividends of 7% per annum in preference to holders of any other stock of the Company now outstanding, and in case of liquidation or winding up of the Corporation are entitled to be paid the full par value of the stock, together with all dividends accrued and unpaid whether or not earned or declared, in preference to any other stock of the Company, except the 8% First Pfd. stock.

Transfer Agent—Registrar & Transfer Co., 7 Dey St., New York.

Registrar—American Exchange Irving Trust Co., New York.

Annual Meeting—Second Friday in October at Portland, Me.

Dividends—Dividends have been paid on both the 8% First Pfd. and 7% Pfd. stocks since issuance; payments quarterly, J, A, J & O 1.

TEXAS-LOUISIANA POWER COMPANY

History—Incorporated in Delaware July 29, 1925; a consolidation of the Continental Gas, Light & Power Co., the Southwestern Gas, Light & Power Co., the Newcastle Light, Power & Ice Co. and a number of independent companies, operating in the States of Texas, Oklahoma, Kentucky, New Mexico and Louisiana. The great bulk of the business is electric light and power. The principal territory served by the Company is in the northeast and central Texas. The Company also serves seventeen communities with ice, including Houston, Fort Worth and Gainesville, Texas. The estimated population served, exclusive of ice, is in excess of 162,000. Number of electric and gas consumers 22,685; water consumers 2,587.

Electric Department—The properties consist of twenty-eight fully equipped electric power plants having a combined capacity of 17,600 h.p. The principal stations are located at Arcadia, Alamogordo and Lordsburg, New Mexico. The Company also serves considerable territory through more than 590 miles of high tension transmission and lateral lines, and 501 miles of local distribution lines. The Company also purchases current at various points from the Texas Power & Light Co., Kentucky Utilities Co., and the Union Gas & Electric Co. At present 90% of the current consumed is produced in the Company's own plants, and 10% is purchased.

Gas Department—The Company owns and operates four natural gas plants, serving the towns of Ranger, Graham, Breckenridge and Nocona, Texas, through over two hundred miles of main and lateral lines, a considerable portion of its gas supply being owned by the Company, the balance being purchased from the Texas Pacific Coal & Oil Co. and the Phillips Petroleum Co.

Ice Department—The Company owns fourteen artificial ice plants operating in conjunction with the electric plants, and three separate ice manufacturing plants, with a total production capacity of 450 tons daily, and storage capacity of 5,500 tons.

Water Department—The Company operates four water systems located at Arcadia, Louisiana, Yoakum, Pecos and Sanderson, Texas, the water supply being derived from deep wells and pumped electrically to adequate storage facilities.

CAPITAL STOCK

Authorized, 30,000 Common shares of no par value, and $5,000,000 cumulative Pfd., par, $100; outstanding, 20,000 Common shares and $1,250,000 Pfd.

Preferred Stock Provisions—Has preference for assets and dividends and is subject to call as a whole or in part on any dividend date, on 30 days' notice, at 107 and dividend. Whenever dividends are in default in an amount aggregating 7%, then Pfd. stock shall have voting power share for share with Common stock. Company shall not, without affirmative vote or written consent of two-thirds of outstanding Pfd. stock, create or issue any shares of stock having preference over or priority to Pfd. stock, nor shall any amendment be made to charter or by-laws diminishing rights of holders of Pfd. stock without like consent. Additional Pfd. stock may be issued, as defined in by-laws from time to time as determined by directors for acquisition of properties, additions and betterments or for other corporate purposes, provided that net earnings after deducting from gross earnings (a) all operating and administrative expenses, including maintenance and taxes but not including Federal Income taxes or depreciation. (b) annual interest on funded debt for twelve calendar months ending not more than two months next preceding, shall have amounted to at least 2½ times annual dividend requirements on Pfd. stock then outstanding and that proposed to be issued.

Transfer Agent (Pfd.)—Union Trust Co., Chicago.

Registrar (Pfd.)—Central Trust Co. of Illinois, Chicago.

Annual Meeting—Third Monday in July.

Tax Provisions—Massachusetts 6% income tax, Maryland 4½ mills securities tax and Pennsylvania 4 mills personal property tax refunded upon application within 60 days after payment.

FUNDED DEBT, JANUARY 31, 1928

(1)

$6,900,000 FIRST MORTGAGE 20-YEAR 6% GOLD BONDS, SERIES "A"; DUE JANUARY 1, 1946

Dated January 1, 1926.

Interest Payable January and July 1, at Central Trust Co. of Illinois, Chicago and Chase National Bank, New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered. Provision is made for the exchange of bearer and registered bonds and for the exchange of bonds of one or both denominations for other bonds of one or both denominations of a like aggregate amount.

Trustee—Central Trust Co. of Illinois, Chicago.

Provisions of Issue—The mortgage securing these bonds provides that additional bonds may be issued thereunder, either in this or separate series, for refunding purposes and for not in excess of 80% of the actual cost or fair value, determined as provided in the mortgage, whichever is lower, of additions, extensions and permanent improvements to the property of the Company made after January 1, 1926, provided, the net earnings of the Company as defined in the mortgage for the twelve calendar months ended within ninety days immediately prior to the application for the new bonds shall have been equal to at least twice the annual bond interest charge of the Company, including interest on the bonds proposed to be issued.

Purpose of Issue—The proceeds of these bonds were used to reimburse the Company in part for capital expenditures heretofore incurred, and to defray part of the cost of the new properties and other additions and betterments, and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date, on 30 days' published notice at 105 and accrued interest on or before Jan. 1, 1931; thereafter at 104 and interest to and including Jan. 1, 1936; thereafter at 102.50 and interest to and including Jan. 1, 1941, and thereafter at 101 and interest to and including July 1, 1945.

Replacement, Renewal, Etc., Fund—The Company covenants that while any of these bonds are outstanding, subject to biennial revision with the approval of the Trustee, it will pay to the Trustee annually an amount equal to 13½% of the gross operating revenues, as defined in the mortgage, less the amount expended during the preceding year on unfunded improvments, betterments, additions, maintenance, repairs, renewals and replacements. The monies so paid may be used for the retirement of bonds outstanding under the mortgage at or below the redemption price or, at the option of the Company, may be used for extensions, improvements, and additions against which no additional bonds may be issued, or for maintenance, repairs, renewals and replacements.

Security—Secured by a direct first mortgage on all of the fixed property now owned by the Company as

provided in the mortgage, subject to underlying property purchase obligations amounting to $280,000.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Reimbursement of the Pennsylvania, California, Connecticut and Kansas taxes not to exceed 4 mills; Maryland 4½ mills tax; District of Columbia and Kentucky 5 mills tax; Michigan 5 mills exemption tax; Virginia 5½ mills tax and Massachusetts income tax not to exceed 6%, to holders upon proper and timely application, as provided in the mortgage.

Legal Opinion—Chapman, Cutler & Parker, Chicago (for the bankers); Frank B. Black, Chicago (for the Company).

Listed—Chicago Stock Exchange.

THE CINCINNATI STREET RAILWAY COMPANY

History and Property—Organized in July, 1880, in Ohio as a consolidation of five local transportation companies. On February 21, 1901, it leased its property to The Cincinnati Traction Company, which operated it until October 31, 1925. On November 1, 1925, it purchased from its lessee all of its rights and interests in the property accruing by virtue of the lease, effected a cancellation of the lease and resumed the active operation of its own property. On April 1, 1926, it purchased the property of The Cincinnati & Hamilton Traction Company for $1,000,000 in stock at par. In June 1926, it purchased the tracks of The Cincinnati, Milford & Blanchester Traction Company running from Cincinnati to Milford, Ohio.

The Company owns and controls 278.61 miles of single track and operates 614 motor passenger cars, 60 trailer passenger cars, 121 service cars and 80 motor coaches.

Franchises—Property is now operated in the City of Cincinnati under a service-at-cost franchise for 25 years from Nov. 1, 1925. Under the terms of this franchise, fares are to be automatically adjusted from time to time to cover operating expenses, taxes, depreciation and fixed charges, including a return on capital stock, amounting to 5% per annum during the first three years and thereafter to 6% per annum. The franchise gives the City the right to control the operation of the property in all respects so long as such control is exercised in such manner as to assure the return on capital. The City has the right at the end of each year to purchase the Company's properties for an amount equal to the aggregate of its then outstanding capitalization consisting of the original $28,000,000, recognized when the franchise went into effect, and additional capitalization issued with the approval of the City and the Public Utilities Commission of Ohio.

The Company has also a 25-year franchise in the City of Norwood, covering the operation of street cars in that city. This franchise is modeled on the Cincinnati franchise.

Motor Coaches—Franchises have also been granted to the Company by the Cities of Cincinnati and Norwood and the village of Cheviot covering the operation of motor coaches.

FUNDED DEBT

$7,000,000 FIRST MORTGAGE GOLD BONDS, SERIES "A" 5½%; DUE APRIL 15, 1952

Dated April 15 1927.

Interest Payable April and October 15, at Guaranty Trust Company, New York, or at The Central Trust Co. in Cincinnati.

Denominations—Coupon $500 and $1,000; principal may be registered, and fully registered bonds of $1,000, $5,000 and multiples of $5,000; interchangeable.

Trustee—Guaranty Trust Co., New York.

Provisions of Issue—Authorized amount not limited; issued, Series A, $7,000,000. Additional bonds, either of Series A or of other series may be issued (a) par for par to refund bonds previously issued under the mortgage and not retired by sinking fund, and also the equipment trust certificates now outstanding (b) for a principal amount of $2,500,000 on account of property in existence April 15, 1927, and not conditioned upon future property additions thereto, and (c) for a principal amount which, together with prior liens assumed or created on property additions, shall not be in excess of 75% of property additions, provided, with respect to all bonds proposed to be issued under (b) and (c), that net earnings after depreciation for twelve consecutive months out of the preceding fifteen, shall have been at least twice aggregate interest and rental requirements, all as defined in the mortgage. In determining the amount of bonds which may be issued under (c) above property and equipment on which prior liens are outstanding or which represent fixed additions to property may not be included in excess of 30% of the total mortgaged property all as measured in terms of cost or value and as defined in the mortgage.

Purpose of Issue—Proceeds of these bonds were to be used to retire $4,500,000 First Mortgage 6% Notes outstanding, to reimburse the Company for capital additions theretofore made, and to provide funds for further additions and other corporate purposes.

Callability—Subject to call as a whole or in part on 30 days' notice on any interest date at 105 and interest on or before Oct. 15, 1932, and thereafter at ¼ of 1% less for each year or fraction thereof expired subsequent to Oct. 15, 1932.

Sinking Fund—A cumulative sinking fund of 1% per annum is provided for the retirement of Series A Bonds. If by Nov. 1, 1940, the franchise has not been extended to Nov. 1, 1960 or a later date, the Company will be required, as long as no such extension has been made, to increase the sinking fund payments sufficient to provide for the retirement of all Series A bonds by the expiration of the franchise or the maturity of the bonds, whichever shall be the earlier.

Maintenance Provisions—At intervals of three years or more subsequent to April 15, 1930, the Trustee may, and if requested by holders of 10% of the outstanding Bonds shall, appoint an independent engineer approved by the Company who shall inspect the mortgaged property and report to the Trustees whether or not it is being properly maintained. In case he finds any under-maintenance, he shall submit to the Trustee estimates of the total maintenance expenditures required during each of the next three calendar years to correct this condition. These estimates the Company will be required to incorporate in its budgets under the franchise, and if any part thereof is disallowed by the City's Director of Public Utilities, the Company shall exercise its right of arbitration as to the amount disallowed and shall appoint as its representative on the Board of Arbitration the aforesaid engineer.

Security—Secured by a direct first mortgage on all fixed property and all equipment owned by the Company, except about one-third of its railway cars, and on these the mortgage has a lien subject to the $512,500 outstanding equipment trust certificates. With the consent of 80% of the outstanding bonds (excluding any bonds held by the Company), the Company may make changes in the mortgage, provided such changes do not modify the terms of payment of principal and interest of any of the bonds or provide for the creation of any prior lien not permitted by the terms of the mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Davis, Polk, Wardwell, Gardiner & Reed, New York (for the Bankers) and Taft, Stettinius & Hollister, Cincinnati (for the Company).

Original Offering—First publicly offered ($7,000,000) in April, 1927 at 100 and interest to yield 5½% by Guaranty Company of New York and W. E. Hutton & Co., Cincinnati.

CAPITAL STOCK

Authorized, 75,000 shares Common stock of no par value; outstanding, 25,000 shares. The Southern Bell Telephone & Telegraph Co. (Bell System) owns 25% of the outstanding stock. Annual meeting in February.

Dividends—In 1927 dividends of 60c per share were paid; payments quarterly J, A, J & O 1.

FUNDED DEBT

$400,000 FIRST MORTGAGE 5½% GOLD BONDS, SERIES "A"; DUE FEBRUARY 1, 1952

Dated February 1, 1927.

Interest Payable February and August 1, at National City Bank of New York, Harris Trust & Savings Bank of Chicago, or Security Trust Co. of Lexington, Ky.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—Security Trust Company, Lexington, Ky.

Provisions of Issue—Authorized, $3,000,000; issued, $400,000 Series "A" 5½s. Under the terms of the mortgage additional bonds of other series may be issued for refunding purposes; and for betterments or the acquisition of new property not to exceed 75% of the cash cost of additional property acquired, and provided further that, except in the cases of bonds issued for refunding purposes, the net earnings of Company after depreciation and taxes (except Federal taxes) available for interest charges, during the period of twelve consecutive calendar months ending not more than 60 days prior to such request for authentication, shall have been not less than two times interest charges during such period on Company's bonded debt outstanding, including interest charges on the bonds proposed to be issued, but excluding interest charges on bonds purchased by the Company and held in the treasury. Such additional bonds may be issued in the future in different series maturing February 1, 1952, and with such interest rates and other provisions as the directors may, from time to time, determine.

Purpose of Issue—Proceeds of the $400,000 Series "A" bonds were used to defray in part the purchase price of the properties acquired.

Callability—Subject to call as a whole but not in part upon three months notice on any interest date at the folowing prices and accrued interest: 105 on or before February 1, 1942; thereafter, on or before February 1, 1947, at 102½; thereafter, on or before August 1, 1951, at 101.

Reserve for Depreciation—Company covenants that it will, during each year this mortgage or deed of trust continues in force, out of its net earnings set aside to its fund known as "Reserve for Accrued Depreciation," an amount equal at least to 5% of its bonded indebtedness then outstanding, and that it will not, against the properties on which said fund must be used, issue any additional bonds, and that said fund will be expended only as authorized by the regulations of the Interstate Commerce Commission.

Security—Secured by a first lien on all the tangible property, rights, and franchises of Company. As of Jan. 1, 1927, Mr. J. E. Jagoe, Appraisal Engineer of the Southern Bell Telephone & Telegraph Co. appraised the real estate, buildings and telephone plant as having a net sound value after depreciation of $690,015.

Legal Opinion—Hunt, Northcutt & Bush, Lexington, Ky.

FUNDED DEBT

$3,500,000 FIRST COLLATERAL LIEN AND REFUNDING GOLD BONDS, SERIES "A," 5½%; DUE JANUARY 1, 1948

Dated, January 1, 1928.

Interest Payable January and July 1, at The National City Bank of New York or Central Trust Company of Illinois, Chicago.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—Central Trust Company of Illinois, Chicago.

Provisions of Issue—Issued $3,500,000 Series "A" 5½s. Additional First Collateral Lien and Refunding bonds issuable in varying series, may be issued only for (a) not to exceed 80% of the cost or fair value (whichever is lower) of fundable acquisitions, or against the deposit of cash, provided earnings applicable to bond interest for a period of 12 months out of the preceding fifteen months shall at least equal 1¾ times the aggregate of (1) the annual interest charges on all bonds outstanding under the indenture, including bonds requested to be certified, and (2) the annual interest and/or Pfd. dividend charge on all the controlled companies' funded debt and/or Preferred stock not pledged under the mortgage (except minority Pfd. stock of Chicago Suburban Gas & Electric Co.); (b) par for par against any fundable prior lien or underlying obligation of a subsidiary: retired or deposited with the Trustee as part of the pledged securities and/or the aggregate par value of any fundable Pfd. stock of a subsidiary which may hereafter be acquired and pledged wth the Trustee; (c) par for par to refund bonds of this or any other series issued under the indenture.

Purpose of Issue—Proceeds from the sale of $3,500,000 First Collateral Lien and Refunding Gold bonds, Series "A" were used to retire the $2,000,000 6½% Convertible Sinking Fund Gold Debenture bonds, due Jan. 1, 1942, in reimbursement of expenditures for additions and improvements already made and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date on sixty days' notice at 105 and accrued interest up to and including Jan. 1, 1938, the premium decreasing ½% of the principal on each July 1 thereafter.

Sinking Fund—Indenture provides that Corporation will deposit with the Trustee annually beginning Jan. 1, 1929, as a sinking fund, a sum equal to 1% of the aggregate principal amount of all Series "A" bonds at the time outstanding, the monies in such fund to be used either for the retirement of Series "A" bonds outstanding or to reimburse the Corporation for fundable acquisitions not theretofore used, or thereafter usable, as a basis for the issue of bonds.

Security—Secured by pledge with the Trustee of all indebtedness (other than current indebtedness not in excess of current assets) of the controlled companies (except North Shore Gas Company and Capital Ice Refrigerating Company); over 99% of the outstanding Preferred and Common stocks of Great Northern Utilities Company, Elk River Power and Light Company, Capital Ice Refrigerating Company and Denver Ice and Cold Storage Company; 62.29% of the capital stocks of Chicago Suburban Gas and Electric Co. (representing ownership of 62.29% of the Common stock of North Shore Gas Co.); 58.75% of the outstanding Common stock and over 34.95% of the outstanding Pfd. stock of Great Falls Gas Co., and 69% of the outstanding Common stock and over 48% of the outstanding Pfd. stock of Great Northern Gas Co., Ltd.; $1,250,000 par value of the authorized and outstanding $1,500,000 par value 7% cumulative Pfd. stock of North Shore Coke and Chemical Co. Upon the acquisition by Corporation of any minority Common shares of a subsidiary such shares shall forthwith become a part of the pledged securities and deposited with the Trustee.

Tax Provisions—Company pays Normal Federal Income Tax up to 2% and will refund upon application, Pennsylvania, California, or Connecticut Personal Property taxes not in excess of four mills per annum, Maryland Securities tax not in excess of four and one-half mills per annum, Kentucky Personal Property tax not in excess of five mills per annum and Massachusetts Income tax not in excess of 6% per annum.

Legal Opinion—Pam & Hurd, Chicago (for the Bankers); Everett L. Millard, Chicago (for the Corporation).

Original Offering—First publicly offered ($3,500,000 First Collateral Lien and Refunding Gold 5½s, Series "A",) in March, 1928, at 97 and interest to yield about 5.75%, by George M. Forman & Co., Chicago.

NORTH SHORE COKE & CHEMICAL COMPANY

(Affiliated with North Shore Gas Company)
(Under Management of the William A. Baehr Organization)

History and Property—Incorporated Jan. 17, 1927, in Delaware, to build a gas, coke and by-products plant at Waukegan, Ill., primarily for the purpose of increasing the supply of gas of the North Shore Gas Company to enable it to meet the rapidly increasing demands of its customers. (See statement preceding).

The company's plant will be located on a tract of 42 acres on the Government maintained deep water harbor at Waukegan, Ill., and will be served by the Elgin, Joliet, & Eastern belt line Railroad, connected with practically every railroad system entering the Chicago territory; thus coal supplies can be received and coke shipped either by water or rail. Plant was to start operation April 1, 1928.

Gas Contract—The North Shore Coke & Chemical Company has entered into an irrevocable contract running for a period of twenty-five years with the North Shore Gas Company whereby the North Shore Gas Company has agreed to purchase approximately 3,000,000 cubic feet of gas per day. This contract contains appropriate labor and material clauses providing for increases in price of gas in accordance with increases in labor and material costs and corresponding decreases in the price of gas with decreases of labor and material costs. Based upon present prices for gas as provided in the contract, payments will be due from the North Shore Gas Company at the rate of $657,000 per annum. This contract has been assigned to the Trustee for the benefit of the bonds described below, and the mortgage securing these bonds is subject to this contract.

Provisions of Issue—Issued, Series "A", $2,000.000. Additional First Mortgage bonds may only be issued to the extent of not to exceed 75% of the cost or fair value (whichever is lower) of new properties or permanent extensions, additions and improvements to the plants and properties of the Company when the net earnings of the Company applicable to bond interest, as defined in the Trust Indenture, for the preceding twelve calendar months ending not more than three months prior to the application for additional bonds shall be equal to at least twice the total annual interest charge on all bonds of this issue then outstanding and in addition, those then proposed to be issued.

Purpose of Issue—Proceeds are being used for the purpose of paying part of the cost of construction of the new gas, coke and by-products plant, the remainder of the estimated cost having been deposited in cash with the Trustee. Any unexpended balance remaining from this issue can be used only for property additions, or to redeem outstanding bonds of this series.

Callability—Subject to call as a whole or in part on any interest date before maturity upon 30 days' notice at 103 and interest to and including March 1, 1937, at 102 and interest thereafter to and including March 1, 1942, and at 101 and interest thereafter prior to maturity.

Sinking Fund—Mortgage provides for semi-annual sinking fund payments beginning Feb. 1, 1929, sufficient on the basis of the initial issue of $2,000,000, to amortize all but approximately $190,000 by their maturity.

Security—Secured by a direct first mortgage on all fixed property now owned by the Company and on the gas, coke and by-products plant proposed to be constructed.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Company will refund, upon timely application, Pennsylvania, California or Connecticut Personal Property taxes not in excess of four mills per annum. Maryland Securities Tax not in excess of four and one-half mills, Kentucky Personal Property tax not in excess of five mills, Massachusetts Income tax not in excess of 6% per annum, to holders resident in those states.

Original Offering—First publicly offered ($2,000,000) in March, 1927, at 100 and interest by George M. Forman & Co., New York, Chicago, etc.

History—Incorporated March 22, 1909, in N. Y. Took over from Mohawk Valley Co. ownership of certain electric railway properties in New York State, which that company had previously acquired from N. Y. Central & Hudson River R. R. (now New York Central R. R. Co.) On March 22, 1909, the Rochester Ry. Co., the Rochester & Sodus Bay Ry. Co. and the Rochester & Eastern Rapid Ry. Co. were consolidated, forming the New York State Rys.

The Rochester & Eastern Rapid Ry. had previously acquired from New York Central & Hudson River R. R. and Central Ry. Syndicate the entire capital stock of Utica & Mohawk Valley Ry.; practically all the stock of Oneida Ry. Co.; a majority of the stock of the Syracuse Rapid Transit Ry. Co. and 50% of the stock (the other 50% being owned by The Delaware & Hudson Co.) of the Schenectady Ry. Co. and increased its stock from $1,500,000 to $15,290,200 to provide for the purchase.

On Oct. 31, 1912, the Utica & Mohawk Valley Ry., Oneida Ry., Syracuse Rapid Transit Ry. and Rochester & Suburban Ry. Cos. were merged into the New York State Railways.

In 1910 the New York State Railways acquired from the Mohawk Valley Co. the entire capital stock of the Ontario Light & Traction Co. During the year 1917, under authority of the Public Service Commission, the lighting property of the Ontario Light & Traction Co. was sold to the Rochester Railway & Light Co. in consideration of the assumption by that company of all the bonded and other indebtedness of the Ontario Light & Traction Co., the Ontario Light & Traction Co. now owning only railway property, which is leased to the New York State Railways. The earnings of the Ontario Light & Traction Co. since the sale of its lighting property Sept. 30, 1917, consist simply of the rental received from the New York Railways and are returnable to the latter company through its ownership of the entire capital stock of the Ontario company.

On Aug. 28, 1919, under authority granted by the New York Public Service Commission, the Company was permitted to merge into itself, the East Side Traction Co., the entire stock of which had been owned since 1912.

Service-At-Cost Contract—Under date of Aug. 1, 1920, the Company entered into a Service-at-Cost contract with the City of Rochester for a term of 10 years. The base value of the property used in serving the Rochester city lines was fixed by the Board of Appraisers at $19,216,000. The Company is entitled to a return ranging from 6% to 8% on this amount plus the cost of any additions thereto. The present rate of fare in Rochester is 9 cts. cash, or tickets at the rate of 8 1-3 cts. each.

Rate on Utica and Syracuse Lines—The N. Y. Public Service Comm. on Aug. 19, 1926, issued an order granting a fare increase to the Utica lines of Company. Under the order Company is permitted to charge in Utica and adjoining villages a 10c cash fare and 7½c ticket fare. Fare was previously 7c. Effective Feb. 10, 1927, a similar increase in the rate of fare in Syracuse was granted by the Public Service Commission.

Subway Contract—It was announced in the annual report for 1927 that Company had entered into an agreement with the City of Rochester to operate the new Subway Railroad constructed by the City at a cost of upwards of $12,000,000. Under the terms of this contract Company is to provide the necessary rolling stock for passenger and freight service and pay the cost of operation and maintenance, after which any surplus or deficit is to be applied as provided in the existing Service at Cost Contract which governs this service. The City assumes all interest and other fixed charges including taxes. In conjunction with this arrangement, agreements were entered into with the various steam railroads entering the City providing for the movement of freight cars to and from commercial sidings located on the Subway Railroad and also the transfer of freight cars from one railroad to another.

Properties—The New York State Railways operates, in the aggregate, 348.28 miles of lines, comprising the city lines in Rochester, Syracuse, Utica and Oneida, and interurban lines to Sodus Bay, Sea Breeze, Summerville, Canandaigua and Geneva. Franchises, with the exception of a few minor extensions, which are for 50 years, are perpetual. The Company also supplements its trolley service with bus lines in and radiating from each city in which it operates. Company's investment in bus lines amounted to approximately $650,000 on Dec. 31, 1927.

NOVA SCOTIA LIGHT & POWER COMPANY, LIMITED

History—Inc. under special act of the legislature of Nova Scotia in 1914, as Nova Scotia Tramways & Power Co., Ltd. (name being changed to present one in 1928), with authority, among other special powers, to purchase the properties and franchises of the Halifax Electric Tramway Co., Ltd. (see Manual for 1916, page 4459), comprising all street railways, commercial electric light and power and gas properties in the City of Halifax and to acquire water powers, lands, etc., on the Gaspereaux River, 55 miles from Halifax, capable of hydro-electric development of approximately 12,000 horse-power. The organization of the Company was affected on Jan. 7, 1917. The Company operates under franchises which are satisfactory in terms and which in the opinion of counsel are without limit of time. Company does the entire electric light, power and gas business and the entire street railway business in Halifax, Nova Scotia, serving a population of about 57,000.

The street railway system includes 24.38 miles of equivalent single track, the greater part of which is double track. The rolling stock consists of 15 closed cars, 46 Birney Safety cars and several miscellaneous cars and sweepers. The lighting and power distributing system is modern in every respect and adequately covers the city. A central steam station with a capacity of 8,311 electrical horse-power, including a new 4,000 horse-power turbo generator is used as a stand-by plant. Company has secured a contract from the Nova Scotia Power Commission under which it obtains power from the Government hydro-electric plant at St. Margaret's Bay under a thirty-year contract at cost. The Company has erected a gas plant near its power station with daily capacity of approximately 500,000 cubic feet. The distributing system consists of 42.86 miles of mains.

CAPITAL STOCK

Authorized, $3,500,000 Common and $2,500,000 6% cumulative Pfd.; outstanding, $2,510,000 Common and $2,078,800 Pfd.; par, $100.

Recapitalization Authorized—At annual meeting of Company, March 7, 1928, recapitalization of Company was authorized by vote of stockholders, subject to approval of the Provincial Legislature and the Nova Scotia Public Utilities Board. The chief points of the plan are as follows: (1) Calling of $2,250,000 of existing 5% First Mtge. bonds and also of $1,432,500 7% General Mtge. bonds, a total of $3,682,500; (2) cancellation of present Pfd. stock, amounting to $2,078,800, and the issue to the shareholders, in exchange, shares of new no par value Com. stock; (3) cancellation of existing Com. stock, amounting to $2,510,000 of $100 par value, and issuing in exchange, of one share of new no par Com. for each 10 shares of $100 par Com. now held; (4) creation of new First Mtge. bonds on or about June 1, 1928, of $3,500,000 Series "A" bearing 5% interest; (5) creation of 25,000 shares of $100 par ($2,500,000) of new 6% cum. Pfd. stock; (6) creation of 40,000 new shares of no par value Com.

stock; (7) change of name of company to "Nova Scotia Light & Power Co."

Preferred Stock Provisions—Pfd. stock has preference for dividends and in case of liquidation, and dividends are payable without deduction for taxes of any nature imposed by any taxing authority in Canada; it also has equal voting powers with the Common stock.

Transfer Agents—Stock transferred by C. J. Hayes and A. W. Wentzell, at Company's office, Halifax, N. S., at Bankers Trust Co., New York, and The Imperial Trust Co., Montreal, Que.

Registrars—The Eastern Trust Co., Montreal and Halifax, and New York Trust Co., New York.

Annual Meeting—In 1927, on April 19.

Dividends—Dividends on Pfd. stock payable semi-annually Jan. and July 2; the Jan., 1918 (dividend No. 2), payment was deferred, owing to the catastrophe in Halifax; dividends Nos. 3, 4 and 5, for the half years ended June 30, 1918, and Dec. 31, 1918, and June 30, 1919, respectively, have been paid. The Jan., 1920 and subsequent dividends deferred; at Dec. 31, 1927, 18 half-yearly dividends were in arrears.

Interest Payable April and October 1, at The Eastern Trust Co., in Canadian gold coin at Halifax, St. John, Montreal, Toronto, Winnipeg or Vancouver; or at option of the holder, at New York, N. Y., in U. S. gold coin.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The Eastern Trust Co., Montreal, Que., and Halifax, N. S.

Provisions of Issue—Issued, $1,500,000, of which $67,500 redeemed to Dec. 31, 1927. A further $2,250,000 par value General Mortgage bonds of any series and bearing such rate of interest and payable in such place or places as the Company may determine, and maturing not earlier than April 1, 1952 are specifically reserved to refund at or before maturity the $2,250,000 First Mortgage 5s, maturing 1946. Additional Mortgage bonds of any series may be issued bearing such rate of interest and payable at such place or places as the Company may determine to the extent of 75% of the fair value or actual cost, whichever is less, of additional property and additions or extensions to the Company's properties or to the properties of the Dartmouth Gas, Electric Light, Heating & Power Co., Ltd., of a permanent nature, and then only when the net earnings of the Company after deduction of operating expenses, maintenance and taxes for twelve consecutive calendar months, within the fifteen calendar months next preceding date of issue, shall have been at least 1½ times the aggregate interest charges on all First Mortgage bonds and General Mortgage bonds then outstanding and proposed to be issued.

Callability—Subject to call in whole, but not in part, except for the sinking fund, on 60 days' notice on any interest date up to and including April 1, 1932, at 110 and interest; thereafter, to and including April 1, 1942, at 105 and interest; thereafter, to and including April 1, 1947, at 102½ and interest; thereafter, at 100 and interest.

Sinking Fund—An annual cumulative sinking fund of 1% of the Series "A" bonds previously certified and delivered became operative April 1, 1924, and will be sufficient to retire by maturity approximately $1,000,000 of the 7% General Mortgage bonds, Series "A", at not exceeding the current redemption prices.

Security—Bonds are a direct obligation of the Company and are secured by a specific mortgage on all properties of the Company, real and immovable, with all buildings and plants and on all rights and franchises, and all bonds, debentures or shares now owned or hereafter acquired, and by floating charge upon all other assets of the Company present and future, subject only to $2,250,000 First Mortgage 5% bonds, due 1946, the mortgage securing which is closed at that amount and for the retirement of which at or before maturity bonds of this issue are reserved.

Legal Opinion—Covert, Pearson & Rutledge, Halifax, N. S., and Ropes, Gray, Boyden & Perkins, Boston (for the company); Victor E. Mitchell, Montreal (for the bankers).

CONSOLIDATED WATER POWER COMPANY

(Controlled by Consolidated Water Power & Paper Co.)

History and Properties—Incorporated in 1919 in Wisconsin; formerly known as the Oneida Power Company. Originally owned and operated a hydro-electric development at Stevens Point, Wis.; and a transmission line from that point to Wisconsin Rapids. It subsequently acquired from the Consolidated Water Power & Paper Co. (see Industrial Manual) essentially all of the water power and hydro-electric properties of the latter Company, including necessary water and flowage rights, located at Wisconsin Rapids and Biron and a transmission line from Biron to Wisconsin Rapids. The Company now owns in fee three water power properties connected by 20½ miles of 44,000 volt transmission lines. The installed capacity of the three properties, both electric and direct connected, totals 34,210 h.p. Company has contract for 10 years from April 3, 1926 to supply power to the City of Wisconsin Rapids and a contract for the life of its First Mortgage bonds, due May 1, 1946, to supply power to the Consolidated Water Power & Paper Co. The transmission system of Company is connected with that of the Wisconsin Valley Electric Co. and with the power properties of the Nekoosa Edwards Paper Co.

CAPITAL STOCK

Authorized and outstanding, $1,000,000. The Consolidated Water Power & Paper Co. owns all the Common stock except directors' qualifying shares. Annual meeting, fourth Wednesday in January

FUNDED DEBT

$1,970,000 FIRST MORTGAGE 5½% GOLD BONDS, SERIES OF 1926; DUE MAY 1, 1946

Dated May 1, 1926.

Interest Payable May and November 1 at First Wisconsin Trust Co., Milwaukee, or First National Bank of Wisconsin Rapids, Wis.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—First Wisconsin Trust Co., Milwaukee.

Provisions of Issue—Issued, $2,000,000 Series of 1926, of which $30,000 had been redeemed to Dec. 31, 1927. The indenture provides that: (1) Company shall each year expend or reserve for maintenance, depreciation, extensions, betterments, improvements and additions to its property, which shall not be used as a basis for certifications of additional bonds, a sum equal to 12½% of gross operating revenues during preceding calendar year; (2) additional bonds may be issued in series, from time to time, in future (with approval of Railroad Commission of Wisconsin), in principal amounts equal to and for: (a) acquisition or retirement of underlying bonds; (b) redemption or retirement of bonds of another series; (c) not to exceed 75% of cost or fair value, of permanent improvements, betterments, extensions or additions to property, provided net earnings available for interst, depreciation, reserves and dividends in any twelve consecutive calendar months within fifteen calendar months preceding such application plus annual net revenue to be derived from new contracts, if any shall be equal to at least two times interest charges on all bonds then outstanding and those to be issued and all underlying bonds. Such additional bonds, to be issued in series, bear such interest rates, be of such maturities, be issued in such amounts, and at such times and for such purposes as is permitted by indenture and as directors shall determine.

Purpose of Issue—Proceeds from sale of these bonds will be used to purchase the Wisconsin Rapids and Biron properties from Consolidated Water Power & Paper Co.

Callability—Subject to call as a whole or in part, on any interest date, on 30 days' notice, to and including May 1, 1932, at 103 and interest; thereafter to and including May 1, 1938 at 102 and interest; thereafter to and including May 1, 1944 at 101 and interest and thereafter at par and interest.

Sinking Fund—A sinking fund beginning Nov. 1, 1927, and annually thereafter, will retire by call or purchase these bonds equal to at least 1½% of maximum amount of such bonds at any time outstanding. Company may anticipate sinking fund requirements by depositing either cash or bonds with Trustee and receive credit for future years.

Security—These bonds are the direct obligation of Company secured by first mortgage upon all property of Company (except certain personal property) now owned and hereafter acquired. Bonds will be further secured by deposit with Trustee of contracts between Company and Consolidated Water Power & Paper Co. and City of Wisconsin Rapids providing for sale and purchase of power.

Tax Provisions—Company pays Normal Federal Income tax up to 2%.

Legal Opinion—Goggins, Brazeau & Graves, (for the Company) and Miller, Mack & Fairchild, (for the bankers).

Original Offering—First publicly offered ($2,000,000) in May, 1926, at par and interest, by First Wisconsin Co., Milwaukee, Wis.

THE GREAT LAKES POWER COMPANY, LIMITED

History and Property—Incorporated March 20, 1916, under laws of the Province of Ontario, Canada. Company has acquired and owns in fee all the water power property, rights and franchises formerly owned and operated by the Algoma Steel Corp., Ltd., at Sault Ste. Marie, Ont. The Province of Ontario has granted the Company the right in perpetuity, without rental or other charges, to the use of 20,000 cu. ft. per second of primary or continuous water on the Canadian side of the St. Mary's River. The rights of the Province of Ontario and of the Algoma Steel Corp., Ltd., (predecessor company), to the use of this water was decided by order, dated May 27, 1914, of the International Joint Commission representing the United States and the Dominion of Canada.

The original development was acquired from the Algoma Steel Corp. and consisted of an intake canal, etc. This canal had a capacity of about 10,000 cu. ft. per second, permitting approximately 14,000 h.p. to be developed. Of this 11,000 water h.p. is sold to the Lake Superior Paper Co. under a 99-year contract, the balance being developed into electric power. To meet the demands of power, the Company constructed an additional canal parallel to the original canal, and other necessary improvements, including a new power house from which about 29,200 electric and 12,000 h.p.

hydraulic is developed. The electric power is sold under long time contracts to the City of Sault Ste. Marie, Algoma Steel Corp., Algoma Central & Hudson Bay Ry., International Transit Co., Lake Superior Paper Co. and others.

Company also owns the entire capital stock of International Transit Co., operating a street railway system in Sault Ste. Marie, Ont., and ferry service between Sault Ste. Marie, Ont., and Sault Ste. Marie, Mich.

CAPITAL STOCK

Authorized and outstanding, $2,000,000 Common and $600,000 7% cumulative Pfd.; par, $100. Pfd. stock has preference for assets. Secretary of Company acts as Transfer Agent and Registrar. Annual meeting, second Wednesday in February.

Dividends—Pfd. dividends regularly paid quarterly, M, J, S & D 15. On Com. dividends of 4% each paid in 1921, 1922, 1923, 1924, 1925, 1926 and 1927; payments quarterly, J, A, J & O.

SALT LAKE TERMINAL COMPANY

(Joint Control)

History and Property—Incorporated Nov. 29, 1913, in Utah, to furnish terminal facilities for both freight and passenger business for the Bamberger Electric R. R. Co. and the Salt Lake & Utah R. R. Co. The capital stock of the Salt Lake Terminal Company is owned, 50% each, by the two above-named roads. The property consists of four and one-half blocks of double tracks and two blocks of single tracks, extending on First West St., from north of South Temple St. to Sixth South St., at the northern end making a connection with the tracks of the Bamberger Electric R. R. Co., and at the southern end with the tracks of the Salt Lake & Utah R. R. Co. The passenger terminal of the Company fronts on South Temple St. and West Temple St. Total track, 3.47 miles. The passenger terminal property includes 90,000 square feet of land, owned in fee, and the freight terminals consist of approximately 109,000 square feet of ground also owned in fee. Franchise of Company was granted Jan. 1, 1914, for a period of 50 years. It is entirely free from burdensome restrictions, and gives the right to handle freight, passenger and express business.

Lease—The Salt Lake Terminal Co. is operated by the Salt Lake & Utah R. R. Co. and the Bamberger Electric R. R. Co. under a 50-year lease which runs to Dec. 31, 1963. Under the terms of the lease, the two operating companies agree to pay to the Terminal Co., annually (each operating Co. paying one-half), a sum sufficient to cover taxes (except income tax) and insurance. In addition on a pro rata basis, according to wheelage, the two operating companies agree to pay annually to the Terminal Co. a sum equivalent to all operating expenses, maintenance and depreciation, and a 6% return on the appraised valuation of the entire property of the Terminal Co. used for terminal facilities.

CAPITAL STOCK

Authorized, $1,000,000; outstanding $200,000; par, $100. Entire stock owned jointly by the Bamberger Electric R. R. Co. and the Salt Lake & Utah R. R. Co. Annual meeting, first Tuesday after first Monday in July. No dividends paid.

Callability—Subject to call in whole or in part at 101 and interest.

Security—Secured by a lien on entire property of the Company subject to the above described underlying bonds.

Deferring of Bond Interest Arranged—In June, 1924, it was stated that net earnings had not been sufficient to pay interest currently on the Gen. & Consolidated Mtge. bonds of the newly organized Cleveland Southwestern Ry. & Light Co. Consequently provision for deferring payment of certain coupons has been necessitated in the interest of these bondholders and to give Company the opportunity to gain

advantage of entrance to Cleveland by private rapid transit right-of-way into the new Union Terminal, which is expected to be completed by 1929. For these reasons interest coupons on the bonds for the 5-year period from Mar. 1, 1924, to Mar. 1, 1929, have been made deferrable until the last five-year period of the mortgage, and will not be paid on the regular interest dates unless earned and payment authorized by directors. It is further provided, however, that such deferrable coupons must be paid prior to the declaration or payment of any dividend on Company's capital stock.

WESTERN RESERVE POWER & LIGHT COMPANY

History—Incorporated in 1925, in Ohio, to take over the companies serving electric light and power in Medina, Spencer, West Salem, Lodi, Burbank and Nova, Ohio, with a total population of about 13,000. Among the properties merged were the following: East Ohio Power & Light Co., Medina, The Spencer Light & Power Co., The West Salem Electric Supply Co., Lodi Light and Power Co., Sullivan Light and Power Co. and The Nova Electric Lighting Company. The territory served is located in Medina, Wayne and Ashland Counties in northern Ohio, about 28 miles southwest of Cleveland. Company is serving at the present time about 2,622 lighting consumers and 105 power consumers. Company obtains its power supply from the Ohio Public Service Company.

CAPITAL STOCK

Authorized 1,000 Common shares of no par value and $100,000 7% Pfd. of $100 par value; outstanding, 1,000 shares Common and $46,200 Pfd. Annual meeting, fourth Thursday in January.

Dividends—Pfd. dividends at rate of 7% per annum were paid in 1926. On Common $2 per share was paid in 1926; 1927, $3 per share.

FUNDED DEBT

$196,000 First Mortgage Sinking Fund Gold 6s, Series "A"; dated June 1, 1925; due June 1, 1945; int. June and Dec. 1, at Atlantic National Bank, Boston. Coupon, $100, $500 and $1,000; principal may be registered.

Provisions of Issue—Authorized issue, $2,500,000 outstanding, $196,000 Series "A" 6s. Additional bonds can be issued at only 80% of the cost of new property and then only when net earnings for the previous 12 months are at least twice the interest on all bonds outstanding and those to be issued. Bonds other than Series "A" can be issued at the prevailing rates of interest at the time of issuance, but not, however, in excess of 7% and the interest periods, callable feature, maturity, place of payment of interest and denominations can be determined by the directors at that time.

Callability—Subject to call as a whole or in part on any interest date at 105 and interest on 20 days' notice.

Sinking Fund—The mortgage provides that the company shall deposit with the Trustee each year beginning June 1, 1926, 1% of all outstanding bonds which must be used for the purchase and cancellation of its first mortgage bonds. If bonds for this purpose cannot be purchased in the market at less than 105 and interest, they may be called at this price.

Maintenance and Depreciation Fund—Provision is made in the mortgage for a maintenance and depreciation fund, in which there will be set aside each year 13% of the gross operating revenues, to be used to maintain the property. Any part of this fund not used for this purpose, shall be reserved for depreciation. This provision is considered adequate to maintain the property at its maximum efficiency.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Original Offering—First publicly offered ($200,000) in June, 1925, at 100 and interest, yielding 6% by Damon & Bolles Co., Boston.

DES MOINES CITY RAILWAY COMPANY

History—Incorporated in 1893, in Iowa; consolidation of the Des Moines Street R. R. Co. and the Des Moines Suburban Ry. Co. Owns and operates a total of 103.31 miles of street railway measured as single track. Gauge, standard. Rail, 45 to 129 lbs. T and girder. Passenger cars, 155; service cars, 33. Is authorized to carry freight.

Franchises—A new "Service-at-Cost" franchise was passed by the City Council on Oct. 24, 1921, and was approved by a large majority of the voters at a special election on Nov. 28, 1921. The company accepted this new franchise on Jan. 25, 1922. The franchise extends for a period of 25 years, and provides for a sliding scale of fares. The city has the right to purchase the property on six months' notice at a price to be agreed upon by the company and the City.

Fares—The "Service-at-Cost" franchise provides for a sliding scale of fares beginning with 8c cash fare and 7½c ticket fare for adults, and 2½c for children and high school students. Under the terms of the franchise, when the Stabilizing Fund reaches $150,000, the next lowest fare becomes effective. The amount accumulated for Stabilizing Fund having reached the sum of $150,000 on Dec. 27, 1923, the adult fare was reduced to 7c cash fare and 7c ticket fare; on June 29, 1924, raised to 8c cash fare and 7½c ticket fare; on Oct. 1, 1924, to 8c cash fare and 8c ticket fare; on Nov. 30, 1924, to 9c cash fare and 8½c ticket fare; on July 18, 1925, to 9c cash and 9c ticket fare and on Oct. 1, 1925, to 10c cash, 9½c ticket fare, children 5c and school children, 2½c. Weekly pass, at $1.25, went into effect Sept. 20, 1926.

Receivership—On April 1, 1927, the Company defaulted in the payment of principal and interest on $618,000 5-Year 7% Debenture bonds and upon application of the holders of these bonds the Federal Court appointed F. C. Chambers and C. L. Herring, Receivers, on Nov. 11, 1927.

CAPITAL STOCK

Authorized, $2,000,000 Common and $3,000,000 7% cumulative Pfd.; outstanding, $1,055,000 Common and $1,964,100 Pfd.; par, $100.

Preferred Stock Provisions—The Pfd. stock carries the same voting powers as the Common stock, and is callable, all or in part, on any dividend date at 107½ and dividends.

Annual Meeting—Third Tuesday in January.

Dividends—Dividends on Pfd. stock regularly paid from Jan. 26, 1922; payments quarterly, J, A, J & O 1. from Jan. 26, 1922 to Oct. 1, 1927, inclusive; none since; payments were made quarterly, J, A, J & O 1. No dividends paid on Common.

THE OTTAWA ELECTRIC RAILWAY COMPANY

(Controlled by Ottawa Traction Company, Limited)

History and Property—The Company operates under the Special Act of the Ottawa City Passenger Railway Company passed by the Province of Canada, in 1866, and subsequent amendments thereto by the Dominion of Canada, with the necessary municipal franchises.

Under the contract with the City of Ottawa dated Jan., 1924, the franchise granted the Company in 1893, with certain amendments, is continued without limitation as to time, subject to the right of purchase by the City of Ottawa stated below. The Company is given certain privileges as regards tax exemption, method of operation of cars, etc., and its franchise to operate any transportation system within the limits of the City of Ottawa is made exclusive. This includes the right to operate motor buses or other automotive equipment and the consequent prohibition of any competition from the operation of such buses or other automotive equipment, entirely within the city limits by other interests.

The City has the right to acquire the properties of the Company at the end of any five-year period subsequent to Aug., 1923, at their actual value as defined in the 1893 franchise. In case of failure to agree, the amount to be paid by the City shall be settled under the provisions of the Ontario Arbitration Act.

Under the agreement with the City of Ottawa, certain provisions are made as to extensions of the Company's system, and a five-cent fare is fixed until Aug. 13, 1928. In 1928 and at the end of any subsequent five-year period the company has the right to submit a new tariff of fares for the next five-year period, and, failing agreement, to apply to the Board of Railway Commissioners, the City having a corresponding right to ask for a decrease of fares, and the decision of the Board in either case being final.

The Company operates with complete equipment, approximately 2 miles of single track and 26.5 miles of double track, equivalent to 55 miles of single track, standard gauge street railway, in the City of Ottawa and surrounding territory. A substantial part of the power used by the Electric Railway system is hydro-electrically generated by the Company at its own power station at the Chaudiere Falls. The balance of the power used by the Company is purchased under favorable contract from The Ottawa Electric Company. The Company also has an up-to-date auxiliary steam plant which can be utilized if necessity requires.

THE CONNECTICUT POWER COMPANY

History and Property—Incorporated May 23, 1899, in Conn., as the Marine Power Co.; name changed to present title June 9, 1905. This company has acquired by consolidation the properties formerly owned by The New London Gas & Electric Co., The Middletown Electric Light Co., The Berkshire Power Co., The Norfolk Electric Light Co. and The Sharon Electric Light Co. Company does the entire gas, electric lighting and commercial power business in New London, Conn.; the entire electric lighting and commercial power business in Middletown, and serves numerous other manufacturing communities in Connecticut, including Canaan, North Canaan, Sharon, Salisbury, Norfolk and Thomaston, Conn., and Millerton, N. Y. Under a 999-year lease, the Company operates The Thomaston Electric Light Company, which serves Thomaston, Conn., and its vicinity. From the hydro-electric plant on the Housatonic River at Great Falls, Conn., where 12,000 h.p. has been installed—ultimate capacity, 16,000 h.p.—wholesale current is furnished under long term contracts to public service companies in Torrington, Bristol and Hartford. Franchises, not limited in time. Power stations located at Falls Village, and Canaan, Conn.; capacity 9,600 k.w.; also purchases power from The Hartford Electric Light Co., Connecticut Light & Power Co., and the Eastern Connecticut Power Co. Power supplied to Central Connecticut Power & Light Co., The Torrington Electric Light Co., Connecticut Light & Power Co. and The Hartford Electric Light Co. Company owns and operates 110 miles of transmission lines which extend from North East, N. Y., through northern Connecticut to Hartford on east and Massachusetts State line at Agawam on north, linking with lines of New York, Connecticut and Massachusetts companies.

Interest in Hartford Gas Company Acquired—In December, 1927, it was announced that Company had completed exchange of 7,650 of its shares for 31,100

shares of Hartford Gas Company. The exchange was on the basis of 4 shares of Hartford Gas Company Common stock for 1 share of Connecticut Power Company Common, and 6½ shares Hartford Gas Company Preferred stock for one share of Connecticut Power Company Common stock.

Lighting Department—Commercial power, 17,423 h.p.; commercial incandescents, 13,619 k.w.; miscellaneous, 25,726 k.w. Gas department—No. of meters, 6,983. Miles of mains, 56.53. FUNDED DEBT

(1)

$600,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE NOVEMBER 1, 1946

Dated November 1, 1926.

Interest Payable May and November 1, at Harris Trust & Savings Bank, in Chicago, and in Battle Creek, Mich.

Denomination—Coupon, $1,000; principal may be registered.

Trustees—Harris Trust & Savings Bank, Chicago, and Murdoch H. MacLean.

Provisions of Issue—Authorized amount unlimited. Issued $600,000 Series "A" 5s and $300,000 Series "B" 4½s. In addition to $200,000 bonds of Series "A" which may be issued at any time upon order of the Company, escrow bonds may be issued (a) for refunding of underlying bonds subject to which any property may be acquired, or of bonds of a prior series issued under this mortgage, and (b) for 75% of cost of additions and extensions to properties, provided net earnings for the preceding year shall have amounted to at least twice annual interest charge on all bonded indebtedness, including bonds then proposed to be issued. Future issues of bonds may be of various series, bearing different rates of interest, with different call features, for different maturities not exceeding thirty years from date of issue, etc.

Callability—Subject to call on any interest date at par and interest, plus the following premiums: 5% if such redemption is effected on or before Nov. 1, 1930; 4% thereafter to Nov. 1, 1934; 3% thereafter to Nov. 1, 1938; 2% thereafter to Nov. 1, 1942; 1% thereafter to Nov. 1, 1945, but without a premium if such redemption is effected on May 1, 1946.

Maintenance and Depreciation—Under the terms of the mortgage, Company agrees to expend or set aside annually for maintenance and repairs or for renewals and replacements of its property, at least 11% of its gross earnings. Any part of this fund not used for such purposes may be expended for extensions and additions to the properties, for which no First Mortgage bonds may be issued, or for the purchase or redemption of bonds of this issue. The above percentage is subject to redetermination.

Security—First lien on entire property. The mortgage contains provisions permitting its modification (except in certain important particulars) with the assent of the Trustee and the holders of 80% in aggregate principal amount of bonds outstanding thereunder.

Original Offering—First publicly offered ($600,000 5s) in November, 1926, at 101 and interest, to yield over 4.90%, by Harris Trust & Savings Bank, Chicago.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Exempt from Personal Property taxes in Michigan.

MISSOURI RIVER BRIDGE COMPANY

History and Property—The Company owns and operates under perpetual charter from the United States of America, the bridge over the Missouri River at Sioux City, Iowa. The bridge serves without competition, Northwestern Iowa and Northeastern Nebraska, and is the only bridge except railroad bridges over the Missouri River between Yankton, S. D., eighty-five miles to the north, and Omaha, Neb., a distance of one hundred miles south.

Charter—The charter from the United States of America under which the bridge is operated grants in the opinion of counsel, to the Missouri River Bridge Company the right to operate perpetually a bridge over the Missouri River connecting Sioux City, Iowa, with the Nebraska shore, and to charge reasonable tolls for the same under the jurisdiction of the Secretary of War of the United States.

FOREIGN POWER SECURITIES CORPORATION LIMITED

History—Incorporated in 1927 under the laws of the Dominion of Canada, primarily to acquire selected securities of electric light and power companies operating in foreign countries. Corporation has acquired a substantial interest in the securities of L'Energie Industrielle and indirectly in all its subsidiaries as well as directly in two of them, namely, L'Union Hydro-Electrique Armoricaine and the Societe Hydro-Electrique du Sud-Est.

L'Energie Industrielle—This company, which has been in successful operation since 1906, generates, distributes and sells electricity in France. Besides its own system it owns or controls and operates ten subsidiaries. The combined system comprises 23 hydro-electric plants, 15 steam plants, 2,470 miles of high tension transmission and primary distribution lines and 1,734 miles of secondary distribution lines. Its aggregate hydro-electric resources are capable of developing 122,600 h.p. of which 43,600 h.p. is installed and in operation. The steam plants develop 44,300 h.p., and in addition a further 44,000 h.p. is purchased, making a total of 131,900 h.p. available for distribution throughout the system. Its operations, with the exception of a small plant serving 3,000 customers in Madagascar, are well distributed throughout France, including Brittany and the cities of St. Nazaire and Vannes, the Pyranees and the cities of Bayonne and Biarritz, the Cote d'Azure and the cities of Menton and Monte Carlo. In all 972 communities are served and have a combined population of approximately 1,200,000. The entire system had 170,000 connected customers on March 31, 1927. Sales: 1926, 110,000,000 k.w.h.; 1925, 65,000,000 k.w.h.; 1924, 54,000,000 k.w.h.

L'Energie Industrielle has outstanding francs 105,000,000 Common stock which is listed on the Paris Bourse. Dividends at the rate of 10% or more have been paid on this stock since 1918 and in 1926, 11% was paid.

Societe Hydro-Electrique du Sud-Est—This concern is a subsidiary of L'Energie Industrielle and owns several water powers aggregating 59,000 h.p. ultimate capacity. The Falls of the Allemont have already been developed with 2,400 h.p. installed under a head of 102 feet; a third unit will be added to bring the capacity of this plant to 3,600 h. p. The development of the Falls of the Roya is nearing completion and will be in operation by June 1, 1927, with an installed capacity of 10,000 h.p. under a head of 224 feet. The most important of the undeveloped powers of the Company is on the Sarennes where the ultimate installed capacity will be 44,000 h.p. under a head of 3,283 feet. These powers are being developed or held in reserve to supply the needs of various distributing subsidiaries of the parent company, particularly in the southeastern part of France.

L'Union Hydro-Electrique Armoricaine—This is another subsidiary of L'Energie Industrielle which owns an important water power on the Blavet at Guerledan. It is the only water power of substantial capacity in Brittany or, in fact, the northern part of France. It is situated almost in the centre of the region of Brittany where the distribution of power is largely controlled by the parent company. The power will be supplied to furnish the requirements of the parent company and its subsidiaries operating in this region. The development as of April, 1927, was well under way with all under-water work completed and the plant is expected to go into operation about May 1, 1928, with an installed capacity of 20,000 h.p. under a head of 138 feet.

UNITED ELECTRIC SERVICE COMPANY

(Unione Esercizi Elettrici)

History and Property—Incorporated in 1905 under the laws of Italy. Owns and operates directly or through subsidiaries, a comprehensive system for the generation, transmission and distribution of electricity for electric power and light purposes. Territory served embraces over 1,000 communities in Italy, and the zones served are located in the provinces of Genova, Torino, Novara, Cuneo, Spezia, Forli, Pesaro-Urbino, Ancona, Macerata, Ascoli, Roma, Teramo, Chieti, Aquila, Caserta, Perugia, Potenza, Salerno, Bari. The principal districts served include Rivoli, Stresa, Pallanza, Viareggio, Santa Margherita, Rapallo, Ceva, Chiavari, Marche, Abruzzi, Umbria, Basilicata and Tevere. The aggregate population served is estimated over 5,000,000. No. of consumers, 380,000.

The properties of the Company and its subsidiaries include 50 hydro-electric plants with a present installed capacity of 82,800 h.p. and a steam plant of 7,200 h.p. The Company proposes to construct additional hydro-electric plants with an installed capacity of 20,000 h.p., and its plans include 150,000 h.p. to be subsequently developed. From these plants power is sent over 4,540 miles of high tension transmission lines to the various distributing systems, which carry the current directly to the consumer through 2,024 substations and 2,145 miles of distribution lines. While the various districts served by the Company are not directly connected by the lines of the Company, nevertheless, through the net work of transmission lines of other companies, substantially all these plants are interconnected. The revenues of the electric power and light business of the Company are divided about 50% light and heat and about 50% for power.

Franchises—The Royal Decrees authorizing the water power franchises and given by the Ministry of Public Works have a duration of 60 years. Franchises obtained in accordance with Royal Decree of October 9, 1919 Law No. 2161 can be extended until January 31, 1977. The water power franchises of the Company in general continue for about 55 years.

CAPITAL STOCK

Outstanding, 3,719,900 shares of 50 lire par value. In addition 80,600 shares are held in the treasury and 1,199,500 shares are held in escrow for purchase under option warrants.

Dividends—Dividends in recent years have been paid out of earnings and accumulated surplus: 1923, 15%; 1924, 15%; 1925, 16%; 1926, and 1927, 18% each.

FUNDED DEBT

$5,966,000 EXTERNAL FIRST MORTGAGE SINKING FUND GOLD BONDS, SERIES "A" 7%; DUE DECEMBER 1, 1956

Dated December 1, 1926.

Interest Payable June and December 1, in U. S. gold coin of present standard of weight and fineness at The Chase National Bank of the City of New York or Blair & Co., New York, Fiscal Agents.

Denominations—Coupon, $1,000; principal may be registered.

Trustee—The Chase National Bank of the City of New York.

Provisions of Issue—Authorized and issued, $6,000,000 Series "A" 7s, of which $5,966,000 were outstanding as of June 30, 1927. The trust indenture provides for additional bonds which may be hereafter authorized to a total amount (including the Series "A" bonds) of $10,000,000. Such additional bonds, under certain conditions, may be issued in series which may vary from the bonds of Series "A" as to interest rate, maturity date and in certain other respects. Additional bonds may be issued either (a) to an amount not exceeding 50% of the cost or fair value, whichever is less, of additional property and improvements, provided net earnings of Company, as defined in the indenture for 12 consecutive months out of 15 months immediately preceding, shall have been at least twice the annual interest on the divisional bonds and on all bonds outstanding under the indenture, and on the bonds for which the application is made; or (b) par for par to retire bonds of any series then outstanding under the indenture.

Purpose of Issue—Proceeds of these bonds were to be used for the purpose of developing hydro-electric properties, for the construction of additional transmission lines in order further to interconnect the various properties of the Company, and for other corporate purposes.

Stock Purchase Warrants—Attached to each definitive bond is a detachable warrant entitling the holder to purchase, on or before Dec. 31, 1931, 100 shares of the fully paid capital stock of the Company (par value 50 lire) at the equivalent of 50 lire a share, at the rate of exchange current at the time of purchase. In no event, however, shall this price be less than $5 per share. There are appropriate provisions protecting the interests of the holders of warrants in case of a change in the par value of the stock, in the case of the issuance of additional shares of stock as a stock dividend, and in case of the issuance of additional shares for a consideration in cash or property less than the then existing purchase price per share.

Callability—Subject to call for sinking fund on April 15 and October 15 in each year at 100 and accrued interest. Otherwise redeemable in whole or in part on any date on 60 days' published notice at 105 and accrued interest to and including December 1, 1936, and thereafter at par and accrued interest, plus a premium of 1% for each five year period and/or part thereof of unexpired term.

Sinking Fund—For the purpose of paying interest on all bonds of Series "A" and of creating a cumulative sinking fund sufficient to redeem all of such bonds on or before the date of maturity, the Company will pay to the Fiscal Agents the sum of $242,000 semi-annually on May and November 1 of each year beginning May 1, 1927. Each such payment is to be applied, so far as necessary, to the payment of interest due on the next interest date on all bonds of Series "A" outstanding, and the balance is to be applied as a sinking fund for the purchase of bonds of Series "A," if obtainable at not exceeding their principal amount and accrued interest, or if not so obtainable, to the redemption on the next succeeding October 15 and April 15 of bonds of Series "A," to be called by lot, at their principal amount and accrued interest. Such sinking fund is calculated as sufficient to retire all of the Series "A" bonds on or prior to their maturity date.

Security—Secured by a direct first mortgage on the physical properties of the Company and its subsidiaries subject only to prior mortgages on certain parcels as follows: $211,820 divisional bonds and $200,000 purchase money mortgage on the municipal plant of the Municipality of Foligno. The total value of the properties on which these bonds are secured by first mortgage exceeds 90% of the total value of all properties mortgaged as security for these bonds. The mortgaged properties have been appraised by independent engineers as having a sound valuation after depreciation of $12,536,370, exclusive of properties to be acquired

and constructed with proceeds of this issue. The trust indenture provides that no cash dividends shall be paid on Common stock except from earnings accumulated subsequent to June 30, 1926.

Tax Provisions—Interest is payable without deduction for and free from any present or future taxes of the Kingdom of Italy or of any taxing authority thereof or therein.

Legal Opinion—Davis, Polk, Wardwell, Gardiner & Reed, New York, and Roberto Pozzi, Milan, Italy (for the Bankers) and Camillo Giussani (for the Company).

Original Offering—First publicly offered ($6,000,000) in January, 1927, at 92½ and interest, to yield 7⅝%, by E. H. Rollins & Sons, J. A. Sisto & Co., Blair & Co., Inc., Banca Commerciale Italiana Trust Co., New York.

OTHER FUNDED DEBT

In addition to the above-described Series "A" bonds, there were outstanding June 30, 1927, $411,820 Divisional Bonds and Purchase Money Mortgage payable in lire (closed issues).

FUNDED DEBT

$1,485,000 FIRST MORTGAGE SINKING FUND 6% GOLD BONDS, SERIES "A"; DUE DECEMBER 1, 1956

Dated December 1, 1926.

Interest Payable June and December 1 at The Garfield National Bank of the City of New York.

Denominations—Coupon, $1,000; principal may be registered.

Trustee—The Garfield National Bank of the City of New York.

Provisions of Issue—Issued, Series "A," $1,500,000, of which $15,000 retired through sinking fund to Dec. 31, 1927. Mortgage provides, that subject to the limitations thereof, additional series of bonds of such maturities and rates of interest as the Board of Directors may determine, may be issued to the extent of 70% of the cost or fair value of permanent improvements to the plant and system of the Company made after Jan. 1, 1928, but due allowance must be made for the cost or value of any improvements replaced or superseded by such permanent improvements, and additional bonds can be issued only provided that net earnings, as defined in the mortgage, are equal to at least 1¾ times interest requirements on all bonds outstanding and those to be issued.

Purpose of Issue—Proceeds were used for the following purposes: $850,000 for redemption of existing funded debt maturing April 15, 1927, and the remaining $650,000 for additions, extensions and improvements.

Callability—Subject to call as a whole or in part upon 30 days' notice on or before Dec. 1, 1936, at 105 and interest; after Dec. 1, 1936 to Dec. 1, 1940, at 104 and interest; after Dec. 1, 1940 to Dec. 1, 1944, at 103 and interest; after Dec. 1, 1944 to December 1, 1948, at 102 and interest; after Dec. 1, 1948 to Dec. 1, 1952 at 101 and interest, and at 100 and interest after Dec. 1, 1952.

Sinking Fund—A sinking fund of not less than ½ of 1% of all outstanding bonds, shall be paid by the Company to the Trustee during each and every year after 1926 for the purpose of the purchase and retirement of outstanding bonds. If bonds are not purchasable at or less than the redemption price then in effect, the Trustee may call bonds at such redemption price in the amount available in the sinking fund for redemption.

Maintenance and Renewal Fund—Mortgage provides that after Dec. 31, 1926, not less than 9% of the gross earnings of the system shall be expended or reserved for improvements, additions, extensions, replacements, renewals, maintenance and depreciation in each calendar year.

Security—Secured by a direct first mortgage on all the physical properties, rights and franchises of the Company now owned or hereafter acquired.

Tax Provision—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Joseph Thompson, Atlantic City, and J. J. Treacy, Jersey City (for the Company) and Edwards, O'Loughlin & George, New York (for the Trustee) and Cooke & Marvin, New York.

Dividends—Preferred dividends payable quarterly, F, M, A & N 1. No dividends paid on Common.

FUNDED DEBT

$2,800,000 FIRST MORTGAGE GOLD 5½s, SERIES "A"; DUE DECEMBER 1, 1945

Dated December 1, 1925.

Interest Payable June and December 1, at Mississippi Valley Trust Co., St. Louis, Mo., or at New York Trust Co., New York.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—Mississippi Valley Trust Co., St. Louis, Mo.

Provisions of Issue—Issued, $2,800,000 to retire outstanding bonds of the West St. Louis Water & Light Co., to acquire the properties of the West St. Louis Pipe Line Co., which were under lease and operated by the West St. Louis Water & Light Co., and for other corporate purposes. The mortgage provides that $2,200,000 additional bonds may be issued thereunder either in this or other series, bearing interest at such rate as may be determined, for refunding purposes and for not in excess of 80% of the actual cost or fair value, whichever is lower, of additions, extensions and permanent improvements to the property of the Company made after July 31, 1925, provided net earnings of Company as defined in the mortgage for the 12 calendar months immediately prior to the issuance of the new bonds have been at least 1¾ times interest charges on all bonds which will be outstanding in the hands of the public under this mortgage, including interest on the proposed issue of bonds.

Callability—Subject to call as a whole or in part on any interest date upon 30 days' notice at 105 and interest on or before December 1, 1935, and thereafter at ½ of 1% less for each subsequent year prior to December 1, 1945.

Reserve for Maintenance and Replacements—Company covenants to expend or reserve for maintenance, renewals and replacements of or to the mortgaged property, an amount equal to not less than 9% of the annual gross earnings of Company derived from the mortgaged property, against which expenditures no first mortgage bonds may be issued.

Security—Secured by a first mortgage on the entire property of Company now owned or hereafter acquired. On the basis of reproduction value less depreciation, as reported by Alvord, Burdick & Howson of Chicago, as of September 1, 1923, and with proper allowance for additions and improvements since made, the properties have a value of $6,175,111.

Tax Provisions—Company pays Normal Federal Income tax up to 2% and agrees to reimburse Pennsylvania, California, Connecticut and Kansas Taxes not to exceed 4 Mills, Maryland 4½ Mills Tax, District of Columbia and Kentucky 5 Mills Tax, Michigan 5 Mills Exemption Tax, Virginia 5½ Mills Tax, and Massachusetts Income Tax not to exceed 6% to holders upon proper and timely application as provided in the mortgage.

Legal Opinion—Chapman, Cutler & Parker, Chicago, and Bryan, Williams & Cave, St. Louis (for the Bankers), and Charles M. Polk, St. Louis (for the Company).

Original Offering—First publicly offered ($2,800,000) in December, 1925, at 98.50 and interest, yielding over 5.62%, by Francis Bros. & Co. St. Louis, and P. W. Chapman & Co., Inc., New York.

BINGHAMTON RAILWAY COMPANY

History and Property—Incorporated Sept. 30, 1901, in N. Y.; a consolidation, Dec. 6, 1901, of the Binghamton R. R. Co. and the Binghamton, Lestershire & Union R. R. Co. Does the entire electric street railway business in the City of Binghamton and the principal adjacent communities. Total population served, 100,000. Franchises in city of Binghamton and in villages of Port Dickinson, Johnson City and Endicott, N. Y., are perpetual and practically exclusive. All franchises, both city and interurban permit the transportation of freight and express. In addition to its railway business the Company furnishes electric light and power to Endicott and vicinity. Also owns the Binghamton Industrial Exposition grounds, totaling 55 acres of city property.

Mileage and Equipment—Line of road, 31.59 miles; second track and sidings, 16.13 miles—total track 47.72 miles. Gauge, standard. Rail, 60 to 103 lb. T and girder. Passenger cars: Closed wood, 23; closed steel, 48; open motor, 7; service, 14; snow sweepers, 3; snow plows, 2. Power station is at Binghamton; also has a sub-station at Endicott, which furnishes electric lighting to Endicott. Power purchased from Scranton, Montrose & Binghamton RR. and Binghamton Light, Heat & Power Co.

Former Receivership—Judge George W. Ray on Oct. 8, 1918, appointed William G. Phelps as Receiver for the Company. The receivership was lifted Feb. 23, 1924, by order of the Court and the Receiver discharged.

Reorganization Committee—A reorganization committee was formed to work out a new financial plan, the members of which are: Harry Evers, Buffalo, Chairman; Walter H. Morse, Binghamton; and J. H. Pardee, New York. The Secretary is H. C. Hasbrouck, 61 Broadway, New York.

Proposed Reorganization—In notice sent June 6, 1925 to security holders, the Reorganization Committee stated that it had been requested by Company and holders of a large amount of Consolidated bonds to act as a Reorganization Committee in an endeavor to work out a financial reorganization that will be fair to all concerned. If substantially all bonds are deposited Company is assured of support from responsible financial interests necessary to carry out the plan the essential features of which are as follows: Company's electric properties, including such properties as are not devoted exclusively to railroad uses, to be sold for an amount at least sufficient to pay in cash the underlying bonds and secured notes. The holders of the First Consolidated Mortgage 5% bonds, due Nov. 30, 1931, to receive for each $1,000 principal amount thereof together with the interest accrued thereon, $600 principal amount of new 6% First Mortgage bonds and $250 par value of 6% Pfd. stock. of Company or a successor Corp. The holders of the General & Refunding First Mortgage 6% bonds, due Jan. 1, 1939, to receive for each $1,000 principal amount thereof together with the interest accrued thereon, $1,000 par value of new 6% Pfd. stock. The new 6% First Mortgage bonds are to be a part of a new issue of bonds of Company or of a Corp., which shall acquire the railway properties of Company, to mature 50 years from their date, to bear interest at the rate of 6% per annum payable semi-annually, to be redeemable, in whole or in part at their principal amount and accrued interest, and to be secured by a first mortgage upon the railway properties and franchises now owned or which may be hereafter acquired, which mortgage shall be a modern open-end mortgage permitting the issuance of bonds in series bearing different rates of interest, maturities and/or redemption prices. The new Pfd. stock shall be non-cumulative Pfd. stock of Company or of a Corp. which shall acquire the railway properties of the Company, entitled to non-cumulative dividends at the rate of $6 per annum, payable quarterly and shall be redeemable at the price of $100 per share. Said new Pfd. stock may either have the par value of $100 per share or may be without par value, but entitled to $100 per share in preference to the Common stock. upon liquidation, dissolution, or winding up, in which event the term "par value" as herein used shall be deemed to be the amount to which the Pfd. stock shall be entitled upon liquidation, dissolution, or winding up. Said new Pfd. stock shall be non-voting and non-participating in any new issue or offering of stock or obligations convertible into stock.

The Reorganization Committee recommended deposit of bonds with The Chase National Bank, New York. No expenses of the Reorganization Committee will be assessed against depositing bondholders. As of April 1, 1927 the Reorganization Committee held $1,580,000 face amount of the $1,782,000 Consolidated 5% bonds due 1931, or more than 88%; also 96% of the General and Refunding Mortgage 6% bonds due 1939 which are not prevented from deposit by court orders or similar restraints.

Receivership—By order dated Oct. 3, 1925, Frank Cooper, U. S. District Judge for the Northern District of New York, on a creditor's Bill of Complaint appointed Edwin M. Walker of Schenectady, and William H. Riley of Binghamton, receivers of all the property and assets of Binghamton Ry. Co.

Sale Ordered—Foreclosure action was begun by the trustee of the Consolidated Mortgage, and sale of the property of Company was ordered for Dec. 1, 1927; upset price $2,300,000.

Decree of Foreclosure Set Aside—In the course of the foreclosure proceedings Counsel for the Empire Trust Co. of New York as Trustee under the General & Refunding Mortgage dated Jan. 1, 1924, questioned whether the Mortgage was not a first lien on certain important portions of the property, including the Binghamton Industrial Exposition grounds and other real estate not used in operation, and all the property devoted to electric light and power service in Endicott and vicinity, claiming that the Consolidated Mortgage by its terms does not cover this property. As a result of his motion Judge Cooper by order under Jan. 7, 1928, set aside the Decree of Foreclosure and ordered rehearings on the issue thus presented.

Fare Increase Authorized—The New York Public Service Commission in Oct., 1927, authorized William H. Riley, receiver of Company, to charge a 10-cent cash fare, four tokens for 30 cents, on its two operating zones known as the City and Endicott zones. The new fare rates became effective on Oct. 16, 1927, and are to continue in effect until June 30, 1929, and thereafter until otherwise ordered.

BERLIN CITY ELECTRIC COMPANY, INCORPORATED

(Berliner Staedtische Elektrizitaetswerke Aktien Gesellschaft)

History—The Berlin City Electric Company (Berliner Staedtische Elektrizitaetswerke Akt.-Ges.) and the **Berlin City Gas Company** (Berliner Staedtische Gaswerke Akt.-Ges.) were organized by the City of Berlin, Germany, in 1923, for the purpose of separately operating the electrical and gas works formerly operated by the City, all the stock of both companies being owned by the City of Berlin.

The Berlin City Electric Co., Inc., operates under lease from the city, the electrical works which since 1915 had been operated directly by the city. The business was founded in 1884 by the Allgemeine Elektricitaets Gesellschaft (General Electric Company, Germany), and operations were carried on through a subsidiary, under concessions from the city, until 1915. The city of Berlin owns all of the company's capital stock. The electric power properties of the city have been leased to the company for a period of 50 years from December 21, 1923. The amount of the annual rental payable to the city is based on gross receipts from sales of current and is subject to change. Under the terms of the lease, however, the company is empowered to fix rates for the sale of electricity adequate to cover all operating ex-

penses, interest and amortization of loans, depreciation and other proper reserves. The city has agreed to assume, upon termination of the lease, all obligations of the company, including interest and amortization of loans, and the company has agreed not to consent to any change in the lease in this respect or as to its right to fix rates, so long as the debentures are outstanding.

The company sells about 90% of the electric current supplied in Berlin, which, with a population of about 4,000,000, is the third largest city in the world. In the districts of the city which it serves, the company is practically without competition. A new plant, owned by the city and leased to the company, has been completed at Klingenberg (formerly Rummelsburg), a suburb of Berlin, increasing the capacity by approximately 220,000 kilowatts. With the completion in Dec., 1926, of two out of three units of this plant, generating capacity was increased from 221,500 kilowatts to 381,500 kilowatts, which should materially reduce the proportion of current purchased (amounting in 1925 to about 55% of total current transmitted) and result in substantial economies. The third unit of the new plant, to be completed in the fall of 1927, will increase generating capacity by an additional 80,000 kilowatts. Distributing lines at present aggregate over 8,000 miles. Customers, numbering approximately 417,000, include purchasers of current for domestic and industrial purposes, as well as for operation of surface and underground railways. A large majority of the industrial concerns in Berlin are customers of the company, including the Siemens concern, the Allgemeine Elektricitaets Gesellschaft and the German National Railways.

Sales in 1924 amounted to over 462,000,000 k.w.h., for 1925 were over 662,000,000 k.w.h. and for 1926 approximately 717,000,000 k.h.w. Number of customers during 1924 increased from 216,333 to 273,787, in 1925 again increased to 369,205 and at the end of 1926 there were about 440,000.

The gas plants of the Berlin City Gas Co. have a daily capacity of over 64,000,00 cu. ft. Sales in 1924 amounted to about 11,200,000,000 cu. ft., and in 1925 to about 13,800,000,000 cu. ft.

CAPITAL STOCK

Authorized and outstanding, 1,000 shares of 15,000 Reichmarks each, or 15,000,000 Reichmarks ($3,571,429). All owned by the city of Berlin.
